WHT 80B-00014

OVERNIGHT RESULTS

Precautions and Restrictions:
- To avoid damage to ornamental or cultivated plants, do not spray within 10 feet of the plant base. Avoid spray drift into areas where injury might occur. Full moon and other phases of the moon may influence plant injury.
- Do not apply when grass height exceeds 6 inches. Apply to actively growing weed free area for maximum weed control.
- Apply only during daytime as weeds close during the night.
- Do not apply on drier soils as this may reduce effectiveness.
- Do not apply on wet grass as unabsorbed chemical may wash-off into waterways.
- Do not store near sleepers or other plant species.-application area.

Hazards to Humans and Domestic Animals
- Store in a cool, dry area away from heat or open flame. If product freezes, shake well before use once it has thawed.

Emergency Medical Treatment Information
- If Swallowed:
  • If on Skin or Clothing:
    • Do not water within six hours after treatment. Poor weed control may result if rainfall occurs within six hours of application.
    • Do not treat when air temperatures exceed 85°F or damage to grass may occur.
    • Do not allow spray to get on vegetables or ornamental plants since injury may result. Do not spray around roots of trees and ornamentals. Clover will be damaged if sprayed around the base. Do not apply within 20 feet of daffodils, tulips, or hyacinths.
    • Carolina geranium
    • Canada thistle
    • Buttercup
    • Burweed
    • Burdock
    • Burclover
    • Bull thistle
    • Buckhorn
    • Broomweed
    • Broadleaf plantain
    • Broadleaf dock
    • Black mustard
    • Bitter wintercress
    • Bird vetch
    • Bindweed, field
    • Bedstraw
    • Austrian fieldcress
    • Creeping Jenny
    • Cocklebur
    • Cockle
    • Chickweed, common
    • Catsear
    • Catchweed bedstraw
    • Narrowleaf vetch
    • Musk thistle
    • Mugwort
    • Milk vetch
    • Milkweed
    • Knawel
    • Hoary vervain
    • Heath aster
    • Hawkweed
    • Gumweed
    • Ground ivy
    • Russian thistle
    • Rough cinquefoil
    • Red sorrel
    • Purslane, common
    • Prostrate pigweed
    • Prostrate knotweed
    • Prairie sunflower
    • Poison oak
    • Plantain
    • Plains coreopsis (tickseed)
    • Pigweed
    • Pepperweed
    • Pennywort
    • Pearlwort
    • Parsnip
    • Oxalis
    • Nettle

Disposal:
- Call your local solid waste agency for the proper method of disposal. Nonrefillable container. Do not reuse or refill this container. Offer for recycling, if available.
- If empty:

FIRST AID

• If in Eyes:
  CAUTION. Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing for 10 minutes.

• If Swallowed:
  If on Skin or Clothing:
  Take off contaminated clothing. Rinse skin immediately with water. If on clothing, remove clothing by rolling it up and removing.

• If on Hair:
  Wash hair with soap and water before bedtime. If on hair, wash it out with soap and water.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION. Do not walk on treated areas for at least two days before allowing children to play. Do not apply in a way that will contact workers or other persons either directly or through drift. Only protected handlers may be in the area during application. Do not contaminate water sources. Do not drill water wells within 100 feet of treated areas. Do not enter or allow entry until sprays have dried.

HOW TO USE

1. Open spray nozzle and choose the correct cone. Connect a garden hose to the Ready-Spray nozzle. Make sure the dial on the nozzle is in the “OFF” position with the safety tab in the valve notch.

2. Point nozzle toward plants to be treated and 1.) bend the safety tab (located at right of dial) back and hold, and 2.) using your other hand, press the white button on the valve.

3. Spray until wet to control weeds listed. Walk at a steady pace while spraying, using an even sweeping motion, slightly overlapping treated areas. One quart covers 500 square feet.

4. To BEGIN spraying, point nozzle toward lawn or plants to be treated and 1.) bend the safety tab (located at right of dial) back and hold, and 2.) using your other hand, press the white button on the valve.

5. Spray until wet to control weeds listed. Walk at a steady pace while spraying, using an even sweeping motion, slightly overlapping treated areas. One quart covers 500 square feet.

MEASUREMENT CALCULATIONS

Number of broadcast applications per treatment site is two per year with a minimum of 30 days between applications. Do not apply this product in a way that will contact workers or other persons either directly or through drift. Only protected handlers may be in the area during application. Do not contaminate water sources. Do not drill water wells within 100 feet of treated areas. Do not enter or allow entry until sprays have dried.
