SWIMMING POOL ALGAECIDE AND ALGAE PREVENTATIVE

Clorox® Pool&Spa™ XtraBlue® Algaecide, when used as directed, is a highly effective, patented, non-staining algaecide that kills and controls algae in swimming pools. Clorox® Pool&Spa™ XtraBlue® Algaecide is especially formulated to kill and control green, blue-green (frequently called black or spot algae) and mustard algae growths. Clorox® Pool&Spa™ XtraBlue® Algaecide can be used as a remote for visible algae or to prevent algae from occurring. See use directions for Prevention of Algae or Treatment of Visible Algae for proper application of Clorox® Pool&Spa™ XtraBlue® Algaecide. This product is formulated for use in chlorine or bromine sanitized swimming pools of all surface and filter types.

IMPORTANT NOTES:
1. Do not use in pools sanitized with biguanides or pools treated with hydrogen peroxide.
2. Prior to the initial application of this product, test pool water for the presence of metals. If metals are present, apply a metal stain preventative per label directions.
3. When using other products, always follow label directions for those products.
4. In use dilution, this product is non-staining to pool surfaces and equipment.

DIRECTIONS FOR USE:
1. TREATMENT OF VISIBLE POOL ALGAE:
   - 1. Initially apply 8 fluid ounces of this product per 10,000 gallons of pool water directly to the pool by pump and filter operating. If necessary, clean the filter system.
   - 2. Thereafter, for weekly application intervals, add 1.5 fluid ounces per 10,000 gallons of pool water. For two week application intervals, add 3 fluid ounces per 10,000 gallons of pool water every other week. Apply more often if pool volume is diluted by heavy rain, frequent backwashing or partial drain/refill.
   - 3. Wait at least 15 minutes after application before entering pool.
   - 4. Prior to re-entry, test chlorine level. Do not enter pool until chlorine level of 30-40 ppm of cyanuric acid to reduce the degrading effects of sunlight on chlorine residual.
   - 5. The next day, thoroughly brush pool surfaces with a surface-compatible brush.
   - 6. Prior to re-entry, test chlorine level. Do not enter pool until chlorine level is between 1-4 ppm.
   - 7. In cases of persistent algae, repeat brushing and product application after 2-4 days.

STORAGE AND DISPOSAL:
- Do not contaminate food or feed by storage or disposal.
- CONTAINER STORAGE: Keep this product in its original tightly closed container when not in use. Store in a cool, dry, well ventilated area. CONTAINER DISPOSAL: Non-refillable container. Do not refill or reuse this container. Offer for recycling if available or place in trash.

PRECAUTIONARY STATEMENTS:
HAZARDS TO HUMANS AND DOMESTIC ANIMALS: DANGER: Corrosive. Causes irreversible eye damage and skin burns. Harmful if swallowed. Do not get in eyes, on skin, or on clothing. Wear protective eyewear (safety glasses or goggles) and rubber gloves. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove and wash contaminated clothing before reuse.

PHYSICAL OR CHEMICAL HAZARDS: Do not mix with other chemicals.

FIRST AID:
- IF IN EYES: Hold eye open and rinse slowly and gently with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person. IF INGESTED: Call a poison control center or doctor immediately for treatment advice. Have person吐 a glass of water to dilute. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish and aquatic organisms. Note: User assumes all responsibility for use not in accordance with directions. Metals from source water, ionizers or poorly sequestered algaecides have the potential to stain pool surfaces. This pesticide is toxic to fish and aquatic organisms. Prevent these problems with an appropriate stain and scale inhibitor (clarifying agent) before using this product.

IN CASE OF MEDICAL EMERGENCY, CALL 1-877-800-5553.
