**WEED BEATER Fe Concentrate**

- Can be used on new lawns after grass emergence
- Can reseed lawn one day after spraying
- Can be used to spot treat problem areas
- Even works in cool weather

**APPLICABLE DIRECTIONS**

Sprays well before using. Mix one part of this product with 4 parts water (1 oz = 1 gallon of water). Apply the mixed solution at a rate of 2.5 to 10 gallons/1000 ft² (2.8 to 11.5 fluid oz./yd²). The standard rate for this product is 5.75 to 11.5 oz./1000 ft². Use the higher rate (11.5 oz./1000 ft²) on tough perennial weeds, such as burclover and broad-leaved plantain. This product may also be used at 2.8 fluid oz./yd² (2.5 gallons/1000 ft²) on most black medics. Persim speedwell, slender speedwell and geranium, lawn diseases (such as dollar spot, rust, and snow mold), or on weed seedlings of false dandelion. English daisies, dandelion or white clover. Any standard hand-held or backpack sprayer can be used. Thoroughly spray weeds. Use a coarse nozzle setting to reduce drift. Uniform coverage is important. Repeat treatment in 3 to 4 weeks for best results. Best results are obtained when applied in the Spring or Fall when environmental conditions are cool and there is ample moisture.

**WHAT WILL IT DO?**

Works quickly, killing weeds within 4 hours of application. Treated weeds, moss or algae will turn brown or black. Occasionally a discolored grass leaf blade can occur after treatment. However the grass will recover within a few days to weeks. May stain thatch (dead grass under lawn). This does not affect the health of the grass.

**PRECAUTIONS**

Do not apply to drought-stressed grass. Ensure lawn is well watered prior to application. Do not apply when the daytime temperature will exceed 80°F. Do not apply to bare spots, lawns with young seedlings. Avoid spraying desirable plants. Any desirable plants or shrubs adjacent to the treated area should be sprayed with water. To avoid staining water until treated areas dry before re-entry. Do not apply if rainfall is expected within 3 hours of application. Do not apply to the same area more than 4 times a year.

**DIRECTIONS FOR USE**

It is violation of Federal Law to use this product in a manner inconsistent with its labeling. USE IN GREENS Use to selectively control/suppress broadleaf weeds and diseases growing in lawns. PESTS: Controls moss, algae, lichens, lawn weeds, and lawn diseases (such as dollar spot, snow mold, and rust). Controls or suppresses weeds such as but not limited to:
- Black medic (<i>Medicago lupulina</i>)
- Broadleaf plantain (<i>Plantago major</i>)
- Bulb thistle (<i>Cirsium vulgare</i>)
- Canada thistle (<i>Cirsium arvense</i>)
- Common chickweed (<i>Stellaria media</i>)
- Creeping buttercup (<i>Ranunculus repens</i>)
- Creeping chenille (<i>Glechoma hederacea</i>)
- Danthonia (<i>Trisetum strictum</i>)
- Dandelion (<i>Taraxacum officinale</i>)
- Dolly (<i>Helianthus annuus</i>)
- English daisy (<i>Aster spp.</i>)
- False dandelion (<i>Arrhenatherum elatius</i>)
- Hoary plantain (<i>Plantago lanceolata</i>)
- Lawn burweed (<i>Solanum palmeri</i>)

Controls or suppresses diseases such as but not limited to:
- Dollar spot
- Rust
- Snow mold
- Moss, lichens, algae and thistles
- Narrow-leaved plantain (<i>Plantago lanceolata</i>)
- Chalk (Oxalis spp.)
- Penny Speedwell (<i>Veronica persica</i>)
- Prostrate spirea (<i>Polygonum pubiflorum</i>)
- Smooth oxalis (<i>Potentilla axillaris</i>)
- Silverweed (<i>Potentilla anserina</i>)
- White clover (<i>Tribulus repens</i>)
- Wild chamomile (<i>Matruncula chamomilla</i>)
- Wild geranium (<i>Geranium robertianum</i>)

**STORAGE AND DISPOSAL**

PESTICIDE STORAGE: Store this product in its original container and keep in a secure storage area. Omit from reach of children and domestic animals. Store unused material, tightly closed, in original container only away from open flame. PRECAUTIONARY STATEMENTS

**PRECAUTIONARY STATEMENTS**: HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Causes slight eye irritation. Avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals.

ENVIRONMENTAL HAZARDS - to protect the environment, do not allow pesticides to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applying this product in cold weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow or wash pesticide off the treatment area. Rinse all application equipment over the treated area will help avoid run off to water bodies or drainage systems.

**FIRST AID**

If in Eyes: Hold eyes open and rinse slowly with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eyes.

**NOTICE**: To the extent consistent with applicable law, buyer assumes all responsibility for safety and use not in accordance with directions.
