**KEEP OUT OF REACH OF CHILDREN**

**DANGER**

**FIRST AID**

Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

If in Eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. If on Skin or Clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call poison control center or doctor for treatment advice. If Swallowed: Call poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.

If breathed, move person to fresh air. If person is not breathing, call 911 or an ambulance then give artificial respiration, told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.

This product is a no rinse neutral disinfectant cleaner that disinfects, cleans and deodorizes in one labor saving step.

This product, when used as directed, is formulated to disinfect hard, non-porous, inanimate, environmental surfaces: floors, walls, metal surfaces, stainless steel surfaces, glazed porcelain, glazed ceramic tile, plastic surfaces, vanity tops, shower stalls, bathtubs, and cabinets.

This product is formulated to a neutral pH, yet provides effective cleaning strength that will not dull high gloss floor finishes.

**KILLS HIV-1, HCV and HBV ON PRE-CLEANED ENVIRONMENTAL SURFACES/OBJECTS PREVIOUSLY SOILED WITH BLOOD/BODY FLUIDS in health care settings (Hospitals, Nursing Homes) or other settings in which there is an expected likelihood of soiling of inanimate surfaces/objects with blood or body fluids, and in which the surfaces/objects likely to be soiled with blood or body fluids can be associated with transmission of Human Immunodeficiency Virus Type 1 (associated with AIDS), Hepatitis C Virus (HCV) and Hepatitis B Virus (HBV).**

This product is for use in:
- Hospitals, nursing homes, medical and dental offices and clinics, operating rooms, isolation wards, and medical research facilities.
- Restaurants and bars, cafeterias, institutional kitchens, fast food operations and food storage areas.
- Institutional facilities, factories, business and office buildings, restrooms, hotels and motels and transportation terminals.
- Institutions, schools and colleges, churches, classrooms, athletic facilities and locker rooms.
- Veterinary clinics, kennels, breeding and grooming establishments, pet animal quarters, zoos, pet shops, and other animal care facilities.
- Automotive garages, boats, ships, campers, trailers, mobile homes, cars, buses, trains, taxis and airplanes.

This product has demonstrated effectiveness against Influenza A virus and is expected to inactivate all Influenza A viruses including Pandemic 2009 H1N1 Influenza A virus.

This product is a one step neutral disinfectant that is effective against a broad spectrum of bacteria.

This product has demonstrated effectiveness against Influenza A virus and is expected to inactivate all Influenza A viruses including Pandemic 2009 H1N1 Influenza A virus.

**MICRO-ORGANISMS**

This product has been tested and found to be efficacious against the following micro-organisms on hard, non-porous surfaces:

**BOTTOM GLUE**
DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Labeling must be in the possession of the user at the time of use of the product. Read and follow all PRECAUTIONARY STATEMENTS/STEPS and complete DIRECTIONS FOR USE before applying. Use of this product is subject to the precautions and limitations imposed by the label.

SITE AND APPLICATION SPECIFIC DIRECTIONS FOR USE

To Disinfect Food Processing Premises: Before using this product, food products and packaging materials must be removed from the area or carefully protected. For floors, walls, and storage areas, add 1 ounce of this product per gallon of water. For heavily soiled areas, a pre-cleaning step is required. Apply solution with a cloth, sponge or hand pump trigger sprayer so as to wet all surfaces thoroughly. Allow the surface to remain wet for 10 minutes, then remove excess liquid. All surfaces that may come in contact with food must be rinsed with potable water.

Before using this product, food products and packaging materials must be removed from the area or carefully protected. For countertops, appliances, tables, add 1 ounce of this product per gallon of water. For heavily soiled areas, a pre-cleaning step is required. Apply solution with a cloth, sponge or hand pump trigger sprayer so as to wet all surfaces thoroughly. Allow the surface to remain wet for 10 minutes, then remove excess liquid. For sprayer applications, spray 4-6 inches from surface, rub with brush, sponge or cloth. Do not breathe spray mist. For heavily soiled areas, a pre-cleaning step is required. Prepare a fresh use-solution daily or more often if the use-solution becomes visibly contaminated or diluted. All surfaces that come in contact with food must be rinsed with potable water. Do not use on utensils, glasses and dishes.

PACKETS

- Pour contents of packet into 1 gallon of water (for a 1:128 dilution). Keep packets in box until ready to use.

SANITIZATION - NONFOOD

For heavy duty use: Empty toilet bowl or urinal and apply 1 ounce per gallon solution to exposed surfaces, brush or swab thoroughly under the rim with a cloth, mop, sponge or sprayer, or allow to stand for 10 minutes and flush. When handling items soiled with blood or body fluids, use disposable latex gloves, gowns, masks, and eye covers.

To Control Mold and Mildew on Large, Inflatable, Non-Porous Plastic and Rubber Structures obstacle course play equipment, exercise equipment, and wrestling mats: Thoroughly clean all surfaces with soap or detergent and rinse with water. Saturate surfaces with a use-solution of 4 ounces of this product per 4 gallons of water (or equivalent dilution) for a period of 10 minutes. Ventilate buildings and other closed spaces. Do not use equipment until treatment has been absorbed, set or dried.

