FERTILIZER W/ Talstar 0.096%  
1804-0152  
16-5-10

Only for use and storage by commercial applicators for use to control Ants (including Fire Ants), Mole Crickets, and other listed insect pests on lawns in landscaped areas around residential, institutional, public and commercial buildings, parks, recreational areas and athletic fields. For use as a Quarantine Treatment against Imported Fire Ants and for Balled and Containerized Nursery Stocks.

Active Ingredient: By Wt.  
Bifenthrin*………………………………………………………………………………. 0.096%  
Other Ingredients…………………………………………………………………. 99.904%  
Total……………………………………………………………………………….. 100.00%  

* cis isomers 97% minimum, trans isomers 3% maximum  
U.S. Patent No. 4,238,505

PRECAUTIONARY STATEMENTS
Hazards to Humans (and Domestic Animals)

CAUTION  
Harmful if absorbed through skin. Avoid contact with skin, eyes or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove and wash contaminated clothing before reuse.

Environmental Hazards
This pesticide is extremely toxic to fish and aquatic invertebrates. Do not apply when weather conditions favor drift from treated areas. Drift and runoff from treated areas may be hazardous to aquatic organisms in neighboring areas. To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow or wash pesticide off the treatment area. Sweeping any product that lands on a driveway, sidewalk, or street, back onto the treated area of the lawn or garden will help to prevent run off to water bodies or drainage systems.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Not for use on golf courses, sod farms, or grass grown for seed.

Do not apply more than 420 pounds of Fertilizer W/Talstar® per acre per year (0.4 lb alocryl per year). For residential applications, do not apply more than 210 pounds of product per acre per year (0.2 lb alocryl per year).

Applying this product directly to the lawn or garden area. Water treated area as directed on this label.

Do not water to the point of run-off.

Do not make applications during rain.

Resistance: Some insects are known to develop resistance to products used repeatedly for control. Because the development of resistance cannot be predicted, the use of this product should conform to resistance management strategies established for the use area. Consult your local or state pest management authorities for details. If resistance to this product develops in your area, other products with a similar mode of action, may not provide adequate control. If poor performance cannot be attributed to improper application or extreme weather conditions, a resistant strain of insect may be present. If you experience difficulty with control and suspect that resistance is a reasonable cause, immediately consult your local company representative or pest management advisor for the best alternative method of control for your area.

50 lbs. Covers from 10,500 to 21,000 SQ.FT.

FERTILIZER W/ Talstar 0.096% is approved under the USDA Plant Protection Imported Fire Ant Quarantine Certification program when used in accordance with USDA guidelines. Use the recommended application rate given in the table below to determine the length of control required for certification.

Comments: Incorporate appropriate amount of Fertilizer W/Talstar® 0.096% at one cubic yard of potting media based on the known bulk density.

LAWN AND PERIMETER APPLICATIONS

Perimeter Application: Apply to ground area 6 to 10 feet wide and adjacent to the structure using an application rate of 4.75 pounds per 1,000 square feet.

Lawn Application: Broadcast Fertilizer W/Talstar® 0.096% with suitable application equipment to ensure uniform coverage over the treatment area. Apply 2.4 to 4.8 pounds per 1,000 square feet to control the following pests:

- Annual Bluegrass Weevils (Hyperodis)  
- Deer Ticks (Ixodes)  
- Flee (Torridi)  
- Ants  
- Armyworms  
- Imported Fire Ants  
- Billbugs (Adults)  
- Mealbugs  
- Black Turfgrass Attaentus (Adults)  
- Millipedes  
- Centipedes  
- Mole Crickets  
- Sod Webworms  
- Cutworms  
- Fire Ants, Centipedes, Chinch Bugs, Fleas, Imported Fire Ants, Millipedes, Mole Crickets & Ticks  

In New York State, this product may NOT be applied to any grass or turf area within 100 feet of a water body (lake, pond, river, stream, wetland, or drainage ditch).

