DIRECTIONS FOR USE

This product is to be used as a non-routine moderate high level disinfectant on any surface or material that is not intended to be the site of medical or surgical intervention. The product must not be used on areas of the body or where the skin is broken or otherwise broken. Use in bathroom, kitchen, sickrooms, musty closets.

CLEANING:

Wipe hard, non porous surface thoroughly to eliminate odors from bathrooms, laundry hampers, basins, toilets, urinals, light fixtures, mirrors, wheelchairs, walkers, chairs, bedside, bed springs, telephones, wastebaskets, waste containers, trash carts, laundry hampers, laundry bottles, sinks, basins, toilets, urinals, light fixtures, mirrors, wheelchairs, walkers, chairs, bedside, bed springs, telephones, wastebaskets, waste containers, trash carts, cabinets, cabinets, supplies, razor, razor blades, cutters, clipper blades, combs, razor, razor blades, scissors, forceps, towels, gowns, gowns, masks, masks, eye coverings, eye coverings, gloves, gloves, gowns, gowns, masks, masks, eye coverings, eye coverings, gloves, gloves. Use in bathrooms, kitchen, sickrooms, musty closets and other similar areas. When used to clean a hard, non-porous surface prior to disinfection, a deodorize at the same time as cleaning. Use in bathrooms, kitchens, sickrooms, musty closets.

Disposal of Infectious Materials:

Blood and other body fluids must be covered and inactivated when handling HIV-1 infected blood or body fluids, in health care settings or other settings in which body fluids may be encountered. When handling HIV-1 infected blood or body fluids, remove contaminated clothing, gloves, eye coverings, eye coverings, gloves, eye coverings, gloves, gowns, gowns, masks, masks, eye coverings, eye coverings, gloves, eye coverings, gloves, gowns, gowns, masks, masks, eye coverings, eye coverings, gloves, eye coverings, gloves. This product is not to be used as a terminal sterilant/high disinfectant on any surface or material that is not intended to be the site of medical or surgical intervention. The product must not be used on areas of the body or where the skin is broken or otherwise broken. Use in bathroom, kitchen, sickrooms, musty closets.

Coverage® Plus Germicidal Surface Wipes

Disinfectant/Decontaminant/Cleaning Wipes

1608-04

Net Weight: 0.39 oz

Isopropyl Alcohol: .............................................................41.58%
Benzyl Ammonium Chloride .....................................0.12%

TOTAL: 41.70%

DEWETTING: as needed for the treated surface to remain wet for the entire surface with a wipe, keep wet for 2 minutes (5 minutes if thoroughly wet pre-cleaned, hard, non-porous sterilization or high level disinfection. This product is not for use or decontaminate critical or semi-critical medical devices prior to sterile areas of the body. This product may be used to preclean ordinarily penetrate the blood barrier or otherwise enter normally directly into the human body, either into or in contact with body fluids. Avoid contamination of food. Remove and wash and eye coverings, when handling HIV-1 infected blood or handling and before eating, drinking, chewing gum, or using tobacco. Wear disposable latex gloves, gowns, masks and protective eyewear (such as goggles, face shield or safety springs, telephones, wastebaskets, waste cans, trash carts, combs, mirrors, wheel chairs, walkers, chairs, bedside, bed non-porous, inanimate surfaces, such as: stainless steel, glass tables, carts, chart racks, equipment, cabinets, supplies, baskets, laundry hampers, tubs, sinks, basins, toilets, urinals, similar hard surfaces. You may use a wipe to pre-clean the surface to be disinfected, but thorough re-wiping with a fresh wipe is required for disinfection. Use on food contact surfaces, WIPES.

FIRST AID:

If in eyes: Hold eye open and rinse slowly and gently with water for at least 15 to 20 minutes. Call a poison control center or doctor for treatment advice. Wash clothing:

If on skin or clothing:

If on skin or clothing:

Contaminated clothing before reuse.