Veterinary Practice/Animal Care/Zoo/Pet Shop/Kennels Disinfection: For cleaning and disinfecting of the following non-porous surfaces: equipment not used for animal food or water, utensils, instruments, cages, kennels, stalls, catteries, etc. Remove all animals and feed from premises, animal transportation vehicles, crates, etc. Remove all litter, droppings and manure from floors, walls and surfaces occupied or towersed by animals. Thoroughly clean all surfaces with soap or detergent and rinse with water. Saturate surfaces with a use-solution of 1 ounce of this product per gallon of water (or equivalent dilution) for a period of 10 minutes. Ventilate buildings and other closed spaces. Do not house animals or employ equipment until treatment has been absorbed, set or dried.

Disinfection of Barber/Salon Tools: Immerse pre-cleaned barber/salon tools in a use-solution (or equivalent dilution) of 1 ounce of this product per gallon of water for 10 minutes. Rinse instruments thoroughly and dry before reuse. A fresh use-solution must be prepared daily or more often if the use-solution becomes contaminated. NOTE: Plastics may remain immersed until ready to use. Stainless steel shears and instruments must be removed from the use-solution after 10 minutes, rinsed, dried and kept in a clean, non-contaminated receptacle. Prolonged immersion may cause damage to stainless steel or metal instruments.

DILUTION SYSTEM SPECIFIC DIRECTIONS FOR USE

PACKETS - Pour contents of packet into 1 gallon of water (for a 1:128 dilution). Keep packets in box until ready to use.

Deodorization: To deodorize, apply this product as indicated under the heading DISINFECTION.

To Remove Mold Stains and Mildew Stains: This product can be used at full strength or at a use dilution down to 1 ounce per gallon of either diacetone or equivalent dilution. Apply full strength or diluted solution to surfaces to be cleaned with a cloth, mop, sponge or hand pump trigger sprayer. Thoroughly wet soiled surface completely and scrub as necessary.

Disinfection: To disinfect inanimate, hard, non-porous surfaces add 1 ounce of this product per gallon of water (or equivalent dilution). Apply solution with a mop, cloth, sponge, hand pump trigger sprayer or low pressure coarse spray so as to wet all surfaces thoroughly. Allow to remain wet for 10 minutes, then remove excess liquid. For sprayer applications, spray 4-6 inches from surface, rub with brush, sponge or cloth. Do not breathe spray mist. For heavily soiled areas, a pre-cleaning step is required. Prepare a fresh use-solution daily or more often if the use-solution becomes visibly contaminated or diluted. All surfaces that come in contact with food must be rinsed with potable water. Do not use on utensils, glasses and dishes.

Special Instructions for Cleaning and Disinfection Against HIV-1, HBV and HCV of Surfaces/Objects Soiled with Blood/Body Fluids.

Personal Protection: When handling items soiled with blood or body fluids, use disposable latex gloves, gowns, masks, and eye covers.

Cleaning Procedures: Blood and other body fluids must be thoroughly cleaned from surfaces and objects before application of this product.

CONTACT TIME: HIV-1 is inactivated after a thirty second contact time. HBV is inactivated after a three minute contact time. HCV is inactivated after five minute contact time. Use a ten minute contact time for other organisms as stated on the label.

Disposal of Infectious Materials: Blood and other body fluids must be autoclaved and disposed of according to local regulations for infectious waste disposal.

Sanitization of Non-Food Contact Surfaces: To sanitize non-porous environmental surfaces add 1 ounce of this product per gallon of water (or equivalent dilution). Apply solution with a mop, cloth, sponge or hand pump trigger sprayer so as to wet all surfaces thoroughly. Allow to remain wet for 15 seconds, then remove excess liquid. For heavily soiled areas, a pre-cleaning step is required. This product cannot be used to clean utensils, glasses and dishes. Prepare a fresh solution for each use.

Fungicide & Mildewicide:

Fungicide: At a 1 ounce per gallon dilution (equivalent dilution), this product is fungicidal against the pathogenic fungi, Trichophyton mentagrophytes (athlete’s foot fungus) and Candida albicans. Apply this product with a cloth, sponge or hand pump trigger sprayer to hard, non-porous surfaces found in bathrooms, shower stalls, locker rooms, exercise facilities or other clean, hard, non-porous surfaces commonly contacted by bare feet. Allow the surface to remain wet for 10 minutes, for Candida albicans allow surface to remain wet for 5 minutes, then remove excess liquid. Diluted product must be applied daily or more frequently with high traffic facility use.

Mildewicide: At a 1 ounce per gallon (equivalent dilution) dilution 400 ppm hard water (calculated as CaCO3) and 5% organic blood serum, this product will kill Aspergillus niger when applied to hard, non-porous surfaces. Allow surface to remain wet for 10 minutes and let air dry. Repeat when mildew growth returns.

Mildewstat: To control mold and mildew and the odors it causes on pre-cleaned, hard, non-porous inanimate surfaces, add 1 ounce of this product per gallon of water (or equivalent dilution). Apply solution with a cloth, mop, sponge or hand pump trigger sprayer making sure to wet all surfaces completely. Let air dry. Prepare a fresh solution for each use. Repeat application at weekly intervals or when mildew growth appears.

Precautionary Statements

Hazards to Humans and Domestic Animals.

Danger

Keep out of reach of children. Corrosive. Causes irreversible eye damage and skin burns. Do not get in eyes, on skin or on clothing. May be fatal if inhaled. Do not breathe spray mist. Harmful if swallowed or absorbed through skin. Wear goggles or face shield, rubber gloves and protective clothing when handling. Wash thoroughly with soap and water after handling and before eating, drinking, using tobacco or using the toilet. Remove contaminated clothing and wash before reuse.

