Pool Time® Algicide 50, when used as directed, is a highly effective, SWIMMING POOL ALGICIDE AND ALGAE PREVENTATIVE.

**TREATMENT OF VISIBLE POOL ALGAE:**

1. Initially apply 8 fluid ounces of this product per 10,000 gallons of pool water directly to the pool water in areas of heaviest algae growth.
2. Then thereafter, for weekly application intervals, add 1.5 fluid ounces per 10,000 gallons of pool water. For two week application periods, apply more often if pool volume is diluted by heavy rain, frequent backwashing or partial drain/refill.
3. Wait at least 15 minutes after application before entering pool.
4. In-use dilution, this product is non-staining to pool surfaces and allows many applications without coloration of pool water.

**DIRECTIONS FOR USE:**

- Ensure all equipment is working properly. If necessary, clean the filter system.
- Add 1 fluid ounce of this product per 10,000 gallons of pool water directly to the pool water in areas of heaviest algae growth.
- Brush visible algae thoroughly from the pool's surface with a brush designed for swimming pool cleaning, which is available at most pool stores.
- Vacuum leaves and any other foreign debris from pool.
- Adjust pH between 7.2-7.6.
- Establish and maintain proper chlorine or bromine levels. In accordance with precautionary statements and directions.
- Add a Pool Time shock or oxidizer per label directions.
- Thereafter, for weekly application intervals, add 1.5 fluid ounces per 10,000 gallons of pool water. For two week application periods, apply more often if pool volume is diluted by heavy rain, frequent backwashing or partial drain/refill.
- The next day, thoroughly brush pool surfaces.
- Prior to re-entry, test chlorine level. Do not enter pool until chlorine level is at least 1 ppm. Do not pool until chlorine level is at least 3 ppm.
- If a pool is cloudy, consider using 10 oz of Pool Time® Algicide 50. This algicide is non-staining to pool surfaces.

**IMPORTANT NOTES:**

- Do not use in pools sanitized with biguanides or pools treated with hydrogen peroxide.
- Do not use Pool Time® Algicide 50 in pools containing any liquid copper treatment agent before using this product.
- Do not use on pool surfaces that have been chemically stained with any liquid copper treatment agent before using this product.
- Do not use in pools containing any metal ion treatment agents (Chelating agents) before using this product.
- This algicide is nontoxic to fish and aquatic organisms.
- Keep out of reach of children.

**ENVIRONMENTAL HAZARDS:**

This pesticide is toxic to fish and aquatic organisms.

**FIRST AID:**

- **IF SWALLOWED:** Call POOL TIME customer service to obtain treatment advice. Have the product container or label with you when calling a poison control center or doctor or going for treatment. Do not give anything by mouth to an unconscious person. Move the person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, as soon as possible. Do not give anything by mouth to an unconscious person. If person is breathing reasonably well and conscious, call a doctor for treatment advice.
- **IF IN EYES:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes. Call a poison control center or doctor for treatment advice.
- **IF ON SKIN OR CLOTHING:** Wash thoroughly with soap and water. Continue to wash any remaining product off the body for several minutes, then wash again. Remove and wash contaminated clothing before reuse.

**STORAGE AND DISPOSAL:**

- Keep container tightly closed when not in use. Store in a cool, dry, well ventilated area.
- **CONTAINER:** Non-refillable container. Do not reuse or refill this container. Offer for recycling if available or place in trash.
- **KEEP OUT OF REACH OF CHILDREN.**
- **DANGER**
  - User assumes all responsibility for use not in accordance with directions.
  - Includes metal ion treatment agents or is poorly sequestered with any chemical treatment product. Mix with any other chemicals.
  - Mixes with source water treatment agents or poorly sequestered with any other chemicals.
  - Irritates contact lenses and will cause eye irritation.

**PRECAUTIONARY STATEMENTS:**

- Do not mix with other chemicals.
- Do not contaminate food or feed by storage or disposal.
- Do not contaminate food or feed by storage or disposal.
- **KEEP OUT OF REACH OF CHILDREN.**
- **DANGER**
  - See back panel for First Aid and Additional Precautionary Statements.
