This product can be used in the following hard, non-porous non-food contact surfaces: anesthesia machines, monitors, bedrails, bedside devices, anesthesia delivery equipment, anesthesia equipment, emergency medical services equipment, hospital equipment, medical equipment, monitor equipment, medical devices, medical equipment, respiratory therapy equipment, skin care equipment surfaces, telemetry equipment, tonometer equipment surfaces. This product can be used in the following surfaces/objects: anesthesia machines, monitors, bedrails, bedside devices, anesthesia delivery equipment, anesthesia equipment, emergency medical services equipment, hospital equipment, medical equipment, monitor equipment, medical devices, medical equipment, respiratory therapy equipment, skin care equipment surfaces, telemetry equipment, tonometer equipment surfaces. This product can be used in the following surfaces/objects: anesthesia machines, monitors, bedrails, bedside devices, anesthesia delivery equipment, anesthesia equipment, emergency medical services equipment, hospital equipment, medical equipment, monitor equipment, medical devices, medical equipment, respiratory therapy equipment, skin care equipment surfaces, telemetry equipment, tonometer equipment surfaces. This product can be used in the following surfaces/objects: anesthesia machines, monitors, bedrails, bedside devices, anesthesia delivery equipment, anesthesia equipment, emergency medical services equipment, hospital equipment, medical equipment, monitor equipment, medical devices, medical equipment, respiratory therapy equipment, skin care equipment surfaces, telemetry equipment, tonometer equipment surfaces. This product can be used in the following surfaces/objects: anesthesia machines, monitors, bedrails, bedside devices, anesthesia delivery equipment, anesthesia equipment, emergency medical services equipment, hospital equipment, medical equipment, monitor equipment, medical devices, medical equipment, respiratory therapy equipment, skin care equipment surfaces, telemetry equipment, tonometer equipment surfaces. This product can be used in the following surfaces/objects: anesthesia machines, monitors, bedrails, bedside devices, anesthesia delivery equipment, anesthesia equipment, emergency medical services equipment, hospital equipment, medical equipment, monitor equipment, medical devices, medical equipment, respiratory therapy equipment, skin care equipment surfaces, telemetry equipment, tonometer equipment surfaces. This product can be used in the following surfaces/objects: anesthesia machines, monitors, bedrails, bedside devices, anesthesia delivery equipment, anesthesia equipment, emergency medical services equipment, hospital equipment, medical equipment, monitor equipment, medical devices, medical equipment, respiratory therapy equipment, skin care equipment surfaces, telemetry equipment, tonometer equipment surfaces. This product can be used in the following surfaces/objects: anesthesia machines, monitors, bedrails, bedside devices, anesthesia delivery equipment, anesthesia equipment, emergency medical services equipment, hospital equipment, medical equipment, monitor equipment, medical devices, medical equipment, respiratory therapy equipment, skin care equipment surfaces, telemetry equipment, tonometer equipment surfaces. This product can be used in the following surfaces/objects: anesthesia machines, monitors, bedrails, bedside devices, anesthesia delivery equipment, anesthesia equipment, emergency medical services equipment, hospital equipment, medical equipment, monitor equipment, medical devices, medical equipment, respiratory therapy equipment, skin care equipment surfaces, telemetry equipment, tonometer equipment surfaces. This product can be used in the following surfaces/objects: anesthesia machines, monitors, bedrails, bedside devices, anesthesia delivery equipment, anesthesia equipment, emergency medical services equipment, hospital equipment, medical equipment, monitor equipment, medical devices, medical equipment, respiratory therapy equipment, skin care equipment surfaces, telemetry equipment, tonometer equipment surfaces. This product can be used in the following surfaces/objects: anesthesia machines, monitors, bedrails, bedside devices, anesthesia delivery equipment, anesthesia equipment, emergency medical services equipment, hospital equipment, medical equipment, monitor equipment, medical devices, medical equipment, respiratory therapy equipment, skin care equipment surfaces, telemetry equipment, tonometer equipment surfaces. This product can be used in the following surfaces/objects: anesthesia machines, monitors, bedrails, bedside devices, anesthesia delivery equipment, anesthesia equipment, emergency medical services equipment, hospital equipment, medical equipment, monitor equipment, medical devices, medical equipment, respiratory therapy equipment, skin care equipment surfaces, telemetry equipment, tonometer equipment surfaces. This product can be used in the following surfaces/objects: anesthesia machines, monitors, bedrails, bedside devices, anesthesia delivery equipment, anesthesia equipment, emergency medical services equipment, hospital equipment, medical equipment, monitor equipment, medical devices, medical equipment, respiratory therapy equipment, skin care equipment surfaces, telemetry equipment, tonometer equipment surfaces. This product can be used in the following surfaces/objects: anesthesia machines, monitors, bedrails, bedside devices, anesthesia delivery equipment, anesthesia equipment, emergency medical services equipment, hospital equipment, medical equipment, monitor equipment, medical devices, medical equipment, respiratory therapy equipment, skin care equipment surfaces, telemetry equipment, tonometer equipment surfaces. This product can be used in the following surfaces/objects: anesthesia machines, monitors, bedrails, bedside devices, anesthesia delivery equipment, anesthesia equipment, emergency medical services equipment, hospital equipment, medical equipment, monitor equipment, medical devices, medical equipment, respiratory therapy equipment, skin care equipment surfaces, telemetry equipment, tonometer equipment surfaces. This product can be used in the following surfaces/objects: anesthesia machines, monitors, bedrails, bedside devices, anesthesia delivery equipment, anesthesia equipment, emergency medical services equipment, hospital equipment, medical equipment, monitor equipment, medical devices, medical equipment, respiratory therapy equipment, skin care equipment surfaces, telemetry equipment, tonometer equipment surfaces. This product can be used in the following surfaces/objects: anesthesia machines, monitors, bedrails, bedside devices, anesthesia delivery equipment, anesthesia equipment, emergency medical services equipment, hospital equipment, medical equipment, monitor equipment, medical devices, medical equipment, respiratory therapy equipment, skin care equipment surfaces, telemetry equipment, tonometer equipment surfaces. This product can be used in the following surfaces/objects: anesthesia machines, monitors, bedrails, bedside devices, anesthesia delivery equipment, anesthesia equipment, emergency medical services equipment, hospital equipment, medical equipment, monitor equipment, medical devices, medical equipment, respiratory therapy equipment, skin care equipment surfaces, telemetry equipment, tonometer equipment surfaces. This product can be used in the following surfaces/objects: anesthesia machines, monitors, bedrails, bedside devices, anesthesia delivery equipment, anesthesia equipment, emergency medical services equipment, hospital equipment, medical equipment, monitor equipment, medical devices, medical equipment, respiratory therapy equipment, skin care equipment surfaces, telemetry equipment, tonometer equipment surfaces. This product can be used in the following surfaces/objects: anesthesia machines, monitors, bedrails, bedside devices, anesthesia delivery equipment, anesthesia equipment, emergency medical services equipment, hospital equipment, medical equipment, monitor equipment, medical devices, medical equipment, respiratory therapy equipment, skin care equipment surfaces, telemetry equipment, tonometer equipment surfaces. This product can be used in the following surfaces/objects: anesthesia machines, monitors, bedrails, bedside devices, anesthesia delivery equipment, anesthesia equipment, emergency medical services equipment, hospital equipment, medical equipment, monitor equipment, medical devices, medical equipment, respiratory therapy equipment, skin care equipment surfaces, telemetry equipment, tonometer equipment surfaces.
DEADENER