Storage and Disposal

Do not contaminate water, food, or feed by storage or disposal.

Pesticide Storage: Store in a dry place no lower in temperature than 50°F or higher than 120°F.

Pesticide Disposal: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

Container Disposal: Nonrefillable container. Do not reuse this container. Triple rinse or equivalent. Triple rinse as follows: Fill container ¾ full with water and recap. Agitate vigorously. Follow Pesticide Disposal instructions for rinsate disposal. Drain for 10 seconds after the flow begins to drip. Repeat procedure two more times. Offer for recycling or reconditioning, if available. If not available, puncture and dispose in a sanitary landfill.

Packet Disposal: Do not reuse, discard empty container and put in trash.

**Botton GLUE**

This product is a neutral disinfectant that is effective against a broad spectrum of bacteria. This product has demonstrated effectiveness against Influenza A virus and is expected to inactivate all Influenza A viruses including Pandemic 2009 H1N1 Influenza A virus. This product is a no rinse neutral disinfectant cleaner that disinfects, cleans and deodorizes in one labor saving step. This product, when used as directed, is formulated to disinfect hard, non-porous, inanimate, environmental surfaces: floors, walls, metal surfaces, stainless steel surfaces, glazed porcelain, glazed ceramic tile, plastic surfaces, vanity tops, shower stalls, bathtubs, and cabinets. This product is formulated to a neutral pH, yet provides effective cleaning strength that will not dull high gloss floor finishes. This product is a one step neutral disinfectant that is effective against a broad spectrum of bacteria. This product has been tested and found to be efficacious against the following micro-organisms on hard, non-porous surfaces:

</table>
from the area or carefully protected. For floors, walls, and storage areas, add 1 ounce of this product per gallon of water.

To Disinfect Food Processing Premises:

**SITE AND APPLICATION SPECIFIC DIRECTIONS FOR USE**

- For rinsates disposal: Allow the surface to remain wet for 10 minutes, for Candida albicans allow surface to remain wet for 5 minutes, then remove excess liquid. Diluted product must be applied daily or more frequently with heavy facility use.
- MILDEWST: To control mold and mildew and the odors it causes on pre-cleaned, hard, non-porous surfaces, add 1 ounce of this product per gallon of water (or equivalent dilution). Application with a cloth, mop, sponge or hand pump trigger sprayer making sure to wet all surfaces completely. Let air dry. Prepare a fresh solution for each use. Repeat application at weekly intervals or when mold growth appears.

### SANITIZATION - NONFOOD

- **Bacteria**
  - Staphylococcus aureus: 15 seconds
  - Klebsiella pneumoniae: 15 seconds
  - Enterobacter aerogenes: 15 seconds
  - Pseudomonas aeruginosa: 15 seconds
  - Escherichia coli: 15 seconds
  - Methicillin resistant Staphylococcus aureus (MRSA): 15 seconds
  - Salmonella (typhi) enterica: 15 seconds
  - Streptococcus pyogenes: 15 seconds
  - Vancomycin resistant Enterococcus faecium (VRE): 15 seconds

- **Viruses**
  - Polio: 3 minutes
  - Hepatitis A: 3 minutes
  - Hepatitis B (HBV): 3 minutes
  - Hepatitis C (HCV): 3 minutes
  - Human Immunodeficiency Virus Type 1, 2 (HIV-1, HIV-2): 3 minutes
  - Herpes Simplex Virus Type 1: 3 minutes
  - Herpes Simplex Virus Type 2: 3 minutes
  - Influenza Virus Type A2: 3 minutes
  - Pandemic 2009 H1N1 Influenza A Virus: 3 minutes
  - Rotavirus: 3 minutes
  - SARS Associated Coronavirus: 3 minutes
  - Varicella: 3 minutes
  - Varicella-zoster virus: 3 minutes

**DIRECTIONS FOR USE**

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Labeling must be in the possession of the user at the time of use of the product. Non-Acid Toilet Bowl Disinfection/Cleaner:

- From concentrate: prior to disinfection, remove gross filth or soils from surfaces with bowl brush. Add 1 ounce of this product per gallon of water (or equivalent dilution) to the toilet bowl and mix. Brush thoroughly over exposed surfaces and under the rim, allow to remain wet for 10 minutes and flush.

**SITE AND APPLICATION SPECIFIC DIRECTIONS FOR USE**

- To disinfect soft surfaces: Add 1 ounce per gallon to the toilet bowl and mix. Thoroughly wet soiled surface completely and scrub as necessary.

### MILDEWST:

- At 1 ounce per gallon (equal dilution) 400 ppm hard water (calculated as CaCO3) and 5% organic blood serum, this product will kill Aspergillus niger when applied to hard, non-porous surfaces. Allow surface to remain wet for 10 minutes and let air dry. Repeat when mildew growth returns.

**SANITIZATION OF NON-FOOD CONTACT SURFACES:** To sanitize non-porous environmental surfaces add 1 ounce of this product per gallon of water (or equivalent dilution). Application with a cloth, mop, sponge or hand pump trigger sprayer, as to wet all surfaces thoroughly. Allow to remain wet for 10 minutes, then remove excess liquid. For heavily soiled areas, a pre-cleaning step is required. This product cannot be used to clean utensils, glasses and dishes. Prepare a fresh solution for each use. Repeat application at weekly intervals or when mold growth appears.

