For Organic Production

SULFUR DRY FLOWABLE

FUNGICIDE - MITICIDE

ACTIVE INGREDIENT: 100.0%

INERT INGREDIENTS: 25.0%

TOTAL: 125.0%

KEEP OUT OF REACH OF CHILDREN

CAUTION

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Harmful if swallowed, inhaled, or absorbed through skin. Avoid contact with eyes, skin, or clothing. Wash thoroughly with soap and water after handling. Do not contaminate clothing and wash clothing before reuse.

FIRST AID

If inhaled

1. Remove person to fresh air.
2. If person is not breathing, call 911 or an ambulance, then give artificial respiration, as needed, until medical help arrives, or until recovery occurs.
3. Get a person control center or doctor for further treatment advice.

If skin or clothing is affected

1. Wash off contaminated clothing.
2. Get a person control center or doctor for further treatment advice.

If swallowed

1. Do not induce vomiting.
2. Call a poison control center or doctor for further treatment advice.

If exposed

1. Wash off exposed skin.
2. Get a person control center or doctor for further treatment advice.
3. Wash the product container or label with you when calling a person control center or doctor, or going for treatment.

See additional precautionary statements on the back.

DISTRIBUTED BY WILBUR-ELLIS COMPANY LLC
P.O. BOX 1409, RICHLAND, CA 92374-1409

NET CONTENTS: 30 POUNDS (13.60 kg)

PERSONAL PROTECTIVE EQUIPMENT

Applications and other contacts: Wear long-sleeved shirt and long pants, chemically-resistant gloves made of microporous material, shoe covers, and protection apron.

Fungicide manufacturer's guidelines for personal protection are listed below. If the user requires the use of chemical-resistant gloves, they should be used with the microporous material.

ENVIRONMENTAL HAZARDS

The product should be handled in a manner that prevents it from entering water. It is not to be used near water bodies. The use of this product in high water quality areas is recommended.

PHYSICAL HAZARDS

Sulfur dust can irritate the lungs, eyes, and skin. Do not inhale or smell while applying the product.

STORAGE AND DISPOSAL

PROHIBITED: Do not use in water during irrigation or flooding. Keep storage and disposal of the product.

STORAGE: Store in a cool, dry area.

PACKAGING: Notes received from the use of this product may be disposed of on or in an approved waste disposal facility.

CONTAINED DISPOSAL: Disposal is subject to the application permit.

Non-refillable liquid. Do not use in or near the water for reasons of safety.

If you are recycling a container with a label on it, the label must be removed from the container. If the container is not recyclable, it must be disposed of in an environmentally safe manner.
CROP USE DIRECTIONS
ALMONDS: Brown Rot Blossom and Twig Blight, Leaf Spot, Red Spider Mites, Kill Mot, Rust, in early 10-day sprays, then repeat at 7 to 10-day intervals throughout the growing season.

AVOCADOS: Brown Mite. Apply 10-30 lbs. per acre when mites are first noticed.

BANANS: Mites. Apply 10-30 lbs. per acre. Apply as needed throughout the growing season.

BEANS, PEAS, PEPPERS, POTATOES: Powdery Mildew, Red Spider Mites, Apply 3-6 lbs. per acre. Start in early leaf stage. Repeat every 10 to 14 days, with no pesticides, immediately after a rain.

BROCCOLI, BRUSSELS SPROUTS, CABBAGE, CAULIFLOWER, KOHLRABI: Powdery Mildew, Septoria Leaf Spot, Red Spider Mites, Apply 3-5 lbs. per acre. Start in early leaf stage. Repeat every 10 to 14 days, immediately after a rain.

BLACKBERRY, BOYSNERRY, DEBBERRY, LOGANBERRY, BLUEBERRY, GOOSEBERRY, HUCKLEBERRY, CURRANT: Powdery Mildew. Apply 6-15 lbs. per acre. Begin when new shoots are 6 inches long and before blossoms open. Repeat at 10-day intervals or as necessary.

CARROTS, GARLIC, ONIONS, SHALLOTS: Petrolia Mite, Powdery Mildew. Apply 3-10 lbs. per acre when disease first appears and repeat as needed.

CELERY: Powdery Mildew, Red Spider Mite, Rust. Apply 4-6 lbs. per acre. Apply at early life stage and repeat every 10 to 14 days or as needed.

