KEEP OUT OF REACH OF CHILDREN

CAUTION

HAZARDS TO HUMANS AND DOMESTIC ANIMALS
KEEP OUT OF REACH OF CHILDREN. Causes moderate eye irritation. Avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum or using tobacco.

FIRST AID:
Have the product container or label with you when calling a poison control center or doctor, or going for treatment.
If in eyes:
Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.
If swallowed:
Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.
If inhaled:
Move person to fresh air. If person is not breathing, call 911 or an ambulance then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.

NOTE TO PHYSICIAN:
Probable mucosal damage may contraindicate the use of gastric lavage.

STORAGE AND DISPOSAL
DO NOT CONTAMINATE WATER, FOOD, OR FEED BY STORAGE OR DISPOSAL.
Pesticide Storage:
Store in a dry place, no lower in temperature than 50°F or higher than 120°F.
Pesticide Disposal:
Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.
Container Disposal:
Nonrefillable container. Do not reuse or refill container. Clean container promptly after use. Rinse outside of container with water to remove residue. Discard rinsate in sanitary sewer. Wash container with soap and water. Perforate container with a nail and dispose in a sanitary landfill. Do not incinerate.

NET CONTENTS: 22 FL oz (650mL)

You may contact 1-800-424-9300 for emergency medical treatment information.
Rinse with water. (Continued on inside)

Feeding and watering appliances. Thoroughly clean all surfaces with soap or detergent and allow surfaces to remain wet for HIV-1 and the surface to remain wet for 3 minutes. Allow surface to remain wet for 3 minutes; HIV-1 (associated with AIDS) for 10 minutes and HIV-1 (associated with AIDS) for 30 minutes. These contact times will not control other types of viruses and bacteria. Disposal of infectious materials, including expired emergency medical supplies, should be properly disposed of, as required by local, state and federal laws. Disposal of infectious materials must be preceded by proper decontamination.

**FUNGICIDAL ACTIVITY:** This product can be used on hard, non-porous inanimate surfaces to be treated making sure to wet completely. Let air dry. Repeat application at least weekly to ensure complete surface coverage. This product is not to be used as a terminal sterilant/high-level disinfectant on any objects before application of this product.

This product, when used on environmental, inanimate hard surfaces, exhibits virucidal efficacy against Mycobacterium tuberculosis BCG (Mycobacterium bovis) at 20°C when the treated surface is allowed to remain wet for 5 minutes. This product is not to be used as a terminal sterilant/high-level disinfectant on any environmental, inanimate hard surfaces. This product is not to be used as a terminal sterilant/high-level disinfectant on any environmental, inanimate hard surfaces.