**FRUITS & VEGETABLES:**

- To disinfect inanimate, hard non-porous surfaces add 1 ounce of this product per gallon of water (or equivalent dilution). Application with a cloth, mop, sponge or hand pump trigger sprayer, as to wet all surfaces thoroughly. Allow to remain wet for 10 minutes, then remove excess liquid. For heavily soiled areas, a pre-cleaning step is required. This product cannot be used to clean utensils, glasses and dishes. Prepare a fresh solution for each use. Repeat application at weekly intervals or when mold growth appears.

**STORAGE AND DISPOSAL**

- DO NOT CONTAMINATE WATER, FOOD, OR FEED BY STORAGE OR DISPOSAL.

**PESTICIDE STORAGE**

- Store in a dry place no lower in temperature than 50°F or higher than 120°F.

**PESTICIDE DISPOSAL**

- Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinse water is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

**CONTAINER DISPOSAL**

- Nonrefillable container. Do not re-use this container. Triple rinse or equivalent. Triple rinse as follows: Fill container ½ full with water and recap. Agitate vigorously. Follow Pesticide Disposal Instruction for rinse disposal. Drain for 10 seconds after the flow begins to drip. Repeat procedure two more times. Offer for recycling or reconditioning, if available. If not available, puncture and dispose in a sanitary landfill.

**PACKET DISPOSAL**

- Do not reuse; discard empty container and put in trash.

**PRECAUTIONARY STATEMENTS**

- HAZARDS TO HUMANS AND DOMESTIC ANIMALS.

KEEP OUT OF REACH OF CHILDREN. CORROSIVE. Causes irreversible eye damage and skin burns. Do not get in eyes, on skin or on clothing. May be fatal if ingested. Do not breathe spray mist. Harmful if swallowed or absorbed through skin. Wear goggles or face shield, rubber gloves and protective clothing when handling. Wash thoroughly with soap and water after handling and before eating, drinking, using tobacco or using the toilet. Remove contaminated clothing and wash before reuse.

FIRST AID: Have the product container or label with you when calling a poison control center or doctor, or going for treatment. If in Eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. If on Skin or Clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call poison control center or doctor for treatment advice. If Swallowed: Call poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person. If Inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice. NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage.

Sold By PortionPac Chemical Corp., portionpaccorp.com, 312-226-0400
400 N. Ashland Ave., Chicago, IL 60622 USA
This product is for use in:
- Hospitals, nursing homes, medical and dental offices and clinics, operating rooms, isolation wards, and medical research facilities.
- Restaurants and bars, cafeterias, institutional kitchens, fast food operations and food storage areas.
- Institutional facilities, factories, business and office buildings, restrooms, hotels and motels and transportation terminals.
- Institutions, schools and colleges, churches, classrooms, athletic facilities and locker rooms.
- Veterinary clinics, kennels, breeding and grooming establishments, pet animal quarters, zoos, pet shops, and other animal care facilities.
- Automotive garages, boats, ships, campers, trailers, mobile homes, cars, buses, trains, taxis and airplanes.

KILLS HIV-1, HCV and HBV ON PRE-CLEANED ENVIRONMENTAL SURFACES/OBJECTS PREVIOUSLY SOILED WITH BLOOD/BODY FLUIDS in health care settings (Hospitals, Nursing Homes) or other settings in which there is an expected likelihood of soiling of inanimate surfaces/object with blood or body fluids, and in which the surfaces/object is likely to be soiled with blood or blood fluids can be associated with the potential for transmission of Human Immunodeficiency Virus Type 1 (associated with AIDS), Hepatitis C Virus (HCV) and Hepatitis B Virus (HBV).

This product is a no rinse neutral disinfectant cleaner that disinfests, cleans and deodorizes in one labor saving step.

This product, when used as directed, is formulated to disinfect hard, non-porous, inanimate, environmental surfaces: floors, walls, metal surfaces, stainless steel surfaces, glazed porcelain, glazed ceramic tile, plastic surfaces, vanity tops, shower stalls, bathtubs, and cabinets.

This product is formulated to a neutral pH, yet provides effective cleaning strength that will not dull high gloss floor finishes.

Kills Pandemic 2009 H1N1 Influenza A virus (formerly called swine flu)

This product is a one step neutral disinfectant that is effective against a broad spectrum of bacteria.

This product has demonstrated effectiveness against Influenza A virus and is expected to inactivate all Influenza A viruses including Pandemic 2009 H1N1 Influenza A virus.

Kills Trichophyton mentagrophytes, the cause of ringworm.

**MICRO-ORGANISMS**

This product has been tested and found to be efficacious against the following micro-organisms on hard, non-porous surfaces:
DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Labeling must be in the possession of the user at the time of use of the product. Read and UNDERSTAND the PRECAUTIONARY STATEMENTS/TESTS and complies DIRECTIONS FOR USE before applying. Use of this product is subject to the precautions and limitations imposed by the label.