WARNING: Do not get in eyes or on clothing. Wear specific appropriate protective eyewear (such as goggles, face shield or safety springs, telephones, wastebaskets, waste cans, trash carts, combs, mirrors, wheel chairs, walkers, chairs, bedside, bed non-porous, inanimate surfaces, such as: stainless steel, glass tables, carts, chart racks, equipment, cabinets, supplies, baskets, laundry hampers, tubs, sinks, basins, toilets, urinals, similar hard surfaces. You may use a wipe to pre-clean the surface to be disinfected, but thorough re-wiping with a fresh wipe is required for disinfection. Use on food contact surfaces, WIPES.

DISTRIBUTION: Thoroughly wet pre-cleaned, hard, non-porous surface with a wipe, keep wet for 2 minutes (5 minutes if fungus is suspected), and allow to air dry. Use as many wipes as needed for the treated surface to remain wet for the entire contact time. For use as a general disinfectant wipe on hands 1608-04(118) 61680

Coverage Plus Germicidal Surface Wipes are effective against the following pathogens in 2 minutes at 20°C/68°F, on hard, non-porous surfaces when used as directed:

- Staphylococcus aureus
- Pseudomonas aeruginosa
- Salmonella enterica
- Mycobacterium tuberculosis
- Methicillin Resistant Staphylococcus aureus (MRSA)
- Escherichia coli 0157:H7
- Vancomycin Resistant Enterococcus faecalis (VRE)
- *Human Hepatitis B virus
- *Influenza A (A2Japan)
- *Herpes Simplex virus 2 (genital herpes virus)
- *Human Hepatitis C virus
- *HIV-1 (AIDS virus)** *(At an exposure time of 1 min.)*
- **See back panel for complete HIV-1 (AIDS virus) information.

Coverage Plus Germicidal Surface Wipes are effective against the following pathogens in 5 minutes at 20°C/68°F, on hard, non-porous surfaces when used as directed:

- Trichophyton mentagrophytes
  (Athlete’s foot fungus)

Coverage Plus Germicidal Surface Wipes are effective against the following pathogens in 2 minutes at 20°C/68°F, on hard, non-porous surfaces when used as directed:

- Staphylococcus aureus

PREPARATION OF DISPENSER

Remove cover from canister and discard covering seal. From center of wipes roll, pull out a wipe corner, twist into a point and thread through the X hole in the underside of the lid cover. Pull wipe through about one (1) inch. Replace the lid cover on container, assuring a secure fit. Pull out first wipe and snap at a 90° angle. Remaining wipes feed automatically for next use. Always reseal hinged cap after each use to insure moisture retention.

DIRECTIONS FOR USE

It is a violation of U.S. Federal Law to use this product in a manner inconsistent with its labeling. This product is not to be used as a terminal sterilant/high level disinfectant on any surface or instrument that (1) is introduced directly into the human body, either into or in contact with the bloodstream or normally sterile areas of the body, or (2) contacts intact mucous membranes, but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body. This product may be used to preclean or decontaminate critical or semi-critical medical devices prior to sterilization or high level disinfection. This product is not for use on the inhalation therapy and/or pulmonary diagnostic equipment.

DISINFECT: Thoroughly wet pre-cleaned, hard, non-porous surface with a wipe. Keep wet for 2 minutes (5 minutes if fungus is suspected), and allow to air dry. Use as many wipes as needed for the treated surface to remain wet for the entire contact time. For use as a general disinfectant wipe on hard, non-porous, inanimate surfaces such as: stainless steel, Formica, glass, plastic, counters, counter tops, exam tables, glass tablets, charts, chart racks, equipment, cabinets, sinks, hand basins, wheel chairs, walkers, chairs, bedside, bed springs, telephones, wastebaskets, waste cans, trash carts, baskets, laundry hampers, tubs, sinks, basins, toilets, urinals, light fixtures, switches, door knobs, frames, cages and other similar hard surfaces. You may use a wipe to pre-clean the surface to be disinfected, but thorough re-wiping with a fresh wipe is required for disinfection. Use on food contact surfaces, must be followed by a potable water rinse.

