PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER
Corrosive. Causes irreversible eye damage. Harmful if swallowed or absorbed through skin. Do not get in eyes, or on clothing. Avoid contact with skin. Prolonged or frequently repeated skin contact may cause allergic reaction in some individuals. Wear protective eyewear, long-sleeved shirt and long pants, socks, shoes, and chemical-resistant gloves (such as barrier laminate, butyl rubber, nitrile rubber, neoprene rubber, natural rubber, polyethylene, PVC and Viton, category A). Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove and wash contaminated clothing before reuse.

PERSONAL PROTECTIVE EQUIPMENT (PPE):
Applicants and other handlers must wear:
- Goggles or face shield
- Long-sleeve shirt and long pants,
- Chemical-resistant gloves (such as barrier laminate, nitrile, rubber, neoprene rubber and Viton),
- Shoes plus socks.
Follow manufacturer’s instructions for cleaning/maintaining PPE. If no such instructions exist for washables, use detergent and hot water. Keep and wash PPE separately from other laundry.

USER SAFETY RECOMMENDATIONS
Users should:
- Wash hands before eating, drinking, chewing gum, using tobacco or using the toilet.
- Remove clothing immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.
- Remove personal protective equipment immediately after handling this product.
- Wash the outside of gloves before removing. As soon as possible wash thoroughly.

FIRST AID

IF IN EYES:
- Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
- Call a poison control center or doctor for treatment advice.

IF SWALLOWED:
- Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

IF ON SKIN OR CLOTHING:
- Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

IF INHALED:
- Move person to fresh air. If person is not breathing call 911 or an ambulance, then give artificial respiration preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. For general information on product use, etc, call the National Pesticides Information Center at 1-800-858-7378. You may also contact 1-800-222-1222, the poison control center, for emergency medical treatment information.

NOTE TO PHYSICIAN:
Probable mucosal damage may contraindicate the use of gastric lavage.

OMNIPHASE® 663
A Broad Spectrum Industrial Preservative in Paint and Stains, Masonry Coatings, Caulks and Sealants, Inks** and Roof Coatings and Stucco

ACTIVE INGREDIENT: ........................................... % Weight
Methyl 2-benzimidazolcarbamate ................................9.0%
3-Iodo-2-propynyl butyl carbamate ............................ 3.0%
Diuron [3-(3,4-dichlorphenyl)-1,1-dimethylurea] .......... 15.0%
1,2-Benzisothiazolin-3(2H)-One ................................1.1%
INERT INGREDIENTS ............................................. 71.9%
TOTAL ........................................................................ 100.0%

KEEP OUT OF REACH OF CHILDREN

DANGER
SOLD FOR INDUSTRIAL USE

Net Weight:

Produced for/Manufactured by:
Troy Chemical Corporation
One Avenue L, Newark, N.J. 07105

ENVIRONMENTAL HAZARDS
This product is toxic to fish. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional office of the EPA.

DIRECTIONS FOR USE
It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Do not apply this product in a way that will contact workers or other persons. Omniphase® 663 is a dry film and wet state preservative used to prevent the growth of bacteria, algae and fungi in the material both in the wet state and in the dry film of the finished product. It is used to preserve the integrity of aqueous systems from deterioration and degradation caused by microorganisms. Its primary application is in water-based products where VOC is a major concern. Suggested application levels are based on laboratory and field evaluations and are typical for the use areas indicated. Suggested use levels are reported as percentage weight/weight of Omniphase® 663, based on the weight of the final use product. Omniphase® 663 should be added to paints and coatings at the end of the manufacturing cycle, after the final pH adjustment has been made, at the following rate:
Paint and stains                                      0.7 – 2.0%
Wood protective stains                             0.5 – 2.0%
Masonry coatings                                    0.2 – 0.6%
** Inks                                             0.5-1.5%

Roof coatings 0.7 - 3.0% Only for use in film forming applications where the product is bound by polymer in the film. Avoid spray application and application when rain is imminent. In order to prevent damage to surrounding vegetation, cover all exposed vegetation near the application site.
Omniphase® 663 may be added to caulks and sealants at the end of the production cycle with good agitation at 0.5-1.5%.
Omniphase® 663 may be added to stucco at a rate of 0.5-1.5%.
OMNIPHASE 663 is not be used in food contact adhesive uses.
** Not registered for use in State of California.

STORAGE AND DISPOSAL
Do not contaminate water, food, or feed by storage or disposal.

PESTICIDE STORAGE: Do not store below 44.6°F (7°C). The container should be tightly closed and stored in an upright position.

PESTICIDE DISPOSAL: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticides, spray mixture, or empty container is a violation of federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State pesticide or environmental control agency or the hazardous waste representative at the nearest EPA regional office for guidance.

CONTAINER HANDLING: Nonrefillable container. Do not reuse or relit the container.
Triple rinse (or equivalent). Then offer for recycling or reconditioning if available, or puncture and dispose of in a sanitary landfill, or incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.