SITE AND APPLICATION SPECIFIC DIRECTIONS FOR USE

To Disinfect Food Processing Premises: Before using this product, food products and packaging materials must be removed from the area or carefully protected. For floors, walls, and storage areas, add 1 ounce of this product per gallon of water. For heavily soiled areas, a pre-cleaning step is required. Apply solution with a cloth, sponge, hand pump trigger sprayer, or low pressure coarse sprayer so as to wet all surfaces thoroughly. Allow to remain wet for 15 minutes, then remove excess liquid. All surfaces that may come in contact with food must be rinsed with potable water.

Restaurant Premises Disinfection: Before using this product, food products and packaging materials must be removed from the area or carefully protected. For countertops, appliances, tables, add 1 ounce of this product per gallon of water. For heavily soiled areas, a pre-cleaning step is required. Apply solution with a cloth, sponge or hand pump trigger sprayer, or low pressure coarse sprayer so as to wet all surfaces thoroughly. Allow the surface to remain wet for 10 minutes, then remove excess liquid and rinse the surface with potable water. This product cannot be used to clean the following food contact surfaces: utensils, glassware and dishes.

Toilet Bowl Disinfection: Prior to disinfection, remove gross filth or soiled surfaces. Brush 1 ounce of this product to the bowl water. Brush or seed the bowl completely using a scrub brush or toilet mop making sure to get under the rim. Let stand for 10 minutes and flush.

Non-Acid Toilet Bowl Disinfection/Cleaner: Remove gross filth prior to disinfection. Add 1 ounce per gallon to the toilet bowl and mix. Brush thoroughly over exposed surfaces and under the rim, allow to stand for 10 minutes and flush.

From use-solution: Empty toilet bowl or urinal and apply 1 ounce per gallon use-solution to exposed surfaces, brush or scrub thoroughly under the rim with a cloth, mop, sponge or sprayer, or allow to stand for 10 minutes and flush.

For heavy duty use: Empty toilet bowl or urinal and apply 4 ounces per gallon use-solution to exposed surfaces, brush or scrub thoroughly under the rim with a cloth, mop, sponge or sprayer, or allow to stand for 10 minutes and flush.

To Control Mold and Mildew on Large, Inflatable, Non-Porous Plastic and Rubber Structures: Add 1 ounce of this product per gallon of water (or equivalent dilution) for a period of 10 minutes. Ventilate buildings and other closed spaces. Do not use equipment until treatment has been absorbed, set or dried.

Vaccinia intermediate resistant Staphylococcus aureus (VISA) Contact Time

- Pour contents of packet into 4 gallons of water (for a 1:128 dilution). Keep packets in box until ready to use. Prolonged immersion may cause damage to stainless steel or metal instruments.

PACKETS - Pour contents of packet into 4 gallons of water (for a 1:128 dilution). Keep packets in box until ready to use.

**KEEP OUT OF REACH OF CHILDREN. CORROSIVE.** Causes irreversible eye damage and skin burns. Do not get in eyes, on skin or on clothing. May be fatal if inhaled. Do not breathe spray mist. Harmful if swallowed or absorbed through skin. Wear goggles or face shield, rubber gloves and protective clothing when handling. Wash thoroughly with soap and water after handling and before eating, drinking, using tobacco or using the toilet. Remove contaminated clothing and wash before reuse.

**STORAGE AND DISPOSAL**

**DO NOT CONTAMINATE WATER, FOOD, OR FEED BY STORAGE OR DISPOSAL.**

**PESTICIDE STORAGE** - Store in a dry place no lower in temperature than 50°F or higher than 120°F. **PESTICIDE DISPOSAL** - Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance. **CONTAINER DISPOSAL** - Nonrefillable container. Do not reuse this container. Triple rinse or equivalent. Triple rinse as follows: Fill container ¼ full with water and recap. Agitate vigorously. Follow Pesticide Disposal instruction for rinsate disposal. Drain for 10 seconds after the flow begins to drip. Repeat procedure two more times. Offer for recycling or reconditioning, if available. If not available, puncture and dispose in a sanitary landfill. **PACKET DISPOSAL** – Do not reuse; discard empty container and put in trash.

DISPOSAL: Do not reuse; discard empty packet by putting in trash.
NOT FOR INDIVIDUAL SALE
This product is for use in:
- Hospitals, nursing homes, medical and dental offices and clinics, operating rooms, isolation wards, and medical research facilities.
- Restaurants and bars, cafeterias, institutional kitchens, fast food operations and food storage areas.
- Institutional facilities, factories, business and office buildings, restaurants, hotels and motels and transportation terminals.
- Institutions, schools and colleges, churches, classrooms, athletic facilities and locker rooms.
- Veterinary clinics, kennels, boarding and grooming establishments, pet animal quarters, zoos, pet shops, and other animal care facilities.
- Automotive garages, boats, ships, campers, trailers, mobile homes, cars, buses, trains, taxis and airplanes.

KILLS HV-1, HCV and HBV on PRE-CLEANED ENVIRONMENTAL SURFACES/OBJECTS PREVIOUSLY SOILED WITH BLOOD/BODY FLUIDS in health care settings (Hospitals, Nursing Homes) or other settings in which there is an expected likelihood of soiling of inanimate surfaces/objects with blood or body fluids, and in which the surfaces/objects likely to be soiled with blood or body fluids can be associated with potential for transmission of Human Immunodeficiency Virus Type 1 (associated with AIDS), Hepatitis C Virus (HCV) and Hepatitis B Virus (HBV).

This product is not a no rinse neutral disinfectant cleaner that disinfects, cleans and deodorizes in one labor saving step.

