For Control of Mold and Mildew on Hard, Non-Porous Environmental Surfaces: Spray surfaces until thoroughly moistened. Allow to air dry. Repeat application in 7 days.

For Control of Trichophyton interdigitale (Athlete's Foot Fungus) in areas such as bathrooms, locker rooms, floors, benches, shower stalls or other non-porous environmental surfaces commonly contacted by bare feet: Spray surface until thoroughly moistened. Allow surfaces to remain wet for 10 minutes. Allow to air dry.

Kills HIV on pre-cleaned environmental surfaces and objects previously soiled with blood or body fluids in healthcare settings or other settings in which there is an expected likelihood of soiling of inanimate surfaces or objects with blood or body fluids, and in which the surfaces and objects likely to be soiled with blood or body fluids can be associated with the potential for transmission of human immunodeficiency virus type 1 (HIV-1) (associated with AIDS).

Special Instructions for cleaning and decontamination against HIV on surfaces and objects soiled with blood or body fluids: Personal Protection: Specific barrier protection items to be used when handling items soiled with blood or body fluids are disposable latex gloves, gowns, masks and eye coverings. Cleaning Procedure: Blood and other body fluids must be thoroughly cleaned from surfaces and objects before application of disinfectant. Disposal of Infectious Materials: Blood and other body fluids must be disposed of according to federal, state and local regulations for infectious waste disposal. Contact Time: Leave surfaces wet for 10 minutes. This contact time will not control other common types of viruses and bacteria.

For Use in W. Wells, floors, bedframes, bedpans, urinals, fixtures, containers, toilet seats, diaper pails, telephones, trash cans, and sickrooms. Due to the possibility of electric shock when used on telephones, avoid excess spraying of telephone.

Precautions
This product is not to be used as a terminal sterilant/high level disinfectant on any surface or instrument that is 1) introduced directly into the human body, either into or in contact with the bloodstream or normally sterile areas of the body, or 2) contacts intact mucous membranes but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body. This product may be used to preclean or decontaminate critical or semicritical medical devices prior to sterilization or high level disinfection.

STORAGE AND DISPOSAL
Do not contaminate water, food or feed by storage or disposal. Pesticide Storage: Store upright in a cool, dry place away from heat or open flame. Pesticide Disposal: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility. Container Disposal: Do not puncture or incinerate. If empty: Place in trash or offer for recycling if available. This container may be recycled in the few but growing number of communities where (steel) aerosol containers are recycled. Before offering for recycling, empty the can by using the product according to the label. Do not Puncture! If recycling is not available, discard container in trash. If partly filled: Call your local solid waste agency or open flame.

Precautionary Statements
Hazard to Humans & Domestic Animals
WARNING: Causes substantial but temporary, eye injury. Do not get in eyes or on clothing. Wear protective eyewear. Thoroughly wash hands after using and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove contaminated clothing and wash clothing before reuse.

Physical or Chemical Hazards
Contents under pressure. Do not use or store near heat or open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting. Do not use on polished wood, painted surfaces, leather, rayon fabrics, acrylic plastics or furniture.

Active Ingredients:
- n-Alkyl (60% C14, 30% C16, 5% C12, 5% C18) dimethyl benzyl ammonium chloride 0.05%
- n-Alkyl (68% C12, 32% C14) dimethyl ethylbenzyl ammonium chloride 0.05%
- Ethyl Alcohol 37.00%
- Other Ingredients* 62.90%
- Total: 100.00%
- Contains Sodium Nitrite.

Disinfectant Spray
For use only on hard, non-porous environmental surfaces. Prevents mold and mildew on environmental surfaces in your home and on public places. Disinfect and deodorizes surfaces through effective bacterial and fungicidal activity. Kills Staphylococcus aureus (Staph), Streptococcus hemolyticus (Strep), Pseudomonas aeruginosa, Methicillin-Resistant Staphylococcus aureus (MRSA), Mycobacterium bovis (BCG), Salmonella enterica, Trichophyton interdigitale (athlete’s foot fungus), Vancomycin-Resistant Enterococcus faecalis (VRE), Influenza A Virus, Influenza B Virus, Swine Influenza A Virus Strain (H1N1) and Influenza A Virus Strain Hong Kong on pre-cleaned, hard, non-porous environmental surfaces.

Kills HIV-1 on pre-cleaned environmental surfaces. Meets AOAC Efficacy Standards for hospital aerosol disinfectants.

**Sanitizes:** Staphylococcus aureus (Staph), and Enterobacter aerogenes on pre-cleaned, hard non-porous, non-food contact surfaces with a 5 minute contact time.

DIRECTIONS FOR USE
It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Shake Well Before Using
To Clean: Prior to disinfection, thoroughly pre-clean all surfaces to be treated by removing all gross filth and heavy soil.

To Disinfect: Hold can upright and spray from a distance of 6 to 8 inches until area for treatment is thoroughly moistened. Allow surfaces to remain wet for 10 minutes before wiping. After disinfection, a potable water rinse is required. Do not use to disinfect appliances, refrigerator interiors and microwave oven interiors. Do not use on dishes, glasses or utensils.

To Sanitize: Spray surface until entire area is thoroughly wet. Allow to remain wet for 5 minutes before wiping.

Shipment of this product is subject to the regulations of the U.S. Department of Transportation.
