**How it works:** Roaches enter the home in search of water and are most often found near water sources (i.e.: kitchen and bathroom). This is because a roach can live for up to a month without food, but can only survive seven days without water. This bait is extremely attractive to roaches because it combines an attractive food source with the water source they need, delivering a lethal dose quickly.

1. **Pull tab located on side of bait station to break seal on the vial containing the bait.**

2. **Place bait stations where roaches have been seen, or in out-of-the-way places near walls in cabinets, under sinks and refrigerators and in closets. Place up to five bait stations in the kitchen and one in the bathroom. Heavily infested areas may require additional bait stations.**

3. **Examine bait stations once per month to verify that bait is still present in the station. Replace bait stations every three months or sooner if empty bait stations are found.**

**STOP. READ ENTIRE LABEL BEFORE USE.**

**DIRECTIONS FOR USE**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

1. Pull tab located on side of bait station to break seal on the vial containing the bait.

2. Place bait stations where roaches have been seen, or in out-of-the-way places near walls in cabinets, under sinks and refrigerators and in closets. Place up to five bait stations in the kitchen and one in the bathroom. Heavily infested areas may require additional bait stations.

3. Examine bait stations once per month to verify that bait is still present in the station. Replace bait stations every three months or sooner if empty bait stations are found.

**ALTO. LEA TODA LA ETIQUETA ANTES DE USAR.**

**MODO DE EMPLEO**

Se considera una violación a la ley federal usar este producto de una manera que no sea la indicada en la etiqueta.

1. Jale la lengüeta que se encuentra sobre un lado de la trampa con cebo para romper el sello del vial que contiene el cebo.

2. Coloque las trampas con cebo donde fueron vistas las cucarachas o en lugares escondidos cerca de paredes en gabinetes, debajo de fregaderos y refrigeradores y en clósets. Coloque hasta cinco trampas con cebo en la cocina y una en el baño. En zonas muy infestadas pueden ser necesarias más trampas con cebo.

3. Examine las trampas con cebo una vez por mes para verificar que el cebo aún esté en la trampa. Reemplace las trampas con cebo cada tres meses o antes, si las encuentra vacías.
Black Flag® Liquid Roach Bait • Do Not Allow Children or Pets in Play with the Bait Stations

CAUTION. Wash thoroughly with soap and water after handling bait stations. Net Contents 0.45 fl oz (13.3 mL)