This product, when used as directed, is formulated to disinfect hard, non-porous, inanimate, environmental surfaces: floors, walls, metal surfaces, stainless steel surfaces, glazed porcelain, glazed ceramic tile, plastic surfaces, vanity tops, shower stalls, bathtubs, and cabinets.

This product is formulated to a neutral pH, yet provides effective cleaning strength that will not dull high gloss floor finishes.

Kills Pandemic 2009 H1N1 Influenza A virus (formerly called swine flu)

This product is a one step neutral disinfectant that is effective against a broad spectrum of bacteria.

This product has demonstrated effectiveness against Influenza A virus and is expected to inactivate all Influenza A viruses including Pandemic 2009 H1N1 Influenza A virus.

Kills Trichophyton mentagrophytes, the cause of ringworm.

MICRO-ORGANISMS

affixed to the container for this product.

This product is not for use on critical and semi-critical medical device surfaces.

DEODORIZATION: To deodorize, apply this product as indicated under the heading DISINFECTION.

TO REMOVE MOLD STAINS AND MILDEW STAINS: This product can be used at full strength or at a use dilution down to 2 ounces per gallon of water (or equivalent dilution). Apply full strength or diluted solution to surface to be cleaned with a cloth, mop, sponge or hand pump trigger sprayer. Thoroughly wet soiled surface completely and scrub as necessary.

DISINFECTION: To disinfect inanimate, hard non-porous surfaces and 1 ounce of this product per gallon of water (or equivalent dilution). Apply solution with a mop, cloth, sponge, hand pump trigger sprayer or low pressure coarse sprayer so as to wet all surfaces thoroughly. Allow to remain wet for 10 minutes, then remove excess liquid. For spray applications, spray 4-6 inches from surface, rub with brush, sponge or cloth. Do not breathe spray mist. For heavily soiled areas, a pre-cleaning step is required. Prepare a fresh use-solution daily or more often if the use-solution becomes visibly contaminated or diluted. All surfaces that come in contact with food must be rinsed with potable water. Do not use on utensils, glasses and dishes.

SPECIAL INSTRUCTIONS FOR CLEANING AND DECONTAMINATION AGAINST HIV-1, HCV and HBV OF SURFACES/OBJECTS SOILED WITH BLOOD/BODY FLUIDS.

PERSONAL PROTECTION: When handling items soiled with blood or body fluids, use disposable latex gloves, gowns, masks, and eye covers.

CLEANING PROCEDURES: Blood and other body fluids must be thoroughly cleaned from surfaces and objects before application of this product.

CONTACT TIME: HIV-1 is inactivated after a thirty second contact time. HBV is inactivated after a three minute contact time. HCV is inactivated after five minute contact time. Use a ten minute contact time for other organisms as stated on the label.

DISPOSAL OF INFECTIOUS MATERIALS: Blood and other body fluids must be autoclaved and disposed of according to local regulations for infectious waste disposal.

SANITIZATION OF NON-FOOD CONTACT SURFACES: To sanitize non-porous environmental surfaces add 1 ounce of this product per gallon of water (or equivalent dilution). Apply solution with a cloth, mop, sponge or hand pump trigger sprayer so as to wet all surfaces thoroughly. Allow to remain wet for 5-10 minutes, then remove excess liquid. For heavily soiled areas, a pre-cleaning step is required. This product cannot be used to clean utensils, glasses and dishes. Prepare a fresh solution for each use.

FUNGICIDE & MILDEWIDE:

Fungicide: At 1 ounce per gallon (equivalent dilution) 400 ppm hard water (calculated as CaCO₃) and 5% organic blood serum, this product will kill Aspergillus niger when applied to hard, non-porous surfaces. Allow surface to remain wet for 10 minutes. For Candida albicans allow surface to remain wet for 5 minutes, then remove excess liquid. Diluted product must be applied daily or more frequently with heavy facility use.

Mildewide: At a 1 ounce per gallon (equivalent dilution) 400 ppm hard water (calculated as CaCO₃) and 5% organic blood serum, this product will kill Aspergillus niger when applied to hard, non-porous surfaces. Allow surface to remain wet for 10 minutes. For Candida albicans allow surface to remain wet for 5 minutes, then remove excess liquid. Diluted product must be applied daily or more frequently with heavy facility use.

PESTICIDE DISPOSAL:

DO NOT CONTAMINATE WATER, FOOD, OR FEED BY STORAGE OR DISPOSAL.

PESTICIDE STORAGE: Store in a dry place no lower in temperature than 50°F or higher than 120°F.

PESTICIDE DISPOSAL: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or residue is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

CONTAINER DISPOSAL: Non-refillable container. Do not reuse this container. Triple rinse or equivalent.

Triple rinse as follows: Fill container 1/4 full with water and recap. Agitate vigorously. Follow Pesticide Disposal Instruction for residue disposal. Drain for 10 seconds after the flow begins to drip. Repeat procedure two more times. Offer for recycling or reconditioning, if available. If not available, puncture and dispose in a sanitary landfill.

PACKET DISPOSAL: Do not reuse; discard empty container and put in trash.

