FIRST AID

NOTE TO PHYSICIAN
If swallowed, this material may reduce the clotting ability of the blood and cause bleeding. If ingested, administer Vitamin K1, intramuscularly or orally. Repeat as necessary based on advice.

TREATMENT FOR PET POISONING
If animal eats bait, call veterinarian or animal control agency immediately for treatment advice.

NOT Approved for this Use Pattern in the following States:
California, Hawaii, Indiana, and New Hampshire
Not for use against the star-nosed mole (Condylura cristata parva) in North Carolina

NOTE TO VETERINARIAN
This product is extremely toxic to mammals, birds and other wildlife. Dogs, cats and scavenging mammals and birds might be poisoned if they feed upon animals that have eaten this bait. Do not apply directly to, or to areas where surface water is present or to intertidal areas below the mean high water mark. Do not allow bait to be exposed on salt surface. Do not apply where runoff is likely to occur. Do not contaminate water when disposing of equipment wash water or rinsate.

DIRECTIONS FOR USE
It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

READ THIS LABEL: Read this label and follow all use directions, use restrictions, and use precautions.

USE RESTRICTIONS:
- This product may only be used at the use sites and by the users described above.
- This product may be applied at the use sites and by the users described above.
