MAYOSPERSE 7700

ACTIVE INGREDIENT:
Poly(dimethylamine)dimethylamineioleamine(dimethylamine)oleic acid dichloride ........................................... 0.6%
OTHER INGREDIENTS: .................................................................................................................................................. 40.0%
TOTAL: ........................................................................................................................................................................... 100.0%

KEEP OUT OF REACH OF CHILDREN

CAUTION

FIRST AID

If Swallowed
- Call poison control center or doctor immediately for treatment advice.
- Have person sip a glass of water, if able to swallow.
- Do not induce vomiting unless told to do so by the poison control center or doctor.
- Do not give anything by mouth to an unconscious person.

If on Skin or Clothing
- Take off contaminated clothing.
- Rinse skin immediately with plenty of water for 15-20 minutes.
- Call a poison control center or doctor for further treatment advice.

If in Eyes
- Hold eye open and rinse slowly with water for 15-20 minutes.
- Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
- Call a poison control center or doctor for further treatment advice.

In Case of Emergency, Endangering Life or Property, Call: 800-424-9300

Precautionary Statements

Hazards to Humans and Domestic Animals

CAUTION: Harmful if swallowed. Harmful if absorbed through the skin. Causes moderate eye irritation. Avoid contact with eyes, skin or clothing.

Personal Protective Equipment

- All mixers, loaders, applicators and other handlers must wear:
  - Long sleeved shirt and long pants, socks and shoes, chemical resistant gloves (such as any waterproof material, selection category A), chemical resistant apron and chemical resistant eyewear.

User Safety Requirements

- Follow manufacturer's instructions for cleaning/maintaining personal protective equipment (PPE). If no such instructions for washables exist, use detergent and hot water.
- Keep and wash PPE separately from other laundry.
- Discard clothing and other absorbent materials that have been drenched (except as required by directions for use) or heavily contaminated with this product's concentrate. Do not reuse them.

User Safety Recommendations

- User should wash hands before drinking, chewing gum, using tobacco, or using the toilet.
- User should remove clothing/personal protective equipment immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.
- User should remove personal protective equipment immediately after handling this product. Wash outside of gloves before removing. As soon as possible wash thoroughly and change into clean clothing.

Environmental Hazards:
This pesticide is toxic to fish, aquatic invertebrates and clams. Do not discharge effluent containing this product into lakes, streams, ponds or estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharging. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of the EPA.

Manufactured by:

EPA Reg. No. 87262-1
EPA Est. No. 008576-GA-001

Directions for Use

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Mayosperse 7700 is used to control the growth of algae in swimming pools, heated swimming pools, exterior whirlpools, hot tubs, and decorative fountains. It is used to control algae, bacteria, and fungi in recirculating commercial and industrial cooling water towers.

Recirculating Cooling Water Towers
Prior to using Mayosperse 7700 in recirculating cooling water towers, systems must be cleaned to remove algal growth, microorganisms slime, and other deposits. Then make an initial slug of 0.9-2.2 fluid ounces of Mayosperse 7700 per 1000 gallons of water to provide 8-20 ppm Mayosperse 7700, based on the total weight of water in the system. Repeat initial dosage until control is evident.
Make subsequent slug additions of 0.5-2.2 fluid ounces of Mayosperse 7700 per 1000 gallons of water (0.2-20 ppm) every 2-5 days or as needed. The frequency of addition depends upon the relative amount of bleed-off and the severity of the microbiological problem. Slug additions must be made in the cooling water tower sump.

Industrial Air Washing Systems
Mayosperse 7700 is used to control bacteria in industrial air washing systems that maintain effective mist eliminating components. Prior to its use, systems must be cleaned to remove bacterial slime and other deposits. An initial slug dose of 3.3-5.5 fluid ounces of Mayosperse 7700 per 1000 gallons of water is required. Repeat initial dosage until control is evident. Subsequent slug additions of 2.5-5.5 fluid ounces of Mayosperse 7700 per 1000 gallons of water must be employed every 1-5 days, or as needed. The frequency of addition depends upon the relative amount of bleed-off and severity of the bacterial problem. Slug additions may be made to the sump or to the water collection trays of the air wash system.

Swimming Pools, Heated Swimming Pools, Exterior Whirlpools, and Hot Baths
For maximum effectiveness of Mayosperse 7700 in swimming pools, heated swimming pools, exterior whirlpools, and hot tubs, those with heavy growths of algae must be cleaned prior to using Mayosperse 7700. For pools having just visible algae growth, add an initial dose of 11-17 fluid ounces of Mayosperse 7700 per 10,000 gallons of water and remove settled algae debris by cleaning. For treatment of a freshly cleaned and filled pool, add initially 6-11 fluid ounces of Mayosperse 7700 per 10,000 gallons of water. To maintain pools free of visible algae growth, subsequent additions of 2.4 fluid ounces of Mayosperse 7700 per 10,000 gallons of water must be made every 5-7 days after the initial treatment.
Uniform distribution of Mayosperse 7700 throughout the water in the pool is necessary for maximum effectiveness. Mayosperse 7700 is compatible with those chemicals normally used to treat pools and is effective at both acid and alkaline pH. Mayosperse 7700 can be used in pools treated with chlorine chemicals and may reduce the amount of those chemicals normally required. However, do not mix Mayosperse 7700 with concentrated dry or liquid chlorine products.

Decorative Fountains
Mayosperse 7700 is used to control the growth of algae in decorative fountains. Systems containing heavy growths of algae must be manually cleaned prior to treatment. Fountains with just visible algae growth require an initial dose of 1-2 fluid ounces of Mayosperse 7700 per 1000 gallons of water in the system. To treat a freshly cleaned and filled fountain, add 0.5-1.5 fluid ounces of Mayosperse 7700 per 1000 gallons of water. Maintenance dosages of 0.2-0.5 fluid ounces of Mayosperse 7700 per 1000 gallons of water must be added every 5-7 days as needed. Additions of Mayosperse 7700 must be made at a point to ensure uniform distribution throughout the system. Mayosperse 7700 may be used in fountains treated with chlorine chemicals, but do not mix Mayosperse 7700 with concentrated dry or liquid chlorine products.

Storage and Disposal

Do Not Contaminate Water, Food, or Feed by Storage or Disposal.

Pesticide Storage:
Do not stack more than four (4) drums high. Leaking or damaged drums must be placed in over-pack drums for disposal. Spills must be absorbed in sawdust or sand and disposed of in a sanitary landfill. Keep container closed when not in use.

Pesticide Disposal:
Wastes resulting from the use of this product may be disposed of on-site or at an approved waste disposal facility.

Container Handling:
Nonrefillable container. Do not reuse or refill. Triple rinse (or equivalent), then offer for: recycling or reconditioning, or pit or pit and dispose in a sanitary landfill or incineration, if allowed, by state and local authorities, burning, if burned stay out of smoke.

Net Contents: 55 gallons