SITE AND APPLICATION SPECIFIC DIRECTIONS FOR USE

To Disinfect Food Processing Premises: Before using this product, food products and packaging materials must be removed from the area or carefully protected. For floors, walls, and storage areas, add 1 ounce of this product per gallon of water. For heavily soiled areas, a pre-cleaning step is required. Apply solution with a cloth, sponge or hand pump trigger sprayer so as to wet all surfaces thoroughly. Allow the surface to remain wet for 10 minutes, then remove excess liquid. All surfaces that may come in contact with food must be rinsed with potable water.

Restaurant Premises Disinfection: Before using this product, food products and packaging materials must be removed from the area or carefully protected. For countertops, appliances, tables, add 1 ounce of this product per gallon of water. For heavily soiled areas, a pre-cleaning step is required. Apply solution with a cloth, sponge or hand pump trigger sprayer so as to wet all surfaces thoroughly. Allow the surface to remain wet for 10 minutes, then remove excess liquid and rinse the surface with potable water. This product cannot be used to clean the following contact surfaces: utensils, glassware and dishes.

Toilet Bowl Disinfection: Prior to disinfection, remove gross filth or soils from surfaces with bowl brush. Add 1 ounce of this product to the bowl water. Brush or swab the bowl completely using a scrub brush or toilet mop making sure to get under the rim. Let stand for 10 minutes and flush.

From concentrate: Add 1 ounce per gallon to the toilet bowl and mix. Brush thoroughly over exposed surfaces and under the rim, allow to stand for 10 minutes and flush.

From use-solution: Empty toilet bowl or urinal and apply 1 ounce per gallon use-solution to exposed surfaces, brush or swab thoroughly under the rim with a cloth, mop, sponge or sprayer, allow to stand for 10 minutes and flush.

For heavy duty use: Empty toilet bowl or urinal and apply 4 ounces per gallon use-solution to exposed surfaces, brush or swab thoroughly under the rim with a cloth, mop, sponge or sprayer, allow to stand for 10 minutes and flush.

To Control Mold and Mildew on Large, Inflatable, Non-Porous Plastic and Rubber Structure obstacles obstacle course play equipment, exercise equipment, and wrestling mats: Thoroughly clean all surfaces with soap or detergent and rinse with water. Saturate surfaces with a use-solution of 4 ounces of this product per 4 gallons of water (or equivalent dilution) for a period of 10 minutes. Ventilate buildings and other closed spaces. Do not use equipment until treatment has been absorbed, set or dried.

Veterinary Practice/Animal Care/Zoos/Pet Shop/Kennels Disinfection: For cleaning and disinfecting the following hard non-porous surfaces: equipment not used for animal food or water, utensils, instruments, cages, kennels, stables, catteries, etc. Remove all animals and feed from premises, animal transportation vehicles, crates, etc. Remove all litter, droppings and manure from floors, walls and surfaces occupied or traversed by animals. Thoroughly clean all surfaces with soap or detergent and rinse with water. Saturate surfaces with a use-solution of 1 ounce of this product per gallon of water (or equivalent dilution) for a period of 10 minutes. Ventilate buildings and other closed spaces. Do not house animals or employ equipment until treatment has been absorbed, set or dried.

Disinfection of Barber/Salon Tools: Immense pre-cleaned barber/salon tools in a use-solution (or equivalent dilution) of 1 ounce of this product per gallon of water for 10 minutes. Rinse instruments thoroughly and dry before reuse. An after-use solution must be prepared daily or more often if the use-solution becomes contaminated. NOTE: Plastics may remain immersed until ready to use. Stainless steel shears and instruments must be removed from the use-solution after 10 minutes, rinsed, dried and kept in a clean, non-contaminated receptacle. Prolonged immersion may cause damage to stainless steel or metal instruments.

DILUTION SYSTEM SPECIFIC DIRECTIONS FOR USE

PACKETS - Pour contents of packet into 5 gallons of water (for a 1:128 dilution). Keep packets in box until ready to use.

24-Hour Emergency Response: 1-800-535-5053
Sold by PortionPac Chemical Corp., 312-226-0400
400 N. Ashland Ave., Chicago, IL 60622

FIRST AID: Have the product container or label with you when calling a poison control center or doctor, or going for treatment. If in Eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. If on Skin or Clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call poison control center or doctor for treatment advice. If Swallowed: Call poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person. If Inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice. NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage.

**Germicidal Cleaner**

**Order No:** 264N - CP264 - SFS20N

**Active Ingredients**
- Diethyl dimethyl ammonium chloride: 6.288%
- n-Alkyl (60% C14, 40% C12, 10% C16) dimethyl benzyl ammonium chloride: 4.192%

**Inert Ingredients**
- Phosphorous free

**Use in Health Care Settings**
- Hospitals, nursing homes, medical and dental offices and clinics, operating rooms, isolation wards, and medical research facilities.
- Restaurants and bars, cafeterias, institutional kitchens, fast food operations and food storage areas.
- Institutional facilities, factories, business and office buildings, restrooms, hotels and motels and transportation terminals.
- Institutions, schools and colleges, churches, classrooms, athletic facilities and locker rooms.
- Veterinary clinics, kennels, breeding and grooming establishments, pet animal quarters, zoos, pet shops, and other animal care facilities.
- Automotive garages, boats, ships, campers, trailers, mobile homes, cars, buses, trains, taxis and airplanes.

**First Aid**

**If in Eyes:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call poison control center or doctor for treatment advice.

