Net Contents 32 fl oz (1 qt/946 mL)
PROOF OF PURCHASE

United Industries Corporation represents that this product is a minimum risk pest control product and qualifies for exemption from EPA registration under the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA).

READ ENTIRE LABEL BEFORE USE.

DIRECTIONS FOR USE
Shake well before using.
Apply 1 qt of product to 2,500 sq ft to kill: aphids, beetles, chinch bugs, crickets, flies, ticks, leafhoppers, mites, millipedes, mosquitoes and ticks.
Apply 1 qt of product to 5,000 sq ft to kill: ants, earwigs, grasshoppers, lacewings, ladybugs, leafhoppers, mites, millipedes, mosquitoes and ticks.

HOW TO APPLY
1. Determine the area of the spraying job. For lawns, measure the area to be sprayed. Apply 1 qt (32 fl oz) per 5,000 sq ft or 1,000 sq ft depending on insects present. See list above. Begin treating when insects first appear. Applicators should be repeated as directed to maintain control. Remember, thorough coverage is important.

OUTDOOR USE: Before using product, remove stakes and mulch from next to the foundation, cut-back vegetation and branches that touch foundation and move or raise back rocks, steep mulch or other potential pest harborage and to foundation. Spray infested areas thoroughly. For ants, thoroughly wet felts and honeycomb.

DO NOT APPLY TO EXTERIOR WALLS OR OTHER ORNAMENTAL OR BUILDING MATERIALS. Do not apply to ornamental plants and shrubs, as damage to foliage may result.

1. Shake container well before using.
2. Connect a garden hose to the sprayer nozzle. Make sure switch is fully forward in the "OFF" position.
3. Turn on water at faucet. Extend hose to the furthest area to be treated and work back toward the faucet so you don’t come in contact with the treated area.
4. Remove safety tab from sprayer’s right side by pulling straight out. Keep for future use.
5. To ORGON sprayer, point nozzle toward treatment site and pull switch backwards with thumb toward hose connection. Water will automatically mix with the product.
6. Spray until wet to control insects. Walk as a steady pace, working back toward the faucet while spraying, using an even swinging motion, slightly overlapping treated areas.
7. To STOP spraying, push switch forward with thumb toward nozzle. Turn water off at faucet. To relieve pressure before removing nozzle from hose, pull switch backwards with thumb toward hose connection until water stops spraying.
8. To STORE unused product, make sure switch is fully forward in the "OFF" position.
9. Nature safety tab into sprayer’s right side. With sprayer in the full "OFF" position, push tab into position.
10. Place in cool area away from food, sunlight or open flame.

NOTE: This product is non-staining to most outdoor surfaces depending on age and cleanliness. However, before using in areas where the spray may contact outdoor surfaces (even siding in particular), test in an inconspicuous area and recheck in a few hours. Do not use if any staining is observed.

STORAGE AND DISPOSAL
Storage: Store in original container in a cool, dry place inaccessible to children and pets. Protect from heat and freezing. Store between 40°F-90°F. Keep container closed tightly to prevent evaporation. If spillage occurs, dilute with water and flush away. • Container Disposal: If empty, Nonrefillable container. Do not reuse or refill this container. Place in trash or offer for recycling if available. If partly filled, Call your local waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

PRECAUTIONARY STATEMENTS
Hazards to Humans and Domestic Animals
CAUTION: Avoid contact with eyes, skin or clothing. Wash thoroughly with soap and water after handling, and before eating, drinking, chewing gum, using tobacco or using the toilet. Persistent or repeated skin contact may cause allergic reactions in some individuals.

First Aid: • If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a Poison Control Center or doctor for treatment advice.

• If skin or clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a Poison Control Center or doctor for treatment advice.
