Triple-Powered Weed & Grass Killing Formula - Diquat, Fluazifop-p-butyl, Dicamba

8.

Remove plastic tab near bottom of sprayer to activate batteries.

Securely snap the hose plug into opening in cap until it snaps into place.

5.

Shake well before each use.

OPERATING INSTRUCTIONS FOR ACCUSHOT®

3.

for safety and use not in accordance with directions.

or rain does not blow or wash pesticide off the treatment area.

Environmental Hazards •

This pesticide is toxic to aquatic invertebrates. Do not apply

directly to water or to areas where surface water is present or to intertidal areas below the

mean high water mark. Do not contaminate water when disposing of equipment

Additional operating notes:

• Do not submerge in water. • Before each use, inspect

nozzle completely to CLOSE position and properly secure sprayer in holster may result in leakage and damage to property or injury to people or animals.

• Use screwdriver to open battery compartment.

2.

Slide switch on hose plug counterclockwise to “OPEN.”

Failure to adjust

application will not wash away effectiveness.

WHEN TO REPLANT

TIPS FOR REPLANTING

• All ornamental flowers, trees and shrubs may be planted

• Hardened off and may be transplanted

• Rake up and remove loosened thatch or debris.

• Mix in starter fertilizer and soil amendments, if needed. Level the soil.

• Sprayed plants begin yellowing and wilting in about 24 hours, with complete kill, including the roots, in one to two weeks.

*Visual symptoms and time to complete kill will depend on weed and grass type, temperature and application rate.

5. Do not mow for seven days before or after treatment.

6. One gallon treats 300 sq ft.

*How to Apply*

is pre-mixed and ready to use and is formulated for "spot" treatment of weeds and grasses.

**COMBO ACCUSHOT™**
**APPLICATION RESTRICTIONS**

1. **Determine size of area to be treated** — measure length and width in feet, then multiply to determine coverage area in square feet (length x width). Use this product to remove the old lawn and existing weeds and grasses.

2. **Use this product to remove the old lawn and existing weeds and grasses.**

3. **For best results, apply in spring or fall, when daytime temperatures are at least 60°F.**

4. **Wait seven days after last application to rake, till or replant with seed or sod.**

5. **Do not mow for seven days before or after treatment.**

6. **Rake up and remove loosened thatch or debris.**

7. **Apply seed according to directions on seed package, or install sod. Grass seed must have good contact with soil to germinate and grow.**

8. **Keep area moist for two weeks to establish new lawn, then water as needed.**

- **2.5x:** Environmental Hazards.
- **5x:** Precautionary Statement.
PICTURED WEED:

When To Use

- Apply PRE-APPLICATION 3 HOURS - 6 HOURS - 24 HOURS before mowing.
- Plantain
- To get the best results, apply during warm, sunny weather (above 60°F) when weeds are actively growing.
- Rainfall or watering 15 minutes after application.
- To avoid drift to desirable plants, apply when the air is calm.
- All ornamental flowers, trees, and shrubs may be planted one day after application.
- Wait seven days after last application to rake, till, or replant with seed or sod.
- Do not mow for seven days before or after treatment.
- One gallon treats 300 sq ft.

KILLS WEEDS & GRASS

- Use it on driveways and walkways, or around fences, flower beds, shrubs, and other areas in your yard.
- Completely cover the leaves of the target vegetation. Do not overspray.
- If desirable plants are accidentally sprayed, wash plants with water immediately.
- Mix alkaline, carbon-zinc, or rechargeable batteries.
- Replace batteries: 1. Remove used batteries. 2. Insert the positive end where the negative end is marked per diagram. 3. Rotate clockwise to "CLOSED." 4. Securely close battery compartment door. 5. Use a complete set of new batteries of the same type when replacing batteries.

Environmental Hazards • This pesticide is toxic to aquatic invertebrates. Do not apply near water, in or on the banks, or in areas below the mean high water mark. Do not contaminate water when disposing of equipment washwaters or rinsate.

Hazards to Humans and Domestic Animals

- Clothing: Wear protective clothing and shoes as directed. Do not let clothing come in contact with skin or eyes.
- Eyes: If in eyes, rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
- Skin: Wash thoroughly with soap and water. Change clothing if contaminated. Wash hands before eating, drinking, or smoking. Do not use or handle this product if you are feeling sick.
- Food and water: Avoid contamination. Do not contaminate water, food, or feed by storage or disposal.
- Keep out of reach of children.
- Do not pet or allow children, pets, or livestock to enter treated areas until product is dry.

First Aid

- Clothing: Take off contaminated clothing. Wash the outside of gloves immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.
- Eyes: If in eyes, rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
- Skin or clothing: Rinse thoroughly with water for 15 minutes. Change clothing if contaminated.
- If swallowed: Do not induce vomiting. Call a Poison Control Center or doctor for treatment advice. Do not give anything by mouth unless instructed to do so by a Poison Control Center or doctor.

Additional operating notes:

- Clean out or replace batteries if the battery compartment door does not close securely.
- Failure to adjust nozzle completely to CLOSED position and properly secure sprayer in holster may result in leakage and damage to property or injury to people or animals.
- To replace batteries:
  1. Open flip-top closure.
  2. To improve accuracy, use slider to extend wand.
  3. Aim toward target area to be treated and away from people and pets.
  4. Remove used batteries.
  5. Insert the positive end where the negative end is marked per diagram.
  6. Rotate clockwise to "CLOSED."
  7. Securely close battery compartment door.
  8. Use a complete set of new batteries of the same type when replacing batteries.

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.