CHERRY, CRANBERRY, BLUEBERRY: Powdery Mildew, Leaf Spot, Silver Mites, Flats, Red Spider Mites, Rust. Apply 10-30 lbs. per acre. Apply at early or midseason. Repeat as necessary, usually 10 to 14 days after first application.

CITRUS: Flat Mites, Silver Mites, Broad Mite, Bud Mite, Citrus Rust Mite, Red Spider Mites, Rust, Scab. Apply 4-6 lbs. per acre. Application intervals for Citrus vary from 7 to 10-20 lbs. per acre. Application intervals needed for Citrus are application 2-20 lbs. per acre. In any spray — the application is not CONTINUOUS. No Oil. — or follow by 21 days. CLOVER: Powdery Mildew. Apply 2-3 lbs. per acre. Apply as needed.

COTTON, ALFALFA, SEED ALFALFA: Atlantic Mites, Red Spider Mites, Salt mold. Apply 8-20 lbs. per acre. In any spray — the application is not CONTINUOUS. No Oil. — or follow by 21 days. CLEARY: Powdery Mildew. Apply 2-3 lbs. per acre. Apply as needed.

COFFEE: Powdery Mildew, Red Spider Mite, Rust. Apply 2-3 lbs. per acre. Application interval required 7 to 10-20 days or as needed.

CUCUMBERS: Powdery Mildew, Apply 2-4 lbs. per acre. Apply when disease first appears and repeat as necessary. Do not apply more than 2 pounds per acre application during periods of high weather or water stress.

CUCUMBER: Powdery Mildew, Brown Rot Blossom, Leaf Spot, Red Spider Mites. Apply 4-6 lbs. per acre. Application intervals throughout the growing season 10 to 14 days.

DATES: Bank's Grass Mite, Apply 20 lbs. per acre. Application intervals required 10-20 days or as necessary. See Weeks for details.

EGGPLANTS: Powdery Mildew. Apply 4-6 lbs. per acre. Apply when mites first appear and repeat applications as necessary.

ENDIVE, ESCAROLE, SWISS CHARD, SALSA: Powdery Mildew, Red Spider Mite, Rust. Apply 4-6 lbs. per acre. Application interval required 7 to 10-day intervals or as needed.

Figs: Mites (including Empidophy Mites and Fig Rust). Apply at a minimum of 100 lbs. per acre. Begin applications in the fall and continue on a 3 to 4-week schedule or as needed.

FLAX: Powdery Mildew. Apply 2-3 lbs. per acre. Application interval required 7 to 10-day intervals or as needed.
**FORAGE GRASSES (TIMOTHY, ORCHARD GRASS, FESCUES, SUDAN GRASS, BERMUDA GRASS, BLUEGRASS, BROMEGRASS):** Mites (including Banks Grass Mite). Apply 5-10 lbs. per acre. Apply at first sign of mites. Continue applications at 7-day intervals or as needed, until mites are below economic levels. The addition of adjuvants (spreaders, surfactants, etc.) may increase the chance of crop injury and is not recommended. For aerial applications, use the specified rate at a minimum of 3 gallons of water per acre. For ground applications, use the specified rate in a minimum of 10 gallons of water per acre.

**GRAPEVINES:** Powdery Mildew, Mites, Black Mold. Apply 5-10 lbs. per acre. Ensure good coverage. Apply early leaf stage and repeat every 14 days or as needed. Thrush coverage is required. Do not apply within 20 days of bloom. Direct applications to carpothy leaves and shoots. MELOS: Powdery Mildew, Mites. Apply 5-10 lbs. per acre. Application before bloom. Repeat at bloom, after fruit set, and 3 weeks later or as needed. MELOS: Powdery Mildew, Mites. Apply 20-25 lbs. per acre. Treat when the disease first appears and repeat every 7 to 14 days or as needed. MELON MITE: Powdery Mildew, Mites. Apply as needed. MELON MITE: Powdery Mildew, Mites. Apply 1-5 lbs. per acre. At early leaf stage and repeat every 14 days or as needed. MELON MITE: Powdery Mildew, Mites. Apply 10-30 lbs. per acre. Apply at least 5 lbs. per acre. MELT: Powdery Mildew, Mites. Apply 10-20 lbs. per acre. Begin application before bloom. Repeat at bloom, after fruit set, and 3 weeks later or as needed. MELON MITE: Powdery Mildew, Mites. Apply 20-25 lbs. per acre. Treat when the disease first appears and repeat every 7 to 14 days or as needed. MELON MITE: Powdery Mildew, Mites. Apply 1-5 lbs. per acre. At early leaf stage and repeat every 14 days or as needed. MELON MITE: Powdery Mildew, Mites. Apply 10-30 lbs. per acre. Apply at least 5 lbs. per acre. MELON MITE: Powdery Mildew, Mites. Apply 10-20 lbs. per acre. Begin application before bloom. Repeat at bloom, after fruit set, and 3 weeks later or as needed.

