STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal. Pesticide Storage: Store in original container in a cool, dry place inaccessible to children and pets. Keep containers closed and away from other chemicals. Pesticide Disposal: Dispose of wastes resulting from the use of this product in trash or at an approved waste disposal facility. Container Handling: Nonrefillable container. Do not re-use or refill this container. Plastic Containers: Triple rinse (or equivalent) then offer for recycling or reconditioning; or puncture and dispose of container in a sanitary landfill; or by incineration. Paper Containers: Dispose of empty container by incineration, by placing in trash, at an approved waste disposal facility, or by incineration.

Active Ingredient:

Bromethalin

Other Ingredients:

Cotton Rat*, Polynesian Rat, Eastern Harvest Mouse, Golden mouse, and Meadow vole

*Not permitted for use against the following species in California: Cotton rat, Polynesian rat, Eastern harvest mouse, Golden mouse, and Meadow vole

Directions for Use (continued)

Wearing barrier laminate gloves, collect and properly dispose of all dead rodents and leftover bait. To discourage reinfestation, limit sources of food, water, and harborage as much as possible. If reinfestation does occur, repeat treatment. Where a continuous source of infestation is present, establish permanent bait stations and replenish them as needed.

*Not permitted for use against the following species in California: Cotton rat, Polynesian rat, Eastern harvest mouse, Golden mouse, and Meadow vole

Container Handling:

Refillable container. Do not re-use or refill this container. Plastic Containers: Triple rinse (or equivalent) then offer for recycling or reconditioning; or puncture and dispose of container in a sanitary landfill; or by incineration. Paper Containers: Dispose of empty container by incineration, by placing in trash, at an approved waste disposal facility, or by incineration.
**Assault® Mouse/Rat Pellets**

**KEEP OUT OF REACH OF CHILDREN**

**CAUTION:** Harmful if swallowed or absorbed through the skin. Causes moderate eye irritation. Keep away from children, domestic animals, and pets. Do not get in eyes, on skin, or on clothing. All handlers (including applicators) must wear long-sleeved shirt and barrier laminate gloves. Any person who retrieves carcasses or handles (including applicators) must wear long-sleeved shirt and barrier laminate gloves. Any person who retrieves carcasses or

**ENVIRONMENTAL HAZARDS:** This product is extremely toxic to mammals and birds. Dogs and scavenging mammals and birds might be poisoned if they feed upon animals that have eaten this bait. Do not apply directly to water, or to areas where surface water is present, or to intertidal areas below the mean high water mark. Runoff may also be hazardous to aquatic organisms in water adjacent to treated areas. Do not contaminate water when disposing of equipment wash water or rinse.

**DIRECTIONS FOR USE:** It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

**READ THIS LABEL:** Read this entire label and follow all use directions and use precautions. Use only for the sites, pests, and applications described on this label.

**IMPORTANT:** Do not expose children, pets, or other non-target animals to rodenticides. To help prevent accidents:

- **HAZARDS TO HUMANS AND DOMESTIC ANIMALS:**
  - **CAUTION:** Harmful if swallowed or absorbed through the skin. Causes moderate eye irritation. Keep away from children, domestic animals, and pets. Do not get in eyes, on skin, or on clothing. All handlers (including applicators) must wear long-sleeved shirt and barrier laminate gloves. Any person who retrieves carcasses or handles (including applicators) must wear long-sleeved shirt and barrier laminate gloves. Any person who retrieves carcasses or

- **USE RESTRICTIONS:** This product may only be used to control the following rodent pests in and around man-made structures:
  - Norway rat (Rattus norvegicus), Roof rat (Rattus rattus), Cotton rat (Sigmodon hispidus), Polynesian rat (Rattus exulans), Mouse (Mus musculus), Eastern harvest mouse (Reithrodontomyos humulis), Golden mouse (Ochrotomys nuttalli), and Meadow voles (Microtus pennsylvanicus).

- **APPLICATION DIRECTIONS:** It is different from anticoagulant rodenticides. Individual rats, mice, and meadow voles* cease feeding after consuming a toxic dose. Rats: Apply 1 to 6 ounces of bait per placement location. Space placements at intervals of 15 to 20 feet in infested areas. Mice and Meadow voles*: Apply ¼ to ½ ounce (7–14 grams) of bait at each placement location. Space placements at 8- to 12-foot intervals. Larger placements (up to 3 ounces) may be needed at points of very high activity.