ADHESIVE

Hinge

1/2"

For Detective of Asian Influenza A. Use this product as a spray-only surface for surfaces that are not conducive to treatment by immersion or exposure to liquid. Food and drink dispensing and preparation surfaces must be rinsed with potable water prior to use.

For surface cleaning: To clean surfaces, surfaces that have been pre-cleaned, spray or pour on to surfaces to be treated by immersion or exposure to liquid. Rinsing is not required. Allow to remain wet for 2 minutes. For use in healthcare facilities, food establishments.

DIRECTIONS FOR USE

To clean surfaces, saturate surfaces with this product by spray, mop, rag, towel, paper towel, pour, or immersion then wipe surface clean. Repeat, if necessary, until surfaces are visibly clean. Discard paper towels or launder cloth towels before reusing.

For hard, non-porous, non-food contact surface sanitization: Apply this product to pre-cleaned hard, non-porous surfaces by spray, cloth, microfiber, spray, tap, paper towel or to immersion to wet surfaces thoroughly. Allow for hard, non-porous surfaces to remain wet for 1 minute at room temperature then wipe surface using a clean cloth, paper or cloth towel, or rinse surface using potable water and wipe surface dry or allow to air dry. Dispose of hard, non-porous, non-food contact surface material before reuse.

For use as a disinfectant: Apply this product to pre-cleaned hard, non-porous, non-food contact surfaces by spray, cloth, microfiber, spray, tap, paper towel or to immersion to wet surfaces thoroughly. Allow for hard, non-porous, non-food contact surfaces to remain visibly wet for 2 minutes. Disinfect or launder spent materials before reuse.

For use as a surface disinfectant: This product is not to be used as a terminal sterilant or high-level disinfectant on any surface or instrument that (1) is introduced directly into the body cavity, orifices in or contact with the bloodstream or venous or arterial walls of the body, or (2) contacts tissue necrotic membranes, but which does not ordinarily contain the bloodstream or alimentary or respiratory tract of the body. This product is not to be used on contact lenses.

For use as a surface disinfectant/virucide/fungicide: Apply this product to pre-cleaned hard, non-porous, non-food contact surfaces by spray, cloth, microfiber, spray, tap, paper towel or immersion to wet surfaces thoroughly. Allow for hard, non-porous, non-food contact surfaces to remain visibly wet for 2 minutes at room temperature then wipe surface using a clean cloth, paper or cloth towel, or rinse surface using potable water and wipe surface dry or allow to air dry. Disinfect or launder spent materials before reuse.

For use as an immunization: Do not use as an immunization process.

For use as an immunization: Do not use as an immunization process.

For use as an immunization: Do not use as an immunization process.

For use as an immunization: Do not use as an immunization process.
