Proof Bed Bug Nest Killer

**How To Treat**

**Step 1**
Remove any electronic devices or other items from your mattress or box-spring. Open your bed frame or box-spring. Remove any contact paper or plastic wrap from your mattress. Use a vacuum cleaner or Zep® product to remove any allergens from your mattress or box-spring. Leave your mattress or box-spring as is until you are ready to begin your treatment.

**Step 2**
Use your vacuum cleaner or Zep® product to remove any allergens from around your bedroom and in any areas that bed bugs may hide. Affix four (4) treatment pads to inside of your mattress or box-spring bag near the top with vent holes facing in. Ensure that the vent holes are not blocked. Seal your mattress or box-spring bag completely.

**Step 3**
Remove the peel-off seals to expose the vent holes in your bag. Affix four (4) treatment pads to inside of your mattress or box-spring bag near the top with vent holes facing in. Ensure that the vent holes are not blocked. Seal your mattress or box-spring bag completely.

**After 48 Hours**

Remove any electronic devices or other items from your mattress or box-spring. Use your vacuum cleaner or Zep® product to remove any allergens from your mattress or box-spring. Leave your mattress or box-spring as is until you are ready to begin your treatment.

**Precautions**

- Bed bugs can hide in many places. It is important to treat all areas where bed bugs may be hiding. Your mattress or box-spring is a great place to start.
- Do not use insecticide sprays inside your mattress or box-spring bag. This can cause your bed bugs to become more resistant to the treatment.
- Do not attempt to vacuum your mattress or box-spring bag. This can cause your bed bugs to become more resistant to the treatment.
- Do not use any liquid or spray products inside your mattress or box-spring bag. This can cause your bed bugs to become more resistant to the treatment.
- Do not use any electronic devices or other items inside your mattress or box-spring bag. This can cause your bed bugs to become more resistant to the treatment.

**Directions For Use**

1. Affix four (4) treatment pads to inside of your mattress or box-spring bag near the top with vent holes facing in. Ensure that the vent holes are not blocked. Seal your mattress or box-spring bag completely.
2. Open your mattress or box-spring bag in a well-ventilated area or outdoors, away from heat, sparks, or open flame. Unplug any electrical devices nearby. Air out your bed frame or box-spring before opening treated bags.
3. During all stages of treatment, keep bags being treated away from sparks, open flames, or hot surfaces. Always open treated bags in a well-ventilated area or outdoors. Avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, or using tobacco.

**Physical and Chemical Hazards**

**Flammability:** No risk of flash fire, explosion, or deflagration. Do not use near open flames or sparks. Do not use near any electrical devices or other items that can cause a fire or explosion.

**Handling:** Do not inhale, ingest, or allow contact with eyes or clothing. Do not use near any electrical devices or other items that can cause a fire or explosion.

**Storage And Disposal:** Store in a cool, dry area away from heat, sparks, or open flame. Keep away from children. Do not dispose of treated materials in a trash can. Consult your local waste management agency for proper disposal instructions.

**Warranty Statement**

There are two types of Bed Bugs...

The Bed bugs you see and the hiding bed bugs and eggs you don't see.

Most sprays begin the bed bugs you see. They do not target the bed bugs where they are hiding – the adults. Proof Bed Bug Nest Killer penetrates deep to kill bed bugs and eggs in places that sprays can't reach. Bed Bugs can't build up resistance. Proof Bed Bug Nest Killer is a new treatment that works.
To Treat Mattresses, Box-springs, Bed Frames, Furniture, And Large Electronics/Televisions:

Use this product to kill bed bugs, dust mites and their eggs living on the surface and inside cracks and crevices of mattresses, box-springs, furniture, large electronics and other items which can be placed in a treatment bag.

How To Treat

Step 1

For Mattress: Lean mattress (box-spring) upright against a wall away from spark, flame or heat source. Place bag around mattress from top. Turn bag and mattress onto side. Pull bag until mattress is all the way in.

For Other Furniture: Place items inside treatment bag carefully to avoid damaging the bag. Do not attempt to place heavy or large items in bag by yourself.

Step 2

Remove peel-off seals to expose vent holes. Remove sticker liner from back.

Step 3

Affix four (4) treatment pads to inside of bag near top with vent holes facing in. Ensure vent holes are not blocked. Seal bag completely. Inspect bag for airtightness. Repair any holes airtight using tape (e.g. packing tape).

Leave bag sealed for at least 48 hours at 70˚F or higher.

After 48 Hours:

Open bag in well ventilated area or outdoors, away from heat, spark or open flame. Unplug any electrical devices nearby. Air out before removing treated item. Treated items can be used immediately.
STOP — Read Entire Label Before Use

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

Caution: Liquid contained in the treatment pad can cause moderate eye irritation. Do not get liquid in mouth. Avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet.

FIRST AID

If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing. Call a poison control center or doctor for treatment advice.

If ingested: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to by a poison control center or doctor. Do not give anything to an unconscious person.

In the event of a medical emergency call your poison control center at 1-800-222-1222 (24 hours). Have the product container or label with you when calling a poison control center, doctor, or going for treatment.

PHYSICAL AND CHEMICAL HAZARDS

Flammable. During all stages of treatment, keep the treatment pad and treated bags away from heat, sparks, open flames or hot surfaces (e.g. baseboard, floor heaters, stoves, cigarettes, e-cigarettes, etc.). Unplug all electrical equipment prior to opening treated bags.

Storage And Disposal

STORAGE: Protect the product from extreme heat or cold, away from hot surface, sparks, open flame or pilot lights. Do not remove from outer packaging until ready to use.

DISPOSAL: Do not place unused product in trash. The product is for one-time application only, and inner and outer packaging are nonrefillable. Offer used product, packaging, and treatment bag for recycling if available or dispose of in trash.

Warranty Statement

NOTICE: To the extent consistent with applicable law, research and testing have determined the “Directions for Use” are appropriate for the proper use of this product under expected conditions. To the extent consistent with applicable law, user assumes responsibility for the lack of performance or safety if not used as directed.

Directions For Use

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Read entire label. Use strictly in accordance with precautionary statements and directions, and with applicable state and Federal regulations.

To Treat Mattresses, Box-springs, Bed Frames, Furniture and Large Electronics/Televisions:

Use this product to kill bed bugs, dust mites and their eggs living on the surface and inside cracks and crevices of mattresses, box-springs, furniture, large electronics and other items which can be place in a treatment bag.

What You Need:
• Mattress treatment bag (Included)
• 4 treatment pads
• A well-ventilated space, big enough to maneuver a mattress and free of source of spark or open-flame

PRECAUTIONS:
• At all times during a treatment, keep bags being treated away from sparks, open flame or hot surfaces.
• Always open treated bags in a well-ventilated area, away from any source of sparks, open flame or hot surfaces.
• Treatment bag may pose suffocation hazard. Keep away from children. Do not enter or put head into treatment bag.
• Proof Bed Bug Nest Killer is intended to treat items sealed within treatment bags. It cannot control bed bugs or dust mites on surfaces outside of the treatment bag.

See back panel for additional directions for use.
