Natural Care™ Flea & Tick Collar is a unique alternative for flea and tick repellant that lasts up to 4 months. Unlike conventional collars, our repellent collar is infused with botanical oils that provide a barrier of strong yet gentle repellant that lasts up to 4 months. Unlike spot-on products within the last 15 days, thoroughly wash your dog’s neck with a mild soap before using collar.

For best results, leave collar on at all times. Fasten the collar around your dog’s neck. Make sure two fingers can fit comfortably between the collar and your dog’s neck. Carefully cut off and discard excess length beyond the clasp, leaving enough for further adjustment later if needed. For best results, remove existing infestation from dog and replace every 4 months.

DIRECTIONS FOR USE:

1. Pull apart to remove collar from activation dots. Remove activation dots and discard.
2. Fasten the collar around your dog’s neck. Make sure two fingers can fit comfortably between the collar and your dog’s neck. Carefully cut off and discard excess length beyond the clasp, leaving enough for further adjustment later if needed. For best results, leave collar on all times and replace every 4 months.
3. If you have used a brand other than NATURAL CARE spray or shampoo, thoroughly wash your dog with mild soap before using collar.

IN ACCORDANCE WITH LABEL INSTRUCTIONS:

On Dogs & Puppies 4 Months or Older: In rare instances dogs can be sensitive to botanical oils. If you believe your dog may be sensitive to some pet products, attempt to use the collar on your dog outside for one hour, then remove. Each day following, observe the areas your dog sleeps or spends the most time. If any rash or areas of skin irritation occur, bathe your dog with mild soap and rinse with large amounts of water. If signs of sensitivity continue consult a veterinarian immediately. Do not use this collar to attach or hold the dog. Do not use on puppies under 4 months old. Consult a veterinarian before using this product on any other pets. For external use only. Not for ingestion.

REPELS fleas • ticks
