**Kills 99.9% of Bacteria in Just 15 Seconds**

**Fast Drying; Leaves No Dull or Sticky Residue**

**Deodorizes · Lemon Fragrance · Bleach Free**

**Kills Norovirus**

**Total:....................................................................100.0000%**

Octyl decyl dimethyl ammonium chloride ................. 0.0909%

Active Ingredients:

Alkyl (C14, 50%; C12, 40%; C16, 10%)

This product kills:

- SARS-CoV-2
- Coronaviridae
- RNA (virion), enveloped

**DIRECTIONS FOR USE:**

- **To Open Package:** Remove card. Pull wipes from canister at a slight angle. Thread through holes in the cover. Replace cover. Open center cap to remove wipe. When not in use, close center cap to prevent moisture loss.
- **To Sanitize, Deodorize Hard Nonporous, Sanitize, Deodorize, Virucidal/Mold and Mildew Control, Directions:** Vale wipe. For Norwalk Virus (Norovirus) and Rotavirus, with wipe until surface is visibly wet. Allow wipe to remain wet for 4 minutes. For highly soiled nonporous surfaces, clean first with another wipe before disinfecting. Discontinued wipe in trash. Do not flush.

**PRECAUTIONARY STATEMENTS**

**Rinse toys with clean, potable water after disinfecting.**
