FIFRA 24(c) Special Local Need Label (SLN)

FOR DISTRIBUTION AND USE ONLY WITHIN THE STATE OF OREGON

For control of Carrot Rust Flies on Parsnips

DIAZINON AG500

For Agricultural or Commercial Use Only
EPA Reg. No. 66222-9 SLN No. OR-180003

Active Ingredient: Diazinon: O,O-diethyl O-(2-isopropyl-6-methyl-4-pyrimidinyl) phosphorothioate .......................................................... 48.0%
Other Ingredients .................................................................................................................................................. 52.0%
Total ..................................................................................................................................................................... 100.0%

KEEP OUT OF REACH OF CHILDREN

CAUTION

This label is valid until December 31, 2023 or until otherwise amended, withdrawn, cancelled, or suspended

Directions for Use

• It is a violation of Federal law to use this product in a manner inconsistent with its labeling.
• This state-specific Section 24(c) labeling and federal label for this product must be in the possession of the user at the time of application.
• Follow all applicable directions, restrictions, Work Protection Standard requirements, and precautions on this label and the EPA registered label (EPA Reg. No. 66222-9).

ENVIRONMENTAL HAZARDS

This product is highly toxic to birds, fish, and other wildlife. Birds, especially waterfowl, feeding or drinking on treated areas may be killed. Do not exceed maximum permitted label rates. Rates above those recommended significantly increase potential hazards to birds, especially waterfowl. Keep out of lakes, streams, ponds, tidal marshes, and estuaries. Do not apply directly to water, to areas where surface water is present, or to intertidal areas below the mean high water mark. Drift and runoff may be hazardous to aquatic organisms in neighboring areas. Shrimp and crab may be killed at application rates recommended on this label. Do not apply where fish, shrimp, crab, and other aquatic life are important resources. Do not contaminate water by cleaning of equipment or disposal of equipment washwater. This pesticide is highly toxic to bees exposed to direct treatment or to residues on blooming crops or weeds. Do not apply this pesticide or allow it to drift to blooming crops or weeds if bees are visiting the treatment area.
CROP USE: Directions for Controlling Carrot Rust Flies in parsnips.

**Application Instructions:** Apply in a minimum of ten gallons of water per acre for either a drench or a band over the seed row at planting.

<tr>
<td>Parsnips</td>
<td>Carrot rust flies</td>
<td>4 pints (2 lbs a.i.) per acre or 1.5 fl. ounces per 1,000 square feet</td>
</tr>
</tbody>
</table>

**Timing/Special Directions:**
Apply as a drench to the seed furrow at planting; or following the press wheel, apply as a band 2 to 4 inches wide on the soil surface directly over the seed.

**RESTRICTIONS:**
- Do not make more than one application per growing season.
- The REI is 3 days.
- Do not apply within 14 days of harvest.
- Do not apply this product to fields when soil moisture is nearing at, or exceeding field capacity and/or when a rain event likely to produce runoff from the treated field is forecasted by NOAA/NWS (National Weather Service) and will occur within 48 hours.
