EMERGENCY HANDLING:
In case of contamination or decomposition - Do not resell container. Immediately remove container to an open and well-ventilated unique away from heat or open flame and burning material. Flood with large amounts of water. Dispose of the container and any remaining contaminated material in an approved landfill area.

DIRECTIONS FOR USE
FOR SWIMMING POOL USE:
This product is intended for use in controlling bacteria and algae in swimming pools. This product should be added directly to the surface of circulating water according to the directions. Each ounce of this product will provide about 0.4 ppm (mg/L) of available chlorine to 10,000 gallons of water. Reentry into treated swimming pools is prohibited above levels of 4 ppm of chlorine.

Maintenance Treatment: Add the product daily or as needed to maintain the free residual chlorine at 0.5 ppm (mg/L). The chlorine residual may be obtained by spreading this product over surface pool water. 14 ounces of this product per 10,000 gallons of pool water provides approximately 6 ppm (mg/L) of available chlorine. Note: Do not use pool until chlorine residual falls below 4 ppm. As a guide for swimming pools, the chlorine residual by 4 ppm (mg/L).

For Super Chlorination To Control Bacteria And Algae
Add this product daily or as needed to maintain the free

Shock Treatment: Add shock treatment to extremely hot weather, when many people use the pool, when water becomes heavy or heavy rain, a shock dose of chlorine may be obtained by spreading this product over surface pool water. 14 ounces of the product will provide about 0.4 ppm (mg/L) of available chlorine to 10,000 gallons of water. Weather and usage effect number levels. Maintain the pH at 7.2-7.6.

FIRST AID
If In Eyes: Hold eye open and flush with plenty of water for 15-20 minutes. Remove contact lenses, if present. After the first 5 minutes, then continue rinsing eyes.
If Inhaled: Move person to fresh air. If person isn’t breathing, call 911 or the nearest hospital. If possible, give artificial respiration repeatedly until patient recovers or is rushed to hospital. Keep person in a cool, dry, well-ventilated area away from heat or open flame and burning material. Flood with large amounts of water. Dispose of the container and any remaining contaminated material in an approved landfill area.

Storage & Disposal:
Keep this product in its tightly closed container when not in use. Store in a cool, dry, well-ventilated area away from heat or open flame. Nonrefillable container. Do not reuse or refill. Inert ingredients are noninflammable and are suitable for storage in a well-ventilated area. Keep away from heat or open flame. Nonrefillable container. Do not reuse or refill.