In New York State, do make a single repeat application of Fertilizer W/Talstar® 0.096% if there are signs of renewed insect activity, but not sooner than two weeks after the first application.

ORNAMENTAL USE

For soil incorporation into potting media used in containerized plantings of ornamental trees, shrubs, plants, flowers, conifers, Christmas trees, and non-bearing fruit and nut trees, and bushes.

HERB USE

For soil incorporation into potting media used in containerized plantings of the following herbs: Angelica; balm; basil; bay; beebalm; chamomile; cup; cherry; chive; Chinese; clover; coriander; (leaf); costmary; culnium (leaf); curry (leaf); dillweed; horehound; hyssop; lavender; lemongrass; loose (leaf); marigold; maroan; nasturtium; pennyroyal; rosemary; mint; sage; savory; summer and winter; sweet bay; tansy; tarragon; thyme; wintergreen; woodruff; and wormwood. Minimum preshipment interval is 30 days for herbs listed above.

Application Instructions for Potting Media

Determine bulk density of the potting media by measuring the dry weight of a unit volume of the mix. Based on the length of control required, thoroughly mix the appropriate quantity of Fertilizer W/Talstar® with equipment suitable to give uniform distribution in the potting mix. Fertilizer W/Talstar® 0.096% may be pre-mixed with an appropriate amount of sand (1:10) to ensure adequate distribution of the product in the mix.
For General Use On Ornamental Plants outside the scope of USDA guidelines:

For Fungus Gnat larvae & Mealy bugs use 5 to 10 ppm. For Black Vine Weevil larvae, Root Weevil larvae, White Grubs (including Japanese Beetle, oriental beetle and European chafer larvae) & Imported Fire Ants use 10 to 25 ppm. Use the higher rates for extended residual control.

Fertilizer W/ Talstar 0.096% is approved under the USDA Plant Protection Imported Fire Ant Quarantine Certification program when used in accordance with USDA guidelines. Use the recommended application rates given in the table below to determine the length of control required for certification.

STORAGE AND DISPOSAL

Prohibitions
Do not contaminate water, food or feed by storage or disposal.

Pesticide Storage
Keep out of reach of children and animals. Store in original containers only. Store in a cool, dry place and avoid excess heat. Carefully open containers. After partial use close tightly. In case of spill, avoid contact, isolate area and keep out animals and unprotected persons. Confinel spills. Call Harrell’s: (800) 282-8007 To confine spill: Cover to prevent dispersal. Place damaged package in a holding container. Identify contents.

Pesticide Disposal
Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

Container Disposal
Paper and plastic bags: Non-refillable. Do not reuse or refill this container. Completely empty bag into application equipment. Then offer for recycling, if available, or dispose of empty bag in a sanitary landfill or by incineration, or by burning. Do not burn unless allowed by state or local authorities. If burned, stay out of smoke.

Conditions of Sale and Limitation of Warranty and Liability:

The Directions for Use of this product must be followed carefully. It is impossible to eliminate all risks inherently associated with the use of this product. Crop injury, ineffectiveness, or other unintended consequences may result because of such factors as manner of use or application, weather or crop conditions beyond the control of Harrell’s, LLC or Seller.

All such risks shall be assumed by Buyer and User, and Buyer and User agree to hold Harrell’s, LLC and Seller harmless for any claims relating to such factors. Seller warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes stated in the Directions for Use when used in accordance with the directions under normal conditions of use. TO THE EXTENT CONSISTENT WITH APPLICABLE LAW, Harrell’s, LLC MAKES NO WARRANTIES OF MERCHANTABILITY OR OF FITNESS FOR A PARTICULAR PURPOSE, NOR ANY OTHER EXPRESS OR IMPLIED WARRANTIES WITH RESPECT TO THE SELECTION, PURCHASE, OR USE OF THIS PRODUCT.