DEODORIZING: Wipe hard, non-porous surface thoroughly to eliminate odors from bathrooms, fecal matter, urine, burns, smoke, mold, mildew, decay, slate, air, tobacco, side rooms and musty closets.

CLEANING: To clean surfaces, wipe thoroughly with a fresh wipe, which may be used to deodorize at the same time as cleaning. Use in bathrooms, kitchens, sickrooms, musty closets or other similar areas. When used to clean a hard non-porous surface prior to disinfection, a second wipe must be used for disinfection.

THE ACTIVITY OF Coverage Plus Germicidal Surface Wipes AGAINST THE HIV-1 (AIDS VIRUS): This product completely inactivates the HIV-1 (AIDS virus) on hard, non-porous surfaces when used at a contact time of 1 minute at room temperature (20-25°C). This product kills HIV-1 on pre-cleaned environmental surfaces/objects soiled with blood/body fluids, in healthcare settings or other settings in which there is an expected likelihood of soiling of inanimate surfaces/objects with blood or body fluids, and in which the surfaces/objects likely to be soiled with blood or body fluids can be associated with the potential for transmission of human immunodeficiency virus Type-1 (HIV-1)(associated with AIDS).

SPECIAL INSTRUCTIONS FOR CLEANING AND DECONTAMINATION AGAINST HIV-1 ON SURFACES/OBJECTS SOILED WITH BLOOD/BODY FLUIDS: Personal Protection: Specific barrier protection items to be used when handling items soiled with blood or body fluids are disposable latex gloves, gowns, masks and eye coverings. Cleaning Procedure: Blood and other body fluids must be thoroughly cleaned from surfaces and objects before application of Coverage Plus Germicidal Surface Wipes. Contact Time: HIV-1 virus is inactivated in 1 minute; however, other pathogens require 5 minutes exposure for complete kill. See disinfection directions.

Disposal of Infectious Materials: Materials that may contain blood or other body fluids should be autoclaved and disposed of according to federal, state and local regulations for infectious waste disposal.

STORAGE AND DISPOSAL

Store in cool area. Keep away from heat or open flame. Do not reuse wipes. Dispose of used wipe in trash. Container Disposal: Non-refillable container. Do not reuse or refill this container. Offer for recycling if available.

Cleaning Procedure: Blood and other body fluids must be thoroughly cleaned from surfaces and objects before application of Coverage Plus Germicidal Surface Wipes. Contact Time: HIV-1 virus is inactivated in 1 minute. How ever, other pathogens require 5 minutes exposure for complete kill. See disinfection directions.

Disposal of Infectious Materials: Materials that may contain blood or other body fluids should be autoclaved and disposed of according to federal, state and local regulations for infectious waste disposal.

PRECAUTIONARY STATEMENTS
Hazards to Humans and Domestic Animals
WARNING: Causes substantial, but temporary eye injury. Do not get in eyes or on clothing. Wear specific protective eyewear (such as goggles, face shield or safety glasses). Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco. Wear disposable latex gloves, gowns, masks and eye coverings, when handling HIV-1 infected blood or body fluids. Avoid contamination of food. Remove and wash contaminated clothing before reuse.

FIRST AID
If in eyes: Hold eye open and rinse slowly and gently with water for at least 15-20 minutes. Remove contact lenses, if present, after first 5 minutes, then, continue rinsing eye. Call a poison control center or doctor for treatment advice. If on skin or clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15 to 20 minutes. Call a poison control center or doctor for treatment advice. Wash contaminated clothing before reuse. WASH THOROUGHLY AFTER HANDLING WIPES.

STORAGE AND DISPOSAL
Store in cool area. Keep away from heat or open flame. Do not reuse wiped wipes. Dispose of used wipe in trash. Container Disposal: Non-refillable container. Do not reuse or refill this container. Offer for recycling if available.