Before using this product, food products and packaging materials must be removed from the area or carefully protected. For countertops, appliances, tables, add 1 ounce of this product per gallon of water. For heavily soiled areas, a pre-cleaning step is required. Apply solution with a mop, cloth, sponge, hand pump trigger sprayer or low pressure coarse sprayer so as to wet all surfaces thoroughly. Allow to remain wet for 10 minutes, then remove excess liquid. For heavily soiled areas, spray 6-8 inches from surface, rub with brush, sponge or cloth. Do not breathe spray mist. For heavily soiled areas, a pre-cleaning step is required. Prepare a fresh use-solution daily or more often if the use-solution becomes visibly contaminated or diluted. All surfaces that come in contact with food must be rinsed with potable water. Do not use on utensils, glasses and dishes.

SITE AND APPLICATION SPECIFIC DIRECTIONS FOR USE

To disinfect Food Processing Premises: Before using this product, food products and packaging materials must be removed from the area or carefully protected. For floors, walls, and storage areas, add 1 ounce of this product per gallon of water. For heavily soiled areas, a pre-cleaning step is required. Apply solution with a cloth, sponge or hand pump trigger sprayer so as to wet all surfaces thoroughly. Allow the surface to remain wet for 10 minutes, then remove excess liquid. All surfaces that may come in contact with food must be rinsed with potable water.

To disinfect inanimate, hard non-porous surfaces add 1 ounce of this product per gallon of water (equivalent dilution). Apply solution with a mop, cloth, sponge or hand pump trigger sprayer so as to wet all surfaces thoroughly. Allow to remain wet for 10 minutes, then remove excess liquid. For heavily soiled areas, a pre-cleaning step is required. This product cannot be used to clean utensils, glasses and dishes. Prepare a fresh solution for each use.

To sanitize non-porous environmental surfaces add 1 ounce of this product per gallon of water (equivalent dilution). Apply solution with a cloth, mop, sponge or hand pump trigger sprayer so as to wet all surfaces thoroughly. Allow to remain wet for 10 minutes and let air dry. Repeat when mildew growth returns.

فايل: الوسائط المدمجة التي تحدث في التحليلات مثبتة بشكل إلزامي. إذا تم استخدام هذه الوسائط بطرق غير ملائمة، قد يشير ذلك إلى استخدام هذه المنتجات بطريقة غير قانونية. 

SANITIZATION - NONFOOD

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Labeling must be in the possession of the user at the time of use of the product. More container label for FIRST USE (5/2009) and STATEMENTS and contain DIRECTIONS for USE before applying. Use of this product is subject to the precautions and limitations imposed by the label.

SANITIZATION OF NON-FOOD CONTACT SURFACES:

To sanitize non-porous surfaces, add 1 ounce of this product per gallon of water (equivalent dilution). Apply solution with a cloth, mop, sponge or hand pump trigger sprayer so as to wet all surfaces thoroughly. Allow to remain wet for 10 minutes and let air dry. Repeat when mildew growth appears.

STORAGE AND DISPOSAL

DO NOT CONTAMINATE WATER, FOOD, OR FEED BY STORAGE OR DISPOSAL

PESTICIDE STORAGE - Store in a dry place no lower in temperature than 50°F or higher than 120°F.

PESTICIDE DISPOSAL - Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or residue is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

CONTAINER DISPOSAL - Nonrefillable container. Do not reuse this container. Triple rinse or equivalent.

PACKET DISPOSAL - Do not reuse, discard empty container and put in trash.

DILUTION SYSTEM SPECIFIC DIRECTIONS FOR USE

PACKETS - Pour contents of packet into 7 gallons of water (for a 1:128 dilution). Keep packets in box until ready to use.
KEEP OUT OF REACH OF CHILDREN
DANGER

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS.
DANGER
KEEP OUT OF REACH OF CHILDREN. CORROSIVE. Causes irreversible eye damage and skin burns. Do not get in eyes, on skin or on clothing. May be fatal if inhaled. Do not breathe spray mist. Harmful if swallowed or absorbed through skin. Wear goggles or face shield, rubber gloves and protective clothing when handling. Wash thoroughly with soap and water after handling and before eating, drinking, using tobacco or using the toilet. Remove contaminated clothing and wash before reuse.

STORAGE AND DISPOSAL
DO NOT CONTAMINATE WATER, FOOD, OR FEED BY STORAGE OR DISPOSAL.
PESTICIDE STORAGE - Store in a dry place no lower in temperature than 50°F or higher than 120°F. PESTICIDE DISPOSAL - Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance. CONTAINER DISPOSAL - Nonrefillable container. Do not reuse this container. Triple rinse or equivalent. Triple rinse as follows: Fill container ¼ full with water and recap. Agitate vigorously. Follow Pesticide Disposal instruction for rinsate disposal. Drain for 10 seconds after the flow begins to drip. Repeat procedure two more times. Offer for recycling or reconditioning, if available. If not available, puncture and dispose in a sanitary landfill. PACKET DISPOSAL – Do not reuse; discard empty container and put in trash.

See booklet for additional information and Directions for Use

24-Hour Emergency Response: 1-800-535-5053
Sold by PortionPac Chemical Corp., 312-226-0400
400 N. Ashland Ave., Chicago, IL 60622

FIRST AID: Have the product container or label with you when calling a poison control center or doctor, or going for treatment. If in Eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. If on Skin or Clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call poison control center or doctor for treatment advice. If Swallowed: Call poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person. If Inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice. NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage.
