Directions for Use: It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Shaker well before using:

Fleas: Use Direct Protect™ Plus Flea, Tick & Bug Home Spray in homes, garages, attics, apartments, and hotels. One bottle will treat a surface area equivalent to approximately 300 square feet (about 8 pumps). A fine spray applied uniformly is all that is necessary to kill fleas. Do not wet furniture and carpeting. Remove birds and cover aquariums before spraying. For maximum effectiveness, treat entire carpeted areas. Treat carpets, rugs, drapes and all surfaces of upholstered furniture. Remove old pet bedding and replace with clean fresh bedding after treatment. Reapply every 2 weeks if necessary. Vacate treated areas and do not return for at least one hour. Avoid contamination of food and foodstuffs. Do not use in the edible produce areas of food processing plants, restaurants, or other areas where food is commercially prepared, processed, stored, or served.

To kill ticks, cockroaches, silverfish, earwigs, ants, and fruit flies in the environment, apply directly to pests. Apply Direct Protect™ Plus Flea, Tick & Bug Home Spray to areas where bed bugs hide. Remove or pick up clothing and other obstacles that prevent thorough inspection or treatment. Remove and sanitize infested bedding, clothing, or other items. Do not apply to bedding.

Wash bedding and dry using medium to high heat to kill bed bugs. Sanitize infested bedding, clothing, or other items. Do not return to treated areas for at least one hour. Avoid contamination of food and foodstuffs. Do not use in the edible produce areas of food processing plants, restaurants, or other areas where food is commercially prepared, processed, stored, or served.

Bed Bugs: Thoroughly inspect areas of suspected bed bug infestation and note potential or actual sites where bed bugs hide. Remove or pick up clothing and other obstacles that prevent thorough inspection or treatment. Remove and sanitize infested bedding, clothing, or other items. Do not apply to bedding.

Wash bedding and dry using medium to high heat to kill bed bugs.
Direct Protect™ Plus Flea, Tick & Bug Home Spray contains a unique combination of pesticides that kills pre-adult fleas before they grow up to bite. It reaches fleas from hiding places and prevents them from feeding. 

**Active Ingredients:** 
- S-(−)-Methoprene (CAS #65733-76-6) 
- Esfenprox (CAS #88844-67-1) 
- Piperonyl butoxide (CAS #53-03-3)
