Boost Surface Treatment

Non-Food Contact Surface Sanitizer

ACTIVE INGREDIENTS:
N-Alkyl (C14, 95%; C12, 3%; C16, 2%) dimethyl benzyl ammonium chloride ........................................... 1.9%
Sodium Carbonate Peroxyhydrate.............................................. 12.1%
OTHER INGREDIENTS ......................................................... 86.0%
TOTAL ................................................................................... 100.0%

KEEP OUT OF REACH OF CHILDREN

HAZARD TO HUMANS AND DOMESTIC ANIMALS

DANGER. Corrosive. Causes irreversible eye damage and skin irritation. Harmful if swallowed or absorbed through skin. Do not get in eyes or on clothing. Avoid contact with skin. Wear protective eyewear (goggles, face shield, or safety glasses), coveralls worn over short-sleeved shirt and short pants, socks, chemical-resistant footwear and waterproof gloves. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove and wash contaminated clothing before reuse.

EPA Reg. No. 63761-10-1677

FIRST AID

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing. Call a poison control center or doctor for treatment advice.

IF ON SKIN: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage.

FOR EMERGENCY MEDICAL INFORMATION IN USA OR CANADA, CALL: 1-800-328-0026.
FOR EMERGENCY MEDICAL INFORMATION WORLDWIDE, CALL: 1-651-222-5352 (IN THE USA).

STORAGE & DISPOSAL

DO NOT CONTAMINATE WATER, FOOD OR FEED BY STORAGE OR DISPOSAL.

PESTICIDE STORAGE: Keep out of children's reach. Store at room temperature out of direct sunlight, DO NOT store above 30°C (or 86°F).

PESTICIDE DISPOSAL: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture or rinse water is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste Representative at the nearest EPA Regional Office for guidance.

CONTAINER DISPOSAL: Nonrefillable container. Do not reuse or refill this container. Offer for recycling, if available or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities. Completely empty bag into application equipment by shaking and tapping sides and bottom to loosen clinging particles. If not emptied in this manner, the bag may be considered an acute hazardous waste and must be disposed in accordance with local, state and federal regulations. When completely empty, offer for recycling if available or dispose of bag in a sanitary landfill or by incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.

Non-Food Contact Surface Sanitizer

USING PATENTED PERQUAT® TECHNOLOGY

• Floor Sanitizer
• For Use in Non-Food Contact Areas of Dairy, Food, Meat, and Beverage Processing Facilities
• Footpan Sanitizer
• Boot Sanitizer

KEEP OUT OF REACH OF CHILDREN

DANGER

Boost Surface Treatment is a moisture activated sanitizer specifically designed to improve environmental sanitation on surfaces where conditions favor microorganism growth and cause sanitation concern.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

SANITIZING OF HARD, NON-POROUS, INANIMATE, NON-FOOD CONTACT SURFACES

Boost Surface Treatment eliminates 99.9% of the following bacteria in 5 minutes on hard, non-porous, inanimate, non-food contact surfaces according to the Standard Test Method for Efficacy of Sanitizers Recommended for Inanimate Non-Food Contact Surfaces: Enterobacter aerogenes, Staphylococcus aureus, Escherichia coli, Listeria monocytogenes, Salmonella enterica (Salmonella), Salmonella enterica enteritidis.

SANITIZING DIRECTIONS FOR NON-FOOD CONTACT SURFACES

Add a solution of 4.9-6.1 ounces Boost Surface Treatment per gallon of water (37-46 grams per liter of water) (or equivalent use dilution) to sanitize hard, non-porous surfaces. Apply sanitizer to pre-cleaned, hard, non-porous surfaces with a cloth, mop, sponge, sprayer, foaming or by immersion. For sprayer applications, use a coarse pump or trigger sprayer. Spray 6-9 inches [15-22 cm] from surface. Do not breathe spray. Treated surfaces must remain wet for 5 minutes, then wipe with sponge, mop or cloth or allow to air dry. Use within 8 hours after powder has been dissolved in water. For food processing or other facilities that have installed entryway sanitizing systems.

ENTRYWAY SANITIZING FOOTBATHS:

To prevent cross contamination on treated surfaces, apply a solution of 4.9-6.1 ounces Boost Surface Treatment per gallon of water (37-46 grams Boost Surface Treatment per liter of water) (or equivalent use dilution). The entire entryway path must be covered with the footbath. Use within 8 hours after powder has been dissolved in water.

ENTRYWAY SHOE FOAM DIRECTIONS:

Apply a foam layer that is approximately 0.5 to 2 inches [1.2 cm to 5 cm] thick at all entrances using a foam generating machine or aerator and a solution containing 4.9-6.1 ounces Boost Surface Treatment per gallon of water (37-46 grams Boost Surface Treatment per liter of water) (or equivalent use dilution). Scrape waterproof shoes and boots. Walk through foam. Boots must remain wet for at least 5 minutes prior to entering area. Foamed entranceways must be washed and the foam replaced at least daily or when it (foam/area) appears dirty. Foam should be applied to entrances of buildings, hatcheries, production and packaging rooms to prevent cross contamination from area to area in the packaging and storage areas of food plants. Use within 8 hours after powder has been dissolved in water.

APPLICATION INSTRUCTIONS FOR USE AS A FLOOR MAT. FOOT PAN, FLOOR SURFACE, BOOT SANITIZER:

After cleaning and sanitizing equipment, apply Boost Surface Treatment evenly to the floor, foot pan or floor mat surface, at a rate of 3.7-7.4 oz. [105-210 grams] per 100 square feet of floor surface containing 0.25 fl. oz.-0.97 fl. oz. [7.4 ml-28 ml] of water per square foot. Product may be re-applied as needed during the production process. Boost Surface Treatment does not become active until it comes in contact with moisture.
