Supplemental Label

For weed control in perennial cool-season grasses grown for seed production

This supplemental label expires May 31, 2022, and must not be used or distributed after this date.

Active Ingredient:
pyroxasulfone: 3-[[5-(difluoromethoxy)-1-methyl-3-(trifluoromethyl)-1H-pyrazol-4-yl]methyl]sulfonyl]-4,5-dihydro-5,5-dimethylisoxazole .............................................................. 41.46%

Other Ingredients: .......................................................................................................................................... 58.54%

Total: .............................................................................................................................................................. 100.00%

Contains 4.17 pounds of pyroxasulfone per gallon formulated as a water-based suspension concentrate

EPA Reg. No. 7969-374
CAUTION/PRECAUCION

Directions For Use

• It is a violation of federal law to use this product in a manner inconsistent with its labeling.

• The supplemental labeling and the entire Zidua® SC herbicide container label, EPA Reg. No. 7969-374, must be in possession of the user at the time of application.

• Read the label affixed to the container for Zidua SC before applying.

• Use of Zidua SC according to this labeling is subject to the use precautions and limitations imposed by the label affixed to the container for Zidua SC.

Application Information

For use in Oregon and Washington, but only in areas west of the Cascade Mountains in both states.

Zidua SC may be applied to established (defined as planted in fall or spring which has gone through a first grass seed harvest) stands of perennial cool-season grasses (perennial ryegrass and tall fescue) grown for seed production for residual preemergence weed control. Use Zidua SC as part of a weed control program in perennial cool-season grasses grown for seed production either in combination or sequentially with other herbicides for a broader spectrum of weed control and/or control of emerged weeds.

Before applying to perennial cool-season grass grown for seed production, verify with your local seed company (supplier), university extension specialist (e.g., weed scientist, county agent, etc.), or BASF representative the selectivity of Zidua SC on your variety to avoid potential injury.

Product Information

Zidua SC is a selective rate-dependent residual preemergence herbicide for controlling annual grasses, sedges, and annual broadleaf weeds. Refer to the Zidua SC container label for a complete list of weeds controlled.
Application Rate

Apply Zidua® SC herbicide in perennial cool-season grasses grown for seed production at the residual rates provided in Table 1.

Table 1. Residual Rates of Zidua SC in Perennial Cool-season Grasses Grown for Seed Production

<table>

<tr>
<td>Established Stands</td>
<td>DO NOT USE</td>
</tr>
</tbody>
</table>

¹ Refer to Zidua SC product container label for definitions of soil texture groups.

Application Timing

Zidua SC may only be applied in a single application.

Application to Established Stands

Apply Zidua SC at the use rate specified in Table 1 as a broadcast spray to the soil surface in postharvest grass during regrowth at the beginning of significant fall rains or in winter by January 31. Apply Zidua SC before target-weed germination.

Crop-specific Precautions

- Application made in periods of cold temperatures that temporarily limit normal crop growth or in extended cold temperature periods that initiate winter dormancy in grass crops may result in injury.

Tank Mixtures

It is the pesticide user’s responsibility to ensure that all products are registered for the intended use. Read and follow the applicable restrictions and limitations and directions for use on all product labels involved in tank mixing. Users must follow the most restrictive directions for use and precautionary statements of each product in the tank mixture.

Zidua SC may be tank mixed or applied sequentially with other herbicide products registered for use in perennial cool-season grasses grown for seed production for a broader spectrum of control and/or control of emerged weeds. Refer to the tank mix product labels to confirm that the respective tank mix products are registered for use on perennial cool-season grasses grown for seed production. Follow the adjuvant directions for the tank mix partner of Zidua SC.

Crop-specific Restrictions

- DO NOT apply more than 3.0 fl ozs/A of Zidua SC (0.098 lb ai/A of pyroxasulfone) in a single yearly application.

- DO NOT apply Zidua SC in combination with other pyroxasulfone-containing products in perennial cool-season grasses grown for seed production.

- Preharvest Interval (PHI) for seed of perennial grasses - 60 days

- Pregrazing Interval (PGI) to livestock for Zidua SC-treated grass forage and hay - 60 days

- DO NOT apply Zidua SC in coarse soils.
Conditions of Sale and Warranty

The Directions For Use of this product reflect the opinion of experts based on field use and tests. The directions are believed to be reliable and must be followed carefully. However, it is impossible to eliminate all risks inherently associated with the use of this product. Crop injury, ineffectiveness or other unintended consequences may result because of such factors as weather conditions, presence of other materials, or use of the product in a manner inconsistent with its labeling, all of which are beyond the control of BASF CORPORATION (“BASF”) or the Seller. To the extent consistent with applicable law, all such risks shall be assumed by the Buyer.

BASF warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes referred to in the Directions For Use, subject to the inherent risks, referred to above.

TO THE EXTENT CONSISTENT WITH APPLICABLE LAW, BASF MAKES NO OTHER EXPRESS OR IMPLIED WARRANTY OF FITNESS OR MERCHANTABILITY OR ANY OTHER EXPRESS OR IMPLIED WARRANTY.

TO THE EXTENT CONSISTENT WITH APPLICABLE LAW, BUYER’S EXCLUSIVE REMEDY AND BASF’S EXCLUSIVE LIABILITY, WHETHER IN CONTRACT, TORT, NEGLIGENCE, STRICT LIABILITY, OR OTHERWISE, SHALL BE LIMITED TO REPAYMENT OF THE PURCHASE PRICE OF THE PRODUCT.

TO THE EXTENT CONSISTENT WITH APPLICABLE LAW, BASF AND THE SELLER DISCLAIM ANY LIABILITY FOR CONSEQUENTIAL, EXEMPLARY, SPECIAL OR INDIRECT DAMAGES RESULTING FROM THE USE OR HANDLING OF THIS PRODUCT.

BASF and the Seller offer this product, and the Buyer and User accept it, subject to the foregoing Conditions of Sale and Warranty which may be varied only by agreement in writing signed by a duly authorized representative of BASF.
