WINTER ALGAE PREVENTATIVE FOR SWIMMING POOLS

BioGuard® Arctic Blue® Algae Protector, when used as directed, prevents the growth of pool algae and aids in maintaining pool water clarity during the winter when the pool is not in use. The product is formulated for use in chlorinated or brominated swimming pools of all surface and filter types.

**IMPORTANT NOTES:**
1. Do not use in pools sanitized with biguanides or pools treated with hydrogen peroxide.
2. In use dilution, this product is non-staining to pool surfaces and equipment.

**PRIOR TO APPLICATION:** Take a sample of your pool water to your BioGuard Dealer. Follow their directions for product application(s) to properly balance your water for conditions in your area. If metals testing indicate a need to use a stain and scale inhibitor, apply that product per label directions. Allow the pool to circulate at least 1 hour before adding other products.

**DIRECTIONS FOR USE:** It is a violation of federal law to use this product in a manner inconsistent with its labeling. Read entire label and use strictly in accordance with precautionary statements and directions.
1. Apply a BioGuard shock or oxidizer per label directions.
2. Allow to circulate 2-4 hours.
3. Then pour this product into the pool around its edges with the pool circulation system operating.
4. Add 16 fluid ounces of BioGuard Arctic Blue Algae Protector for each 12,000 gallons of pool water.
5. Circulate pool water for 1 hour. Then, clean filter and pool walls at water line.

In areas with severe freezing, drain pool equipment and plumbing lines or use an antifreeze recommended for chlorinated or brominated swimming pools and equipment. Always follow the cleaning directions established by the manufacturer and/or pool builder. Pools with mesh covers or without surfaces and equipment.

**STORAGE AND DISPOSAL:**
Do not contaminate food or feed by storage or disposal.

**CONTAINER STORAGE:** Keep this product in its original tightly closed container when not in use. Store in a cool, dry, well-ventilated area. CONTAINER DISPOSAL: Non-refillable container. Do not reuse or refill this container. Offer for recycling if available or place in trash.

**PRECAUTIONARY STATEMENTS:**
HAZARDS TO HUMANS AND DOMESTIC ANIMALS:
DANGER: Corrosive. Causes irreversible eye damage and skin burns. Harmful if swallowed. Do not get in eyes, on skin, or on clothing. Wear protective eyewear (safety glasses or goggles) and rubber gloves. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove and wash contaminated clothing before reuse.

FIRST AID: IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. IF SWALLOWED: Call poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person. IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for treatment advice. Have the product container or label with you when calling a poison control center or doctor or going for treatment. IN CASE OF MEDICAL EMERGENCY, CALL 1-877-800-5553.

**PHYSICAL OR CHEMICAL HAZARDS:** Do not mix with other chemicals.

**ENVIRONMENTAL HAZARDS:** This pesticide is toxic to fish and aquatic organisms.

**NOTE:** User assumes all responsibility for use not in accordance with directions. Metals from source water, ionizers or poorly sequestered algaecides have the potential to stain pool surfaces. Treat these problems with an appropriate stain and scale inhibitor (chelating agent) before using this product.
