BROMINATING TABLETS

Sanitizer provides continuous protection against bacteria.
For Pools, Spas and Hot Tubs.
1” Tablets for Use in Brominators and Floating Feeders.

ACTIVE INGREDIENT:
Bromochloro-5, 5-Dimethylhydantoin: ............... 98%
OTHER INGREDIENTS: .......................... 2%
TOTAL: ........................................... 100%
Provides 64.9% available bromine, 29% available chlorine

KEEP OUT OF REACH OF CHILDREN
DANGER
Corrosive and strong oxidizer. See additional precautions on back panel.

FIRST AID
Have the product container or label with you when calling a poison control center or doctor, or going for treatment. For emergency information call CHEMTREC at 1-800-424-9300. IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person. IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice.

Note to Physician: Probable mucosal damage may contraindicate the use of gastric lavage.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS:

DANGER: Corrosive. Causes irreversible eye damage and skin burns. Eye contact may cause loss of vision. Irritating to nose and throat. May be fatal if inhaled. Harmful if absorbed through skin or swallowed. Keep container tightly closed when not in use. Use with adequate ventilation. Do not eat, drink, or chew on the packaging. Do not breathe dust or spray mist. Do not get in eyes, on skin, or on clothing. Prolonged or frequent contact may cause allergic reactions in some individuals. Wear goggles with side-shields, face shield or safety glasses; protective clothing and rubber gloves. Wear a mask or pesticide respirator jointly approved by Mine Safety and Health Administration and the National Institute for Occupational Safety and Health. Wash thoroughly with soap and water after handling, and before eating, drinking, chewing gum, using tobacco, or using the toilet. Remove contaminated clothing and wash before reuse.

ENVIRONMENTAL HAZARDS: This product is toxic to fish and aquatic organisms. Do not contaminate water by cleaning of equipment or disposal of wastes. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or other public waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of the EPA.

PHYSICAL OR CHEMICAL HAZARDS: Strong oxidizer, mix with water only. Reaction with combustible organic materials, bases, moisture or with oxidizers may generate heat, hazardous gases and, possible fire or explosion. Do not add to dispensers or other equipment that is not dry and clean of any chemical residues. Does not burn, but will decompose from about 320°F (160°C) releasing toxic gases. Do not break or crush tablets and avoid exposure to dust.

Special Precautions, please read before opening container.
Misuse may result in serious personal injury requiring hospitalization. Related complications may lead to death.

Prevention of Physical Injury: This product emits a powerful bromine gas. Open container outdoors, or if opening indoors, open in a well ventilated area, away from other chemicals. Hold away from face when opening to avoid breathing fumes. Mixing with other chemicals may cause a violent and instantaneous chemical reaction. Do not add this product to water in a pail. Do not add water to this product in a pail. Follow label instructions exactly. Do not experiment.

Prevention of Property Damage: When undissolved, contact between this product and vinyl liners, painted surfaces or other property in or around the hot pool or spa will result in permanent bleaching of the color.

DIRECTIONS FOR USE:

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Use of this product will help to keep your pool, spa or hot tub sparkling clean and inviting. This product is an effective pool, spa or hot tub water sanitizer. This product is effective in a wide pH range and is low in odor. This product is best used in a spa with a floating bromine feeder.

Sanitizer for Swimming Pools: When using other products in conjunction with this product, follow the instructions on those products. NEVER mix different products together in the same bottle, pail, or similar container. Adjust pH of pool water to the range of 7.2-7.6. When initially feeding this product into the pool establish a bromine residual of 2-4 ppm. If a bromine feeder or brominator is being used to establish bromine residual, start by increasing the brominator to the highest setting or feed rate, according to the manufacturer’s instructions. Once there is a residual of 2-4 ppm of bromine reduce the setting of the brominator to deliver a consistent level of bromine to the water. To maintain bromine residual adjust the brominator setting to deliver a consistent feed of bromine to the water. Test water frequently using testing strips or a test kit to ensure proper sanitizer levels. Do not re-enter swimming pool until bromine residual is 4 ppm or less as determined by a bromine test kit.

Sanitizer for Spas and Hot Tub: When using other products in conjunction with this product, follow the instructions on those products. NEVER mix different products together in the same bottle, pail, or similar container. Adjust pH of spa water to the range of 7.2-7.6. If spa is freshly filled and before initially using this product in your spa or hot tub add sodium bromide, according to label instructions. Fill bromine feeder and adjust the dispensing levels, according to the manufacturer’s instructions, to introduce a bromine residual of 2-4 ppm. Check feeder regularly and ensure that this product is continuously introducing bromine into the water. When empty or when levels are low, add additional product as necessary to maintain bromine residual. To ensure sparkling clean water and that your spa chemicals work effectively, water in spas should be emptied and refilled with fresh water every 60-90 days. Commercial spas should have the water changed every 3 to 5 days. Do not re-enter spa or hot tub until bromine residual is 4 ppm or less as determined by a bromine test kit.

Pool/Spa Gallon Calculator (all dimensions in feet)

Square or Rectangular: Length x Width x Average depth x 7.5 = Gallons
Round or Oval: Length x Width x Average depth x 5.9 = Gallons
Each Tablet weighs 0.70 oz. (19.8 grams)

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage and disposal.

Pesticide Storage: Keep this product dry in the tightly closed, original container when not in use. Store in dark, cool [below 86°F(30°C)], dry, well-ventilated area. Keep product away from energy sources, combustible organic materials, oxidizers, strong bases, and moisture.

Pesticide Disposal: Pesticide wastes may be hazardous. Improper disposal of excess pesticide, spray mixture, or rinseate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste Representative at the nearest EPA Regional Office for guidance.

Container Disposal: Nonrefillable container. Do not reuse or refill this container. Offer for recycling, if available. Triple rinse (or equivalent) promptly after emptying.

Spills: When handling or dealing with spills, use impact-resistant goggles with side shields, or face shield, body-covering clothes, including impervious rubber or plastic gloves and boots; use a dust respirator if dusting occurs. Sweep up dry spills and dispose of as described for pesticide disposal. If drum contents are contaminated or decomposing, do not reseal container; isolate unsealed drum in the open or in a well ventilated area; flood with large volumes of water if necessary.

In Case of Fire: Do not use ammonium phosphate extinguisher near water and this product. Hazardous reactions may occur.
