**FIRST AID**

**HAVE LABEL WHEN OBTAINING TREATMENT ADVICE**

**If Swallowed:**
- Call poison control center, or doctor, at 1-800-255-3924 immediately for treatment advice.
- Have person sip a glass of water if able to swallow.
- Do not induce vomiting unless told to do so by the poison control center or doctor.

**If on Skin or Clothing:**
- Take off contaminated clothing.
- Wash skin immediately with plenty of water for 15-20 minutes.
- If on clothing, remove clothing immediately.

**If in Eyes:**
- Hold eyes open and rinse slowly and gently with water for 15-20 minutes.
- Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
- Call a poison control center, or doctor, at 1-800-255-3924 immediately for treatment advice.

**NOTE TO PHYSICIAN**

If swallowed, this material may reduce the clotting ability of the blood and cause bleeding. If ingested, administer Vitamin K1, intramuscularly or orally. Repeat as necessary based on monitoring of prothrombin times.

**TREATMENT FOR PET POISONING**

If animal eats bait, call veterinarian at 1-800-255-3924 at once.

**NOTE TO VETERINARIAN**

Anticoagulant Diphenacine: For animals ingesting bait and/or showing poisoning signs (bleeding or elevated prothrombin times), give Vitamin K1.

For 24-hour emergency information on this product, call 1-800-255-3924 (US & Canada)

**PRECAUTIONARY STATEMENTS**

**HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

**CAUTION:** Harmful if swallowed or absorbed through the skin. Causes moderate eye irritation. Avoid contact with eyes, skin, or clothing. Keep away from children, domestic animals, and pets.

**Personal Protective Equipment (PPE):** All handlers (including applicators) must wear long pants, shoes, socks, and barrier laminate gloves. Any person who retrieves carcasses or handled bait following application of this product must wear barrier laminate gloves.

**User Safety Requirements:** Follow manufacturer’s instructions for cleaning/maintaining PPE. If no such instructions for washables, use detergent and hot water. Keep and wash PPE separately from other laundry. Remove PPE immediately after handling this product. Wash the outside of barrier laminate gloves before removing. As soon as possible, wash hands thoroughly after applying the bait and before eating, drinking, chewing gum, using tobacco or using the toilet and change into clean clothing.

**ENVIRONMENTAL HAZARDS**

This product is extremely toxic to mammals, birds, and other wildlife. Dogs, cats, and scavenging mammals and birds should be poisoned if they feed upon products that have eaten this bait. Do not apply directly to water, or to areas where surface water is present or to intertidal areas before the mean high water mark. Do not allow bait to be exposed on soil surface. Do not apply water runoff likely to occur. Do not contaminate water when disposing of equipment wash water or rinse.

**DIRECTIONS FOR USE**

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

**READ THIS LABEL:** Read this entire label and follow all use directions and use precautions. Use only for the sites, pests, and application methods described on this label.

**IMPORTANT:** Do not expose children, pets, or other non-target animals to rodenticide. To help prevent accidents:

1. Store product not in use in a location out of reach of children and pets.
2. Apply bait in locations out of reach of children, pets, domestic animals, and non-target wildlife, or in tamper-resistant bat stations. These stations must be resistant to destruction by dogs and by children and made of a material that prevents such children from reaching into bat compartments and obtaining bait. If bait can be shaken from stations when they are filled, units must be secured or otherwise immobilized. Even stronger bat stations are needed in areas open to hloved livestock, raccoons, bears, or other potentially destructive animals, or in areas prone to vandalism.
3. Dispose of product container, and unused, spoiled, and unconserved bait as specified on this label.

Bait stations are mandatory for outdoor, above-ground use. Tamper-resistant bat stations must be used if children, pets, non-target mammals, or birds may access the bait.

