√ Eliminates odors at their source and removes allergens from your home  √ Use on soft surfaces

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Test fabric for colorfastness. Contains a dilute oxidizing agent. Do not mix with vinegar or acidic cleaners.

Pre-Cleaning Instructions: Remove gross filth and heavy soil by cleaning. Spray product straight onto soils, scrub and wipe clean with a dry paper towel or cloth.

DEODORIZATION: To Deodorize: Product works by oxidation, not by masking of odors. Simply spray or wipe on full strength and let air dry to provide long-lasting residual deodorizing action. Product must come into contact with the cause of the odor to be effective. For pet urine stains in carpet, blot urine as dry as possible then saturate stain with product through carpet pad.
To Deodorize or Freshen Carpet: Spray until slightly damp to eliminate odors. Product must come in contact with the cause of the odor to be effective.

*GUARANTEE

If you are not satisfied with this product for any reason, send your written request for a refund and your reason for the return to the address below, together with the original dated store receipt showing the price you paid. Please allow 6-8 weeks for processing.

ALLERGEN REMOVAL
To clean and reduce specified allergens: Cockroach matter, Dust mite matter, Pet dander. Spray and wipe excess. Allow to air dry.

MILDEWSTAT
To Inhibit Mold or Mildew on Floors, Walls, Ceilings & Fabric: Remove as much surface dirt, mold or mildew as possible by cleaning. Then spray on product from a distance of 12 inches until visibly wet and let air dry; the surface must be completely wet with product for 10 minutes.

MILDEWSTAT: 10 MINUTE CONTACT TIME Aspergillus niger (ATCC 6275)

SANITIZATION
To Sanitize Carpet: For synthetic carpet fibers such as nylon, olefin or polypropylene - not intended for use on wool carpets. Test for colorfastness in an inconspicuous area. Carpet should be clean or free of excessive soil before applying. Use full strength. Apply at a rate of 2.5 fl oz per sq ft. Product must come into contact with contaminate to work. Allow to dwell for 10 minutes. Do not rinse. Use an extraction vacuum to remove excess moisture. Carpet can air dry or fans may be used if carpet needs to dry faster.

To Sanitize Soft Surfaces: Spray until fabric is wet. DO NOT SATURATE. Let stand for 5 minutes. Allow to air dry. Reply as necessary. Heavy soil must be removed prior to sanitizing.

CARPET SANITIZATION: 10 MINUTE CONTACT TIME Enterobacter aerogenes (ATCC 13048), Staphylococcus aureus (ATCC 6538)

TO SANITIZE SOFT SURFACES: 5 MINUTE CONTACT TIME Enterobacter aerogenes (ATCC 13048), Staphylococcus aureus (ATCC 6538)

(continued on next page)
FIRST AID
If in eyes: Hold eye open and rinse slowly with water 15-20 minutes.
Remove contact lenses after first 5 minutes and continue rinsing. Call a
Poison Control Center or doctor for treatment advice. Have product container
or label with you when calling a Poison Control Center or doctor, or going
for treatment.

STORAGE AND DISPOSAL
Store in original closed container in a cool, dry place away from heat and open flame. Do not allow product to
become overheated in storage. Avoid prolonged storage temperature above 90°F. This may cause increased
degradation of the product, which will decrease product effectiveness. Nonrefillable. Do not reuse or refill this
container.

Container Disposal: Rinse and offer empty container for recycling. If recycling is not available, discard
container in trash. Wastes resulting from the use of this product may be disposed of on site or at an approved
waste disposal facility. Discard excess or used product solution in drain with running water.

NOTICE: Seller explicitly warrants that the product conforms to its chemical description. There are no other
warranties associated with this product.
