APPLICATION INSTRUCTIONS
- The best times to spray are early evening and early morning.
- The target spot and point should be completely covered with spray.
- Spray until leaves are wet to the point of run-off.

DIFFERENCES FOR USE
- It is a mixture of Federal law to use this product in a manner inconsistent with its labeling.
- Do not allow adults, children or pets to enter the treated area until spray has dried.

All outdoor applications must be preceded by spot or crack-and-crevice treatments only, except for the following permitted uses:
- Application to soil or vegetation, near or in water:
- Application to buildings, structures, or other non-vegetated surfaces such as windows, doors, patios, porches, and structural surfaces such as windows, doors, and none are limited to spot and crack-and-crevice applications only.

DIRECTIONS FOR USE THROUGH COMPRESSRED SPRAY TANKS
- Mix 1.28 oz of concentrate to 1 gallon of water.
- Mix thoroughly before spraying and spray hand-held sprayers periodically with water.
- This mixture will produce the same chill as the liquid concentrate (100 parts water 1 part concentrate).