**ACTIVE INGREDIENT:**

Diphenacine (2-Diphenylphenyl-1,3,5-triazine) 0.5%

**OTHER INGREDIENTS:**

TOTAL: 100.000%

**USE RESTRICTIONS:**

This product may only be used to control the following rodent pests in and around man-made structures: House mouse (Mus musculus), Norway rat (Rattus norvegicus), Roof rat (Rattus rattus), Cotton rat (Sigmodon hispidus), Eastern harvest mouse (Reithrodontomys humulis), Golden mouse (Celesomys natalis), and Polynesian rat (Rattus exulans). This product must be used in and within 100 feet of man-made structures constructed in a manner so as to be vulnerable to commercial rodent invasions and/or to harboring or attracting rodent infestations. Examples of such structures include homes and other permanent or temporary residences, food processing facilities, industrial and commercial buildings, trash receptacles, agricultural and public buildings, transport vehicles, ships, trains, aircraft, docks and port or terminal buildings and related structures around and associated with these sites. Fence and perimeter baiting beyond 100 feet from a structure as defined above, is prohibited. This product must not be applied directly to food or feed crops. Burrow baiting with this product is prohibited.

Do not sell this product in individual containers holding less than four (4) pounds of bait.

**SELECTION OF TREATMENT AREAS:**

Determine areas where rats or mice will most likely find and consume the bait. Generally, these areas are along walls, by grained openings, in corners and concealed places, between floors and walls, or in locations where rodents or their signs have been seen. Protect bait from rain or snow. Remove as much alternative food as possible.

**APPLICATION DIRECTIONS**

**RATS:** Place 1 to 4 bait packs per placement. Space placements at intervals of 15 to 30 feet in infested areas. Maintain an uninterrupted supply of fresh bait for at least 10 days or until there are no longer signs of new feeding by rats.

**MICE:** Open package and apply 1/4 to 1/2 ounce (1-2 level tablespoons) of bait at each placement location. Space placements at 6-12 feet intervals. Larger placements (up to 2 ounces) may be needed at points of very high mouse activity. Maintain an uninterrupted supply of fresh bait for at least 15 days or until there are no longer signs of new feeding by mice.

**FOLLOW-UP:** Replace contaminated or spoiled bait immediately. Use barrier laminate gloves collect and dispose of all dead, exposed animals and leftover bait properly. To discourage reinfestation, limit sources of rodent food, water and harborage as much as possible. If reinfestation does occur, repeat treatment. Where a continuous source of infestation is present, establish permanent bait stations and replenish as needed.

**STORAGE AND DISPOSAL**

Do not contaminate water, food or feed by residue or disposal.

**PESTICIDE STORAGE:** Store in original container in a cool, dry place inaccessible to children and pets. Keep containers closed and away from other chemicals.

**PESTICIDE DISPOSAL:** Dispose of wastes resulting from use of this product in trash or in an approved waste disposal facility.

**PESTICIDE AND CONTAINER HANDLING:** Nonrefillable container. Do not reuse or refill this container.

**Plastic Containers:** Triple rinse (or equivalent) then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or incineration.

**Paper Containers:** Dispose of empty container by placing in trash, at an approved waste disposal facility or by incineration.

**DISCLAIMER:** To the extent permitted by applicable law, seller makes no representation or warranty, either expressed or implied, for results due to misuse, improper handling or improper storage of this material. Nor does seller assume any responsibility for injury to persons, crops, animals, soil or property arising out of misuse, improper handling or improper storage of this material.
**First Aid**

If Swallowed:
- Call a poison control center or doctor immediately for treatment advice.
- Have person sip a glass of water if able to swallow.
- Do not induce vomiting unless told to do so by the poison control center or doctor.

If on Skin or Clothing:
- Take off contaminated clothing.
- Rinse skin immediately with plenty of water for 15-20 minutes.
- Call a poison control center, or doctor immediately for treatment advice.

If in Eyes:
- Hold eye open and rinse slowly and gently with water for 15-20 minutes.
- Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
- Call a poison control center, or doctor immediately for treatment advice.

**Note to Physician**
If swallowed, this material may reduce the clotting ability of the blood and cause bleeding. If ingested, administer Vitamin K1, intramuscularly or orally. Repeat as necessary based on monitoring of prothrombin times.

**Treatment for Pet Poisoning**
If animal eats bait, call veterinarian or 1-800-255-3924 at once.

**Note to Veterinarian**
Anticoagulant Diphenacyclone: For animals ingesting bait and/or showing poisoning signs (bleeding or elevated prothrombin times), give Vitamin K1.
