**AgriPhage™-CMM**

**Bactericide**

Bactericide for use on tomato plants
[Biological control for bacterial canker disease on tomatoes]

**Active Ingredient:**
Bacteriophage active against *Clavibacter michiganensis* subsp. *michiganensis** ............ 0.0005%

**Other Ingredients:** ............................................................ 99.9995%

**Total:** ................................................................. 100.0000%

*Contains at least 3.8 x 10^{12} PFU per gallon (Contains at least 9.46 x 10^{11} PFU per quart, Contains at least 1.0 x 10^{12} PFU per liter)*

**KEEP OUT OF REACH OF CHILDREN**

**CAUTION**

See attached booklet for additional Precautionary Statements, Directions for Use, and Storage and Disposal Statements.

**PRECAUTIONARY STATEMENTS**

**HAZARDS TO HUMANS AND ANIMALS**

**CAUTION:** Causes moderate eye irritation. Avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet.

**FIRST AID**

If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

**Hotline Number:** Have the product container or label with you when calling a poison control center or doctor, or going for treatment. For non-emergency information concerning this product, call the National Pesticide Information Center (NPIC) at 1-800-858-7378, Monday through Friday, 8:00 a.m. to 12:00 p.m. Pacific Time (NPIC Web site: www.npic.orst.edu). For emergencies, call your poison control center at 1-800-222-1222.

AgriPhage-CMM is a bactericide that is comprised of a formulation of bacteriophage to be used as a preventive and curative product for the control of **Clavibacter michiganensis** subsp. **michiganensis** on tomatoes. Apply AgriPhage-CMM as a preventive to protect growing leaf tissue, or as a curative when the first disease symptoms are visible. Continue throughout the growing season. Begin at the lower application rate of 1 quart of AgriPhage-CMM per 9600 square feet of greenhouse space when plants are small. As plants increase in size and mature, increase application rate to 1 quart of AgriPhage-CMM per 9600 square feet of greenhouse space to ensure adequate coverage. Repeat application 1-3 times per week. Do not apply directly to water, or to areas where surface water is present or to inter-tidal areas below the mean high water mark.

**EPA Numeric Greenhouse**

- Pre-Harvest Interval (PHI): 2 days
- PHI application notes: Apply to foliage by spraying or fogging. Begin applications to seedlings (at the 4 leaf stage) immediately after planting or grafting, prior to the protected handlers may be in the area during application. For any requirement specific to this product, contact the agency responsible for pesticide regulation.

**NOTES:**

- **Compatability:** Do not combine AgriPhage-CMM in the spray tank with denaturing agents or copper salts. Apply AgriPhage-CMM is approved tank mixes or with an alternating spray program, applying denaturing agents or copper salts 4 days after AgriPhage-CMM applications, as copper salts next denaturing agents, either bacteriophage survival. AgriPhage-CMM is compatible with currently used fungicides, latex fertitizers, herbicides, and insecticides, but has not been fully evaluated with all of them. To assure compatibility of one mixture combinations, please consult with your University representative prior to tank mixing. AgriPhage-CMM cannot be mixed with another product with a pesticide warning. Use of this residue results in failure of any residue test for treated materials or equipment. This product is non-toxic through any irrigation system.}

**ENVIRONMENTAL HAZARDS**

**For Terrestrial Uses:** Do not apply directly to water, or to areas where surface water is present or to inter-tidal areas below the mean high water mark. Do not contaminate water when disposing of equipment washwater or rinsate.

**For Terrestrial Uses:** Do not apply directly to water, or to areas where surface water is present or to inter-tidal areas below the mean high water mark. Do not contaminate water when disposing of equipment washwater or rinsate.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage and disposal.

Pesticide Storage:
Store this product at 39.2°F (4°C).

Pesticide Disposal:
Wastes resulting from the use of this product must be disposed of on site or at an approved waste-disposal facility.

Container Handling:
Non-refillable container. Do not reuse or refill this container. Triple rinse container (or equivalent) promptly after emptying. Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank and drain for 10 seconds after the flow begins to drip. Fill the container ¼ full with water and recap. Shake for 10 seconds. Pour rinse into application equipment or a mix tank or store for later use or disposal. Drain for 10 seconds after the flow begins to drip. Repeat this procedure two more times. Then offer for recycling if available or reconditioning if appropriate, or clean and prepare for storage in a sanitary landfill, or by incineration, or if allowed by state and local authorities, by burning. If burning, stay out of smoke.
