PRECAUTIONARY STATEMENTS
Hazards to Humans and Domestic Animals

WARNING-AVISO

May be harmful if inhaled. Harmful if swallowed or absorbed through skin. Causes moderate eye irritation. Avoid contact with eyes, skin or clothing. Do not breathe spray mist. Prolonged or frequently repeated skin contact may cause allergic reaction in some individuals.

Personal Protective Equipment (PPE):

- Long-sleeved shirt and long pants
- Shoes plus socks
- Protective eye wear
- Waterproof gloves (some of the materials that are chemical-resistant to this product may be incompatible with latex gloves and vinyl gloves. In the event of a glove failure, instructions for glove category A on an EPA chemical-resistance glove selection chart)

Follow manufacturer’s instructions for cleaning/maintaining PPE. No toxic instructions for decontamination.

ENVIRONMENTAL HAZARDS

This product is toxic to fish and wildlife. Do not discharge effluent containing this product into any waterway or sewer system without notifying the permitting authority in writing prior to discharge. DO NOT use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the Regional Office of the Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal. Open dumping is prohibited.

PESTICIDE STORAGE: Store in a cool place. Protect from excessive heat. Do not store above 100°F (38°C) or below 32°F (-0°C).

CONTAINER DISPOSAL: Nonrefillable container. Do not reuse or refill this container.

CONTAINER CLEANUP: Clean outside this container of excess pesticide, pesticide formulation or residue is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

ACTIVE INGREDIENT:

Name: Chlorothalonil (tetrachloroisophthalonitrile) ........ 40.4%
Other ingredients: .................................................. 59.6%
TOTAL: ........................................................................... 100.0%
Contains 4.17 pounds chlorothalonil active ingredient per gallon.

KEEP OUT OF REACH OF CHILDREN

WARNING-AVISO

Si usted no entiende la etiqueta, busque a alguien que se la explique a usted en detalle. (If you do not understand the label, find someone to explain it to you in detail.)

FIRST AID

IF INHALED:

- Move person to fresh air.
- If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth to mouth if possible.
- Call a poison control center or doctor for further treatment advice.

IF IN EYES:

- Hold eye open and rinse slowly and gently with water for 15-20 minutes.
- Remove contact lenses, if present, after the first 5 minutes, continue rinsing eye.
- Call a poison control center or doctor for treatment advice.

IF ON SKIN OR CLOTHING:

- Take off contaminated clothing.
- Rinse skin immediately with plenty of water for at least 15 minutes.
- Call a poison control center or doctor for treatment advice.

IF SWALLOWED:

- Do not induce vomiting unless told by a poison control center operator.
- Call a poison control center or doctor immediately for treatment advice.
- Have product container or label with you when calling a poison control center or doctor or for going to treatment.

NOTES TO PHYSICIAN

Probable mucosal damage may contraindicate the use of gastric lavage. Persons having a temporary allergic reaction respond to treatment with antihistamines or steroid creams and/or systemic steroids.

EMERGENCY PHONE NUMBERS

In case of emergency:

Call CHEMTREC 24 hr (800) 424-3980 (Transportation and spills)
For human and animal health (800) 858-7238

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

FOR DETAILED DIRECTIONS, PLEASE REFER TO BACK PANEL FOR DIRECTIONS FOR USE.

WARRANTY AND LIMITATION OF DAMAGES

CONDITIONS OF SALE: Global Bioicides Solutions, LLC warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes stated on the label when used in accordance with the directions under normal conditions of use. This warranty does not extend to the use of this product contrary to label instructions, or under abnormal use conditions, or under conditions not reasonably foreseeable to Global Bioicides Solutions, LLC. GLOBAL BIOCIDES SOLUTIONS, LLC DISCLAIMS ALL OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING ANY IMPLIED WARRANTIES OF MERCHANTABILITY, SATISFACTORY QUALITY, OR FITNESS FOR A PARTICULAR PURPOSE. GLOBAL BIOCIDES SOLUTIONS, LLC SHALL NOT BE LIABLE FOR CONSEQUENTIAL, SPECIAL, OR INDIRECT DAMAGES RESULTING FROM THE USE OR HANDLING OF THIS PRODUCT, AND GLOBAL BIOCIDES SOLUTIONS, LLC’S SOLE LIABILITY AND BUYER’S EXCLUSIVE REMEDY FOR ANY LOSS OR DAMAGE RESULTING FROM HANDLING, STORAGE AND USE OF THIS PRODUCT. GLOBAL BIOCIDES SOLUTIONS, LLC DOES NOT AUTHORIZE ANY AGENT OR REPRESENTATIVE TO MAKE ANY OTHER WARRANTY, GUARANTEE OR REPRESENTATION CONCERNING THIS PRODUCT.

38 STRATFORD VILLAGE WAY
BLUFFTON, SC 29910

EPA Reg No. 72304-1-93342
EPA Est No. 06855-MO-001

REV 011718
BIOTREND CTL40-D

**Active ingredient:**

Chlorothalonil (chlorothalondimethylsulfoxide) 40-60%

Other ingredients:

TOTAL: ...

Contains 40-60% chlorothalonil active ingredient per gallon.

