This product kills the following organisms in 1 minute on pre-cleaned, hard, non-porous surfaces at room temperature:

- **Methicillin-Resistant Staphylococcus aureus (MRSA)**
- **Extended-Spectrum β-lactamase (ESBL)**
- **Staphylococcus aureus**
- **Enterobacter aerogenes**
- **Staphylococcus aureus**
- **Rosenbach**
- **Enterobacter cloacae**
- **Vancomycin-Resistant Enterococcus faecalis (VRE)**
- **Carbapenem Resistant Escherichia coli**
- **Vancomycin Intermediate Staphylococcus aureus (VISA)**
- **Hepatitis B Virus*‡ (HBV)**
- **Methicillin Resistant Staphylococcus epidermidis (MRSE)**
- **Hepatitis C Virus*‡ (HCV)**
- **Enterococcus faecium**
- **Herpes Simplex Virus Type 2**
- **Acinetobacter baumannii**
- **Herpes Simplex Virus Type 1**
- **Pseudomonas aeruginosa**
- **Carbapenum Resistant Klebsiella pneumoniae**
- **Acinetobacter baumannii**
- **Hepatitis B Virus**
- **Klebsiella pneumoniae**
- **Hepatitis C Virus**
- **Bordetella pertussis**
- **Multi-Drug Resistant (MDR) Acinetobacter baumannii**
- **Herpes Simplex Virus Type 1**
- **Klebsiella pneumoniae**
- **Human Coronavirus**
- **Rotavirus**
- **Bordetella pertussis**
- **Acinetobacter baumannii**
- **Trichophyton interdigitale**
- **Pseudomonas aeruginosa**
- **Pseudomonas aeruginosa ATCC BAA-2108**
- **ATCC BAA-2108**
- **Pseudomonas aeruginosa**
- **Enterococci enterococci**
- **Catelya Bacteriemia Lactobacillus aerogenes**
- **Staphylococcus pneumoniae**
- **Enterococcus pneumoniae**
- **Achromobacter pseudotuberculosis**
- **Acinetobacter spp.**

*‡ This symbol indicates a 30 second contact time is required to kill this organism.

This product kills the following organism in 2 minutes on pre-cleaned, hard, non-porous surfaces at room temperature:

- **Mycobacterium bovis**

For Use On:

This product can be used on the following hard, non-porous surfaces of the following items: acrylic, metals (aluminum, brass, copper, stainless steel, chrome), sealed granite, glass, plastics (polycarbonate, polypropylene, polyethylene and polyvinyl chloride (PVC)), hard, non-porous rubber, Plexiglas®, vinyl as well as coated, laminated and painted surfaces, ambulance equipment/surfaces and patient care surfaces, anesthesia machines, bed railings, bedside tables, blood bank units, child care facilities, clean rooms, critical areas, dialysis centers, drug dispensing departments, child care facilities, dialysis centers, clean rooms, clinical areas, dialysis centers, drug dispensing departments, EMS units, exam rooms, I.U. labs, infant care units, isolation rooms, laboratories, manual units, operating rooms/hospital, ophthalmic units, patient care areas, pediatric units, personal care service facilities, pharmacies, physical therapy facilities, plasma pheresis facilities, primary care facilities, sick rooms, and areas/facilities concerned with the hazards of cross-contamination from infectious microorganisms.

Net Contents: 65 Wipes 9 x 12 inches / Net Weight: 1 lb 15.1 oz. (882 g)

ORDER NO.: M60038
DIRECTIONS FOR USE

Infectious Materials Disposal: Cleaning materials used that may contain blood/body fluids must be autoclaved and/or disposed of in accordance with local regulations for infectious materials disposal.

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Avoidable statements
Do not use this product as a baby wipe or on contact lenses. Do not use on clothes, glasses or utensils. Rinse all surfaces which may come in contact with food with clean potable water after using this product. Not recommended for polished wood, or bare wood. Unplug small electrical appliances before cleaning or disinfecting with this product.

Dispensing Directions:
To start feed, remove outer cover and discard wipe. From the center of the wipe roll, pull up a wipe corner, twist it into a point and thread it through the hole located on the container cover. Pull through about one inch. Repeat for each wipe and toss off at an angle. Remaining wipes fed automatically, ready for the next use. When not in use, keep cap closed to prevent evaporation.

Cleaning, Pre-cleaning and Disinfecting
Use a fresh wipe to clean surfaces. Repeat as necessary until surfaces are visibly clean. Allow the surface to remain thoroughly wet for 30 seconds. Wipe off or allow to air dry.

This product can also be used to pre-clean all surfaces to be disinfected.

Disinfection of Pre-Cleaned Non-Critical Medical Devices, Instruments and Implements
Use a fresh wipe to thoroughly wet pre-cleaned hard, non-porous surfaces. Surfaces to remain visibly wet for 1 minute at room temperature (95°F). Rinse and reuse instruments. Wipe dry prior to use.

When critical medical devices are items that come in contact only with intact skin. Note: When used on critical and semi-critical medical devices, this product can only be used for pre-cleaning. Critical and semi-critical devices must be followed by appropriate terminal sterilization/high-level disinfection process.