**PEACHES AND NECTARINES:** Brown Rot, Anthracnose, Blight. Apply 10-20 lbs. per acre. Applications should be made with a positive displacement pump. Repeat as necessary, usually 10 to 14 days, or after a period of wet weather. PEANUTS: Powdery Mildew, Red Spider Mites, Leaf Spot, Rust. Apply 10-30 lbs. per acre. At bloom or early petal fall. Repeat as necessary, usually 10 to 14 days, or after a period of wet weather.

**POMEGRANATE:** Mites. Apply 3-10 lbs. per acre. Begin application in May or June. Make additional applications on a 3 to 4-week schedule, or as necessary. Use higher rates if additional applications on a 3 to 4-week schedule, or as necessary. Use higher rates if additional applications are advisable in order to avoid crop injury.

**POMES AND PRUNES:** Brown Rot Blossom and Twig Blight. Powdery Mildew, Silver Mites, Red Spider Mites, Flat Mite, Leaf Spot, Rust. Apply 5-10 lbs. per acre. Apply to blooming or early fruit petal fall. Repeat as necessary, usually 10 to 14 days, or after a period of wet weather.

**POMES AND PRUNES:** Brown Rot Blossom and Twig Blight. Powdery Mildew, Silver Mites, Red Spider Mites, Flat Mite, Leaf Spot, Rust. Apply 5-10 lbs. per acre. Apply to blooming or early fruit petal fall. Repeat as necessary, usually 10 to 14 days, or after a period of wet weather.

**COMMERCIAL TURF AND GRASS (INCLUDING GOLF COURSES, SOD FARMS, AND GRASS GROWN FOR SEED):** Pusuarum Patch Spots, Sclerotium, Bacterial Blotch. Apply 3-10 lbs. per acre. Application must be made with a positive displacement pump. Repeat as necessary, usually 10 to 14 days, or after a period of wet weather. **PUSAURUM PATCH SPOTS, SCLEROTIUM, BACTERIAL BLOTCH:** Brown spot, Rust, Leaf spot. Apply 5-10 lbs. per acre. Application must be made with a positive displacement pump. Repeat as necessary, usually 10 to 14 days, or after a period of wet weather. **PUSAURUM PATCH SPOTS, SCLEROTIUM, BACTERIAL BLOTCH:** Brown spot, Rust, Leaf spot. Apply 5-10 lbs. per acre. Application must be made with a positive displacement pump. Repeat as necessary, usually 10 to 14 days, or after a period of wet weather. **PUSAURUM PATCH SPOTS, SCLEROTIUM, BACTERIAL BLOTCH:** Brown spot, Rust, Leaf spot. Apply 5-10 lbs. per acre. Application must be made with a positive displacement pump. Repeat as necessary, usually 10 to 14 days, or after a period of wet weather. **PUSAURUM PATCH SPOTS, SCLEROTIUM, BACTERIAL BLOTCH:** Brown spot, Rust, Leaf spot. Apply 5-10 lbs. per acre. Application must be made with a positive displacement pump. Repeat as necessary, usually 10 to 14 days, or after a period of wet weather. **PUSAURUM PATCH SPOTS, SCLEROTIUM, BACTERIAL BLOTCH:** Brown spot, Rust, Leaf spot. Apply 5-10 lbs. per acre. Application must be made with a positive displacement pump. Repeat as necessary, usually 10 to 14 days, or after a period of wet weather.

**PUSAURUM PATCH SPOTS, SCLEROTIUM, BACTERIAL BLOTCH:** Brown spot, Rust, Leaf spot. Apply 5-10 lbs. per acre. Application must be made with a positive displacement pump. Repeat as necessary, usually 10 to 14 days, or after a period of wet weather. **PUSAURUM PATCH SPOTS, SCLEROTIUM, BACTERIAL BLOTCH:** Brown spot, Rust, Leaf spot. Apply 5-10 lbs. per acre.
