CONTENTS: 1 U.S. GALLON (3.8 Liters)

DIRECTIONS FOR USE
This product is not to be used as a terminal sterilant/high level disinfectant on surfaces or objects.

PRECAUTI ONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
Do not get in eyes or on clothing. Clothing can absorb the product, causing severe damage. Place in a well ventilated area through which cool air can flow. Keep self and others out of immediate area while cleaning. Wear rubber gloves and safety glasses while using. Avoid inhaling concentrated solution or fumes. Avoid contact with eyes, mouth, and skin.

DANGEROUS INHALATION
The product is toxic if inhaled. Inhaling the product can cause respiratory depression, circulatory shock, and convulsion. Avoid breathing the product. Keep the atmosphere well ventilated.

IF IN EYES:
* Rinse immediately with plenty of water for 15-20 minutes. Do not rub eye. Call a poison control center or doctor for treatment advice.

IF INHALED:
* Remove person to fresh air and keep breathing at normal rates. Call a poison control center or doctor if there is any discomfort or difficulty breathing.

IF SWALLOWED:
* Do not give anything to an unconscious person.
* If able to swallow, rinse mouth with water and drink at least 1-2 cups of water. Do not induce vomiting unless told to do so by a poison control center or doctor.

CONTACT TIME:
* Effective against HIV-1 (AIDS Virus) on hard, non-porous surfaces in the presence of a moderate amount of organic soil (5% or less) 10 minutes at 2 oz. per gal. of 400 ppm hard water and 5% or less organic soil. This product is effective against HIV-1 (AIDS Virus) on hard, non-porous surfaces in the presence of a moderate amount of organic soil (5% or less) 10 minutes at 2 oz. per gal. of 400 ppm hard water and 5% or less organic soil.

PREVIOUSLY SOILED WITH BLOOD/BODY FLUIDS
If there is an expected likelihood of soiling of inanimate surfaces likely to be soiled with blood or body fluids can be associated with the potential for hazardous infections, these surfaces/objects must always be disinfected. Use four ounces per gallon of water for sick rooms, hospitals, or clinics. Keep surfaces wet for at least 10 minutes. Prepare a fresh disinfectant solution directly to the bowl water. Swab the bowl completely and dispose of in a sanitary landfill, or by incineration.

DISINFECTANT, VIRUCIDE AND CLEANER

ACTIVE INGREDIENTS:
- Benzalkonium Chloride .......................................................... 3.3%
- Alkyl (C 50%, C 40%, C 10%) dimethyl 14 12 16
- Diethylenetriamine, benzyl ammonium chlorides

OTHER INGREDIENTS: ................................................................. 95.7%

TOTAL: .................................................................................... 100.0%

KEEP OUT OF REACH OF CHILDREN
DANGER