Vehicle Disinfection
Use a fresh wipe to thoroughly wet pre-cleaned hard, non-porous surfaces. Surfaces to remain visibly wet for 1 minute. Wipe off or allow to air dry.

To Disinfect Hard, Non-porous Surfaces/Articles
Use a fresh wipe to thoroughly wet pre-cleaned hard, non-porous surfaces. Surfaces to remain visibly wet for 1 minute. Wipe off or allow to air dry.

Note: Disinfected surfaces on which a patient may come in contact with food must be rinsed with potable water after cleaning and/or disinfection and before reuse.

This symbol indicates a 2 minute contact time is required to kill TB.

HBV, HCV and HIV-1 Precautions: This product kills HBV, HCV and HIV-1 on pre-cleaned environmental surfaces/biofilms previously soiled with blood/body fluids in healthcare or other settings in which there is an expected likelihood of soiling of contaminated surfaces/biofilms with blood/body fluids, and in which the surfaces/biofilms can be associated with the potential for transmission of HBV, HCV and/or the human immunodeficiency virus (Type 1 HIV-1) associated with AIDS. Special instructions for cleaning against HBV, HCV and HIV-1 of surfaces/biofilms soiled with blood/body fluids. Personal Protection: Specific barrier protection items to be used when handling items soiled with blood and body fluids are disposable gloves, gowns, masks and eye coverings. Cleaning Procedure: Blood and other body fluids must be thoroughly cleaned from surfaces/objects before disinfection. Contact Time: Allow hard, non-porous surfaces to remain wet for 30 seconds to kill HBV, HCV, and HIV-1 prior to wiping or allowing surfaces to air dry.

STORAGE AND DISPOSAL

Pesticide Storage: Store in original container in a cool, well ventilated, locked storage area. Tightly close lid between uses to retain moisture.

Pesticide Disposal: Dispose of wipe in trash after use. Do not flush.

Container Handling: Non-refillable container. Do not reuse or refill this container. Use with care and put in trash or offer for recycling if available.

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals
CAUTION: Harmful if swallowed, inhaled, or absorbed through skin. Causes moderate eye irritation. Avoid breathing vapors and contact with eyes, skin or clothing. Wear appropriate personal protective equipment based on safe work practices. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove and wash contaminated clothing before reuse.

First Aid
If Inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. If on Skin: Take off contaminated clothing. Immediately rinse skin with plenty of water for 15-20 minutes.

If in Eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. If Swallowed: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to by a poison control center or doctor.

If Spilled: Wash area with soap and water until free of residue. Do not dispose of in sewers or bodies of water. Call a poison control center or doctor for treatment advice. Have the product container or label with you when calling a poison control center or doctor. You may also contact 1-800-535-5053 for emergency medical treatment information.

Physical or Chemical Hazards

Combustible. Do not use in same room as open flame.

This product kills the following organisms in 1 minute on pre-cleaned, hard, non-porous surfaces at room temperature:

- Methicillin-Resistant Staphylococcus aureus (MRSA)
- Extended-Spectrum β-lactamase Escherichia coli (ESBL)
- Staphylococcus aureus
- Enterobacter aerogenes
- Vancomycin-Resistant Enterococcus faecalis (VRE)
- Acinetobacter baumannii
- Enterococcus faecium
- Carbapenem Resistant Escherichia coli
- Pseudomonas aeruginosa
- Carbapenem Resistant Klebsiella pneumoniae
- Bacteroides pertussis

‡ This symbol indicates a 30 second contact time is required to kill this organism.

This product kills the following organism in 2 minutes on pre-cleaned, hard, non-porous surfaces at room temperature:

- Mycobacterium bovis BCG tuberculosis (TB)

For Use On

This product can be used on the following hard, non-porous surfaces of the following items: acrylic, metals (aluminum, brass, copper, stainless steel), channel, sealed granite, glass, plastics (polycarbonate, polypropylene, polyvinylchloride), hard, non-porous rubber, Phenol® and all coated, laminated and painted surfaces, ambulance equipment/surfaces and patient care surfaces, anesthesia machines, bed rails, bedside tables, bariatric bed equipment, bariatric room fixtures, blood bank equipment surfaces, blood pressure devices, cardiac monitors, chest pumps, syringe pumps (vial, plastic, nylon, polyethylene coated stainless), computer keyboards, computer screens, drug preparation equipment, empty medical tanks, ER stretchers, exam room equipment, filtered, glassware, gowns, lab coats, hydrotherapy units (magnetic), infant bassinets, incubators, patient warmers, IV stands, laboratory equipment, mattresses, medical oxygen tanks, medical equipment, monitors, operating room equipment, ophthalmology units, patient care areas, pediatric units, personal care service facilities, pharmacies, physical therapy facilities, plasma pheresis facilities, primary care facilities, sick rooms, and areas/facilities concerned with the hazards of cross-contamination from infectious microorganisms.

See side panels for First Aid and additional Precautionary Statements.

