No PPE Required

10 Minutes

Triple rinse container (or equivalent) promptly after emptying. Triple rinse as follows: Empty the remaining

Liquid directly into a 5-gallon (19 L) plastic container (or equivalent) using a high-pressure or coarse spray system. Leave all treated surfaces exposed to solution for 10 minutes, or more, and allow to air dry. All treated surfaces that will contact feed or drinking water must be thoroughly scrubbed with soap or detergent then rinsed with water. Treatment areas should be thoroughly cleaned with soap or detergent and thoroughly rinsed with water. Treat all treated areas that will contact feed or drinking water at least two (2) times, in an overlapping pattern with a 10-minute interval between rinses. Dry all treated areas thoroughly. All treated areas must be thoroughly cleaned and dry before the house can be repopulated.

Storage and Disposal

Do not contaminate water, food, or feed by cleaning equipment or disposing of equipment or waste in connection with the use of this product. 

Storing Instructions

Store in a secure area in a cool, dry place. Do not expose to heat or freezing. Store out of the reach of children.

Disposing Instructions

Do not dispose of in surface water drains. Do not dispose by incineration. Do not dispose of in or near waterways, sewers, septic systems, or other bodies of water. 

Waste Disposal

Consult Federal, State or local disposal authorities for approved alternative procedures.