**DIRECTIONS FOR USE:**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. This product is used to protect treated items from decay, mold, or mildew, including panels and elements of exterior wood. It cannot be used on uncoated wood, and must not be sold as a wind-resistant paint additive designed for direct sale to retail customer,

This product must not be used as an in-container preservative. Mix contents strictly before using to assure uniform mixture. BIOTREND CTL40-D is an aqueous solution of active ingredient and can be used in water-based or water-compatible products only. Do not apply this product by spray to wallboard, masonry, or concrete. Do not apply this product to green, leaching lumber. BIOTREND CTL40-D is compatible with zinc oxide in laitex paints.

**PREVENTATIVE TREATMENT**

- Disperse 1.25 to 12.5 pounds of BIOTREND CTL40-D per 100 gallons of water to obtain effective mildew control in the paint film after it is applied. Use the directions provided below for REMEDIAL TREATMENT. Normally, infrequent application of the product will remain in the material but will not grow if the material is completely dried.

**PRESSURE TREATMENT**

- For pressure-treated (PT) wood and concrete, mix 1.25 to 12.5 pounds of BIOTREND CTL40-D into water at the rate of 2 gallons (21) to 100 gallons (943) per 100 gallons (943). Use a handwand or backpack sprayer. Assure uniform coverage of surfaces to be protected (approximately 500 square feet/100 gallons [943]).

**LATEX EMULSION PAINTS, STAINS, AND COATINGS**

Disperse 12.4 to 97.8 pounds (6.9 to 13.5 pounds) of BIOTREND CTL40-D per 100 gallons of water in applications such as paints, stains, and wood finishes. Do not apply this product by spray to wallboard, masonry, or concrete. Do not apply this product to green, leaching lumber. BIOTREND CTL40-D is compatible with zinc oxide in latex paints.

**COMPOSITE WOOD PRODUCTS**

- DO NOT use in caulks or similar water-based sealants designed for exterior wood, also protects the wood from surface molds and mildew stains caused by water, or on the interior of buildings engaged in food processing or food handling.

**OTHER CONSTRUCTION MATERIALS: Concrete, Masonry and Porous and Non-Porous Hard Surface Substrates**

- Do not apply to gypsum board, concrete, or masonry materials such as siding, wallboard or flooring. This product is compatible with, and may be mixed with wood protection, adhesives, caulks, grouts, sealants, wood and wood composites. This product may not be sold directly to homeowners or non-professionals. BIOTREND CTL40-D should be examined first.

**METHODS OF TREATMENT**

- DO NOT use in paints designed for applications on food-contact surfaces, or on the interior of buildings engaged in food processing or food handling. DO NOT use in paints designed for applications on food-contact surfaces, or on the interior of buildings engaged in food processing or food handling.

**AQUEOUS ADHESIVES**

- DO NOT use in adhesives designed for applications on food-contact surfaces, or on the interior of buildings engaged in food processing or food handling.

**AQUEOUS CALKS AND SEALANTS**

- DO NOT use in caulk and sealants designed for applications on food-contact surfaces, or on the interior of buildings engaged in food processing or food handling.

**FRESHLY SAWN WOOD**

- DO NOT use in exterior wood, also protects the wood from surface molds and mildew stains caused by water, or on the interior of buildings engaged in food processing or food handling. DO NOT use in caulks or similar water-based sealants designed for exterior wood, also protects the wood from surface molds and mildew stains caused by water, or on the interior of buildings engaged in food processing or food handling.

**REMEDIAL TREATMENT**

- BIOTREND CTL40-D must be used as part of a comprehensive remediation or remediation mitigation program. BIOTREND CTL40-D is used at the rate of 100 gallons (943) per 1000 square feet. Do not apply this product by spray to wallboard, masonry, or concrete. Do not apply this product to green, leaching lumber. BIOTREND CTL40-D must be used by or under the direction of a remediation professional or a restoration water damage/remediation expert. Please note that these guidelines, and the US Environmental Protection Agency (EPA) are not intended to apply to all situations. All guidelines are subject to change as methods of treatment are improved. The EPA has not sanctioned the use of this product to remediate mold.

**Small Areas-Total Surface Area Affected Less Than 10 Square Feet Cleanup Methods**

- Wood and Composite Wood Surfaces
- Porous and Non-Porous Hard Surface Substrates
- Wood surfaces affected by mold: Use two layers of fire retardant or fireproofing. Before applying a finish, assure that the surface is thoroughly dried. Dispose of the contents of the HEPA vacuums in well-sealed plastic bags.
- Porous and Non-Porous Hard Surface Substrates
- Use two layers of fire retardant or fireproofing. Before applying a finish, assure that the surface is thoroughly dried. Dispose of the contents of the HEPA vacuums in well-sealed plastic bags.

**Wallboard (drywall and gypsym board)**

- Full personal protective equipment is recommended during cleanup.
- DO NOT use in caulks or similar water-based sealants designed for exterior wood, also protects the wood from surface molds and mildew stains caused by water, or on the interior of buildings engaged in food processing or food handling.

BIOTREND CTL40-D is a broad spectrum fungicide designed to protect treated items from decay, mold, or mildew.
