For USE IN and AROUND ALL FOOD CROPS & NON-CROP AREAS

Storage and Disposal

PESTICIDE STORAGE:
- store in the original container in a cool, dry, well-ventilated area out of the reach of children.
- do not store near food or food products.

STORAGE AND DISPOSAL:
- use of this product must conform with all state and federal regulations.
- dispose of empty containers in accordance with state and local regulations.
- do not incinerate. If incineration is necessary, take all necessary precautions to prevent escape of volatile residues into the atmosphere, and dispose of the ash in accordance with state and local regulations.

Directions For Use

Precautionary statements

To the extent consistent with applicable law, Avenger® Products, LLC warrants that this product conforms to the chemical description on the label and is reasonably fit for the uses described herein. However, it is impossible to eliminate all risks inherently associated with the use of this product. Crop injury, ineffectiveness or other unintended consequences may result, because of factors such as weather conditions, presence of other materials, or use of the product in a manner inconsistent with its intended uses. Therefore, the user should carefully follow the directions for use and precautions contained on the label.

Compatibility Testing:

If the compatibility with another product is not known, a jar test or physical compatibility study should be conducted before tank mixtures are made. To determine compatibility:
- mix the two products in the desired proportion in a clean glass or plastic jar,
- shake vigorously for 10 seconds,
- let stand for 30 minutes,
- observe for signs of separation, precipitation, or other signs of incompatibility.

In the event of a physical compatibility problem, do not mix the products. Apply one product as directed. If both products must be used in the same area, apply the least toxic product first followed by the chemical with the greatest potential for incompatibility.
