FIRST AID

IF IN EYES: • Hold eye open and rinse slowly and gently with water for 15-20 minutes • Remove contact lenses, if present, after 5 minutes, then continue rinsing eye • Call a poison control center or doctor for further treatment advice.

IF ON SKIN OR CLOTHING: • Take off contaminated clothing • Rinse skin immediately with plenty of water for 15-20 minutes • Call a poison control center or doctor for further treatment advice.

IF SWALLOWED: • Call a Poison Control Center or doctor immediately for treatment advice • Have person sip a glass of water if able to swallow • Do not induce vomiting unless told to do so by the poison control center or doctor • Do not give anything by mouth to an unconscious person.

NOTE TO PHYSICIAN: • Probable mucosal damage may contraindicate the use of gastric lavage.

Have the product container or label with you when calling a Poison Control Center or doctor, or going for treatment. For 24-hour emergency information on this product, call 866-673-6350.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER. Powder is corrosive. Causes irreversible eye damage or skin burns. Harmful if swallowed or absorbed through the skin. Do not get in eyes, on skin or on clothing. Wear goggles (or face shield). Wear protective clothing (long sleeve shirt and long pants, socks plus shoes and chemical resistant gloves such as water proof gloves). Wash hands before eating, drinking, chewing gum, using tobacco or using the toilet. Remove contaminated clothing and wash clothing before reuse. Corrosive statement refers to powder only not in use-diluted solution.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage and disposal.

PESTICIDE STORAGE: For pails, jugs, bottles: Store in a cool dry place in tightly closed container. Keep out of reach of children. Always replace lid after use. Retain desiccant canister with this product during storage. Do not mix this product with other chemicals.

PESTICIDE DISPOSAL: Pesticide wastes may be hazardous – refer to product leaflet for pesticide disposal instructions.

CONTAINER DISPOSAL: Nonrefillable container. Do not reuse or refill this container – refer to product leaflet for container disposal instructions.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

For a 1% solution add one tablet to a pint of water (16 fluid ounces). See leaflet for additional Directions for Use.

KEEP OUT OF REACH OF CHILDREN

DANGER/ PELIGRO

See back panel and leaflet for additional precautions.

Environmental Hazards
Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

Storage and Disposal
Do not contaminate water, food, or feed by storage and disposal.

Pesticide Storage:
For pails, jugs, bottles: Store in a cool dry place in tightly closed container. Keep out of reach of children. Always replace lid after use. Retain dessicant canister with product during storage. Do not mix this product with other chemicals.

Pesticide Disposal:
Pesticide wastes may be hazardous. Improper disposal of excess pesticide, spray mixture, or rinseate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact Your State Pesticide or Environmental Control Agency, or the Hazardous Waste Representative at the nearest EPA Regional Office for guidance.

 Container Disposal: Nonrefillable container. Do not reuse or refill this container.

Triple rinse container (or equivalent) promptly after emptying. Triple rinse as follows: Empty the remaining contents into application equipment. Fill the container ¼ full with water and recap. Shake for 10 seconds. Pour rinseate into application equipment or store rinseate for later use or disposal. Drain for 10 seconds after the flow begins to drip. Repeat this procedure two more times. Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.

Precautionary Statements
Hazards to Humans and Domestic Animals
DANGER. Powder is Corrosive. Causes irreversible eye damage or skin burns. Harmful if swallowed or absorbed through the skin. Do not get in eyes, on skin or on clothing. Wear goggles (or face shield). Wear protective clothing (long sleeve shirt and long pants, socks plus shoes and chemical resistant gloves such as water proof gloves). Wash hands before eating, drinking, chewing gum, using tobacco or using the toilet. Remove contaminated clothing and wash clothing before reuse. Corrosive statement refers to powder only not in-use solution.

BROAD SPECTRUM DISINFECTANT

Trifectan™ Broad Spectrum Disinfectant is effective against numerous microorganisms affecting animals: viruses*, gram positive and gram negative bacteria, fungi (molds and yeasts – not approved for this use in California), and mycoplasma. Efficacy of the 1% solution against bacteria and viruses was determined in the presence of 400 ppm [200 ppm in California] AOAC hard water and 5% organic material in most cases. The exceptions are noted with qualifiers, e.g., “no hard water,” “no soil load,” and “use 2% solution.”

This product has demonstrated effectiveness against influenza A virus and is expected to inactivate all influenza A viruses including Pandemic 2009 H1N1 influenza A virus.

DIRECTIONS OF USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

TRIFECTAN™ BROAD SPECTRUM DISINFECTANT DILUTION CHART

To achieve the appropriate use-diluted trifectan™ Broad Spectrum Disinfectant concentration, fill container with the volume of water and quantity of tablet(s) found in the following table. For a 1% solution, add one (1) tablet to one pint of water.

<table>
<thead>
<tr>
<th>TABLET:</th>
<th>QUANTITY OF WATER</th>
<th>0.5% SOLUTION ††</th>
<th>1% SOLUTION</th>
<th>2% SOLUTION</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>1 pint</td>
<td>1 Tablet</td>
<td>2 Tablets</td>
<td></td>
</tr>
<tr>
<td></td>
<td>1 quart</td>
<td>2 Tablets</td>
<td>4 Tablets</td>
<td></td>
</tr>
<tr>
<td></td>
<td>1 gallon</td>
<td>4 Tablets</td>
<td>8 Tablets</td>
<td>16 Tablets</td>
</tr>
</tbody>
</table>

†† The 0.5% solution is currently not approved for use in California.

Effective dilution chart for use in California is: For a 1% solution, add one (1) tablet to one quart of water.

Solutions are stable for 7 days. Do not soak metal objects in trifectan™ Broad Spectrum Disinfectant for long periods – 10 minutes is the maximum necessary contact time. One gallon of solution is sufficient to treat 135 square feet.

EQUINE PRODUCTION

BROAD SPECTRUM EQUINE DISINFECTANT/DETERGENT/WASH FOR CLEANING AND DISINFECTING STABLES AND EQUIPMENT

CONTROLS: Viruses of Equine herpes virus Type 1 and Type 3 and Equine Influenza. Bacteria of: Brucella abortus, Clostridium perfringens, Dermatophilus congolensis (at 2%), Pseudomonas aeruginosa, Salmonella typhimurium and Staphylococcus aureus. Fungi of Trichophyton mentagrophytes (at 2%).

Not approved in California for use against the following organisms:
- African Horse Sickness
- Equine Viral Arteritis (Pink Eye)
- Coital Exantherma
- Bovine respiratory tract disease
- Fistulous withers (Poll Evil)
- Fistulous withers (Poll Evil)
-LOOD CALLS