- **Follow-Up:** Adjust the amount of bait applied to the level of feeding expected at each bait placement location. Highest bait consumption is expected on the first day or two after treatment. After several days, inspect bait placements and replenish bait at sites where there is heavy feeding or where there is continued evidence of rat, mouse, or meadow vole* activity. Maintain baiting for at least one week or until there no longer are fresh signs of rat, mouse, or meadow vole* activity or it becomes clear that the remaining rats, mice, or meadow voles are not attracted to the bait.

KEEP OUT OF REACH OF CHILDREN

CAUTION

See inside leaflet for First Aid and additional Precautionary Statements and complete Directions for Use

FIRST AID

HAVE LABEL WHEN OBTAINING TREATMENT ADVICE

If Swallowed:

• Call a poison control center, or doctor, or 1-800-498-5743 immediately for treatment advice.
• Have person sip a glass of water if able to swallow.
• Do not induce vomiting unless told to do so by the poison control center or doctor.
• Do not give anything by mouth to an unconscious person.

If on Skin or Clothing:

• Take off contaminated clothing.
• Rinse skin immediately with plenty of water for 15-20 minutes.
• Call a poison control center, or doctor, or 1-800-498-5743 immediately for treatment advice.

If in Eyes:

• Hold eye open and rinse slowly and gently with water for 15-20 minutes.
• Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
• Call a poison control center, or doctor, or 1-800-498-5743 immediately for treatment advice.

Have product container or label with you when calling a poison control center or doctor for treatment advice.

TREATMENT FOR PET POISONING

If animal eats bait, call veterinarian or 1-800-498-5743 at once.

NOTE TO PHYSICIAN OR VETERINARIAN

Contains the nerve poison Bromethalin. This is not an anticoagulant type rodenticide. For humans or animals ingesting bait and/or showing poisoning signs (such as muscle tremors, loss of hind limb use, or seizures for animals), limit absorption by either emesis or gastric lavage. Sublethal symptoms, if present, would be the result of cerebral edema and should be treated accordingly through administration of an osmotic diuretic and corticosteroid.

For 24-hour emergency information on this product, call 1-800-498-5743 (US & Canada) or 1-651-523-0318 (all other areas).

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Harmful if swallowed or absorbed through the skin. Causes moderate eye irritation. Keep away from children, domestic animals, and pets. Do not get in eyes, on skin, or on clothing. All handlers (including applicators) must wear long-sleeved shirt and barrier laminate gloves. Any person who retrieves carcasses or unused bait following application of this product must wear barrier laminate gloves.

User Safety Requirements

Follow manufacturer’s instructions for cleaning/maintaining PPE. If no such instructions for washables exist, use detergent and hot water. Keep and wash PPE separately from other laundry. Remove PPE immediately after handling this product. Wash the outside of barrier laminate gloves before removing them. As soon as possible, wash hands thoroughly after applying the bait, and before eating, drinking, chewing gum, using tobacco, or using the toilet, and change into clean clothing.

ENVIRONMENTAL HAZARDS

This product is extremely toxic to mammals and birds. Dogs and scavenging mammals and birds might be poisoned if they feed upon animals that have eaten this bait. Do not apply directly to water, or to areas where surface water is present, or to intertidal areas below the mean high water mark. Runoff may also be hazardous to aquatic organisms in water adjacent to treated areas. Do not contaminate water when disposing of equipment wash water or rinsate.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

Pesticide Storage: Store in original container in a cool, dry place inaccessible to children and pets. Keep containers closed and away from other chemicals.

Pesticide Disposal: Dispose of wastes resulting from the use of this product in trash or at an approved waste disposal facility.

Container Handling: Nonrefillable container. Do not reuse or refill this container.

Plastic Containers: Triple rinse (or equivalent), then offer for recycling or reconditioning; or puncture and dispose of container in a sanitary landfill; or by incineration.

Paper Containers: Dispose of empty container by placing in trash, at an approved waste disposal facility, or by incineration.