ACTIVE INGREDIENTS:
- n-Alkyl (60% C14, 30% C16, 5% C12, 5% C18) dimethyl benzyl ammonium chloride
- n-Alkyl (68% C12, 32% C14) dimethyl ethylbenzyl ammonium chloride
- Ethanol
- Isopropanol

OTHER INGREDIENTS

TOTAL: 100.000%

Net Contents: 160 Wipes 6 x 6.75 inches / Net Weight: 1 lb 9.8 oz. (730.39 g)
ORDER NO.: M60034
DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Advisory Statements
Do not use this product as a baby or skin wipe, or on contact lenses. Do not use on dishes, glasses or utensils. Rinse all surfaces which may come in contact with food with clean, potable water after using this product. Not recommended for polished wood, or bare wood. Unplug small electrical appliances before cleaning or disinfecting with the product.

Dispensing Directions:
To start feed, remove cover and discard seal. From the center of the wipe roll, pull up a wipe corner, twist it into a point and thread it through the hole located on the container cover. Pull through about one inch. Replace cover. Pull out first wipe and tear off at an angle. Remaining wipes feed automatically, ready for the next use. When not in use, keep center cap closed to prevent evaporation.

Cleaning, Pre-cleaning and Deodorizing:
Use a fresh wipe to clean surfaces. Repeat as necessary until surfaces are visibly clean. Allow the surface to remain wet for 30 seconds. Wipe off or allow to air dry. This product can also be used to clean or disinfect surfaces that are not food contact surfaces.

Disinfection of Pre-Cleaned Non-Critical Medical Devices, Instruments and Implements
Use a fresh wipe to thoroughly wet pre-cleaned hard, non-porous surfaces. Allow surfaces to remain visibly wet for 1 minute at room temperature (68°F/20°C). Remove and rinse instruments. Wipe dry prior to use.

When critical medical devices are items that come in contact only with intact skin. Note: When used on critical and semi-critical medical devices, this product can only be used for pre-cleaning. Critical and semi-critical devices must be followed by appropriate terminal sterilization/high-level disinfection process.

Vehicle Disinfection
Use a fresh wipe to thoroughly wet pre-cleaned hard, non-porous surfaces. Allow surfaces to remain wet for 1 minute. Allow surfaces to air dry.

To Disinfect Hard, Non-porous Surfaces/Articles
Use a fresh wipe to thoroughly wet pre-cleaned hard, non-porous surfaces. Allow surfaces to remain wet for 1 minute. Allow surfaces to air dry.

Note: Disinfected surfaces which may come in contact with food must be rinsed with potable water after cleaning or disinfecting and before reuse.

*This symbol indicates a 2 minute contact time is required to kill TB.

**HBV, HCV and HIV-1 Precautions: This product kills HBV, HCV and HIV-1 on pre-cleaned environmental surfaces/objects previously soiled with blood/body fluids in health care or other settings in which there is an expected likelihood of soiling of inanimate surfaces/objects with blood/body fluids, and in which the surfaces/objects can be associated with the potential for transmission of HBV, HCV and/or the human immunodeficiency virus (HIV-1) and/or HIV-1 associated with AIDS. Special instructions for cleaning against HIV, HCV and/or HIV-1 on surfaces/objects soiled with blood/body fluids: Personal Protection: Specific barrier protection items to be used when handling items soiled with blood/body fluids: Nitrile gloves, plastic bags, masks, goggles and eye covers. Cleaning Procedure: Cotton and other body fluids must be thoroughly cleaned from gory products before disinfecting. Contact Time: Allow hard, non-porous surfaces to remain wet for 30 seconds to kill HBV, HCV and HIV-1 to prevent wiping or allow surfaces to air dry.

Infectious Materials Disposal: Cleaning materials used that may contain blood/body fluids must be autodisinfected and/or disposed of in accordance with local regulations for infectious materials disposal.

This product is not to be used as a terminal sterilant/high level disinfectant on any surface or instrument that (1) is introduced directly into the human body, either into or in contact with the bloodstream or normally sterile areas of the body, or (2) contacts intact mucous membranes but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body. This product may be used to prepare critical or some semi-critical medical devices prior to sterilization or high level disinfection.

STORAGE AND DISPOSAL
Store in original container in a cool, well ventilated, locked storage area. Tightly close lid between uses to prevent contamination of product.

Dispose of wipe in trash after use. Do not flush. Container Handling: Non-refillable. Container must be stored in dry area.

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals
CAUTION: Harmful if swallowed, inhaled, or absorbed through skin. Causes moderate eye irritation. Avoid breathing vapors and contact with eyes, skin or clothing. Wear appropriate personal protective equipment based on safe work practices. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove and wash contaminated clothing before reuse.

First Aid
If Inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. If Skin: Take off contaminated clothing immediately and wash skin with plenty of water for 15-20 minutes. Remove contact lenses, if present, after the first 3 minutes, then continue rinsing eye. If Swallowed: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

Call a poison control center or doctor for treatment advice. Have the product container or label with you when calling a poison control center or doctor or go for treatment. You may also contact 1-800-535-5053 for emergency medical treatment information.

Physical or Chemical Hazards
Combustible. Do not use near open flame or open water.
