20.0%

KEEP OUT OF REACH OF CHILDREN

DANGER

The product is an herbicide primarily for use in the control of vegetation growing in and around most types of containers. Do not apply directly to soil unless the label directs otherwise.

FIRST AID

IF IN EYES: If eye irritation occurs, wash with large quantities of water. If pain persists, get immediate medical attention.

IF IN SKIN, CLOTHES: Wash with soap and water. If irritation occurs, get medical attention.

IF INHALED: Get medical attention immediately.

IF SWALLOWED: Do not induce vomiting.

If medical assistance is not available, contact local Poison Control Center.

Inhalation: Get medical attention immediately.

INGESTION: Take at least 1 glass of water or milk and get immediate medical attention.

Symptoms: May include nausea, vomiting, drowsiness, confusion.

Not for use by children.

FRONT COVER

INSTRUCTIONS: Open the package and pour the required amount into the contaminated area. Let stand for at least 24 hours. Do not apply directly to the soil, unless the label directs otherwise.

CAUTION: Do not contaminate water, food, or feed by storage or disposal.

EXPOSURE: Do not allow direct contact with eyes. Do not apply to or near water bodies or drainage courses.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

STORAGE:

Do not store or use near water,olas, wells, streams, ditches, or ponds. Keep out of the reach of children.

DISPOSAL OF CONTAMINATED PACKAGING:

1. Wash out the contaminated area with water. Disposal of containers: Perform controlled焚烧, incineration, or disposal in a manner that does not cause a potential risk to the environment.

CONTAINER HANDLING:

For all non-yieldable containers:

1. Do not re-use or re-fill this container. Offer for recycling, if available. Take empty container (if required) to a recycling center for proper disposal.

Pesticide Disposal:

1. In general, dispose of excess pesticides, waste, or residue in a violation of Federal Law. Pesticide vendors are not liable for accidental spills. Wherever received from the use of the product, excess pesticide, waste, or residue must be collected and disposed of at an approved disposal facility. If these wastes are not disposed of as required, contact your State Pesticide/Toxicity Control Program or the National Pesticide Information Clearinghouse.

CONTAINER DISPOSAL:

1. Disposal of containers: Perform controlled burn, incineration, or disposal in a manner that does not cause a potential risk to the environment.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER: Caution: Bacterial contamination is the most serious hazard. Do not apply to soil or vegetation growing in and around containers. Do not use on any plant which is intended for consumption. Do not apply directly to soil unless the label directs otherwise.

CAUTION: Do not apply to plants, vegetation, or any other surface which is intended for consumption. Do not apply to soil unless the label directs otherwise.

INFORMATIONAL HAZARDS: This product is toxic to birds. Aqua (invertebrates), snails, and shrimp. Do not discharge effluent containing this product directly into waterways or onto dry land unless the label directs otherwise. Do not discharge effluent containing this product into water bodies without first complying with the local sewage treatment plant's procedures. For disposal of used containers, follow the procedures listed in the labeled instructions. Do not contaminate water, food, or feed by storage or disposal.

INDUSTRIAL HAZARDS: Do not apply directly to plants, vegetation, or any other surface which is intended for consumption.
