**DIRECTIONS FOR USE**

This is a violation of federal law to use this product in a manner inconsistent with its labeling.

For use on precleaned, hard, inanimate surfaces. For heavy soil or organic matter, a precleaning step is required. Rinse with clear water. Apply disinfectant solution of two ounces per gallon of water with cloth or mop to toilets, restroom floors, shower stalls, and garbage cans. Wet all surfaces thoroughly. Use four ounces per gallon of water for toilets, hospitals, or clinics. Keep surfaces wet for at least 10 minutes. Prepare a fresh solution daily or when solution becomes visibly dirty.

This product is effective against the following organisms:

- **Staphylococcus aureus**
- **Salmonella choleraesuis**
- **Human immunodeficiency virus, Type 1**

This product is not to be used as a terminal (high level) disinfectant on any surface or instrument that is (1) introduced directly into the human body, either or in contact with the blood or normal or sterile areas of the body, or (2) contacts intact mucous membranes but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body. This product may be used to prevent or decontaminate or clean or medical devices prior to sterilization or high level disinfection.

**PERSONAL PROTECTION:**

**WITH BLOOD/BODY FLUIDS:**

- **SPECIAL INSTRUCTIONS FOR CLEANING AND DECONTAMINATION AGAINST HIV OF SURFACES/OBJECTS SOILED WITH BLOOD/BODY FLUIDS**

**KILLS HIV-1 ON PRECLEANED ENVIRONMENTAL SURFACES/OBJECTS PREVIOUSLY SOILED WITH BLOOD/BODY FLUIDS**

Flush toilet and add 2 ounces of disinfectant solution directly to the bowl. Swab the bowl completely using a scrub brush or toilet mop, making sure to get under the rim. Keep surfaces wet for 10 minutes and flush.

**KILLS HIV-1 ON PRECLEANED ENVIRONMENTAL SURFACES/OBJECTS SOILED WITH BLOOD/BODY FLUIDS**
