Natural Care® Flea & Tick Carpet Powder was created to provide safe and effective protection against harmful fleas, ticks, and ants, when used as directed. Our unique blend of naturally sourced Geraniol and Cornmint Oil creates a strong yet gentle defense for your home.

This treatment is great to use with a preventative product, such as Natural Care Flea & Tick Drops or Natural Care Flea & Tick Collar.

DIRECTIONS FOR USE: READ ENTIRE LABEL BEFORE EACH USE AND USE ONLY IN ACCORDANCE WITH LABEL INSTRUCTIONS:

 Carpets & Flooring: For indoor use only. Turn off fans to ensure powder remains in treated area. Apply to dry surfaces only. This product is designed to be non-staining; however, always apply a small amount to an inconspicuous area to test for colorfastness.

While holding the container 1-2 feet from the floor and away from your body, gently shake container in a side to side motion to apply a fine layer of powder that evenly covers the surface. Wait at least 60 minutes before using a plug-in vacuum to remove all visible surface powder. For severe infestations, wait up to 24 hours before using a plug-in vacuum. Repeat as often as necessary to prevent re-infestation.

Upholstery & Pet Bedding: Remove loose cushions. Sprinkle along creases and into corners. Wait at least 60 minutes before using a plug-in vacuum to remove all visible surface powder.

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS:

HUMANS: Causes moderate eye irritation. Wearing eye, mouth and glove coverings provide the best protection. Wash hands thoroughly with soap and water after use. Prolonged or frequent repeated skin contact may cause allergic reaction in some individuals. If irritation persists, contact a physician.

DOMESTIC ANIMALS: Sensitivity may occur after use of any product for pets. If signs of sensitivity occur, bathe your pet with mild soap and rinse with large amounts of water. If signs of sensitivity continue consult a veterinarian immediately. Consult a veterinarian prior to use around pregnant or nursing animals. For external use only. Do not use on or near puppies or kittens younger than 12 weeks old.

FIRST AID:

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lens, if present, after the first 5 minutes, then continue rinsing eye. If irritation persists contact a physician.

IF ON SKIN: Wash with soap and water and repeat if necessary.

IF INHALED: Remove to fresh air.

IF INGESTED: Immediately drink plenty of water. Do not induce vomiting. If symptoms persist, contact a physician.

STORAGE: Store only in original container in a cool, dry area.

DISPOSAL: In accordance with all Federal, State and Local regulations. Recycle when available or discard in trash.
