**APPLICATION TO VERTICAL HARD SURFACES**

Prevent treatments: For sections of foundations that join to hard vertical surfaces outdoors can only be treated if either 1) these sections are protected from rainfall and spray from sprinklers, or, 2) the hard vertical surfaces they touch do not drain into a sewer, storm drain, or curbside gutter.

**APPLICATION TO HORIZONTAL HARD SURFACES**

Prevent treatments: For hard surfaces (e.g., driveways, sidewalks) unless the surface is protected from rainfall and spray from sprinklers.

**APPLICATION TO SOILS, VEGETATION, AND LAWNS**

Prevent treatment: For soil or vegetation around structures except for the following permitted uses:

- 1. Treatment to soil or vegetation around structures (e.g., building foundations) are permitted to a maximum height of 3 feet above the ground. Sections of hard vertical surfaces (e.g., building foundations) are limited to spot and crack-and-crevice applications only.
- 2. Application to building foundations, up to a maximum height of 3 feet.
- 3. Application to soil or vegetation around structures (e.g., building foundations) is prohibited to a maximum height of 3 feet above the ground. Sections of hard vertical surfaces (e.g., building foundations) are limited to spot and crack-and-crevice applications only.
- 4. Application is prohibited directly onto soil or vegetation in lawns or on any area like a patio where drainage to sewers, storm sewers, water basins, or aquatic habitat can occur.

**APPLICATION TO BUILDINGS**

Prevent treatment: For buildings. Buildings or building structures (e.g., walls, roofs) do not treat hard surfaces that join or are protected from rainfall and spray from sprinklers unless those hard surfaces do not drain into a sewer, storm drain, or curbside gutter.

**APPLICATION TO PLANTS IN BEDS**

Prevent treatment: For plants in beds unless the plants are protected from rainfall and spray from sprinklers.

**APPLICATION TO INSECTICIDE RESISTANT SPECIES**

Prevent treatment: For insecticide resistant species that join to hard surfaces or are protected from rainfall and spray from sprinklers unless those hard surfaces do not drain into a sewer, storm drain, or curbside gutter.

**APPLICATION TO PLANTS IN BEDS**

Prevent treatment: For plants in beds unless the plants are protected from rainfall and spray from sprinklers.
Before You Apply

How to Apply

After You Apply

Fleas and Ticks (Including ticks that may transmit Lyme Disease)

- Cover or remove exposed food (including pet food).
- Cover all food processing surfaces and utensils.
- Shake well.
- Set spray nozzle to indoor setting.
- Hold sprayer 12 inches from surface being sprayed.
- Apply a 4-inch wide band along the interior of your home in areas where insects are a recurring problem.
- Spray until slightly wet without soaking.

- Do not allow this product to contact water supplies.
- Do not spray into air.
- Shake well.
- Set spray nozzle to outdoor setting.
- Hold sprayer 12 inches from surface being sprayed.
- Apply a 12-inch wide band along the exterior perimeter of your home.
- Spray until slightly wet without soaking.

People and Pets may re-enter treated area after spray has dried.

- Thoroughly wash all food processing surfaces and utensils with soap and water before reuse.
- Repeat as needed. Re-treatment is recommended at least once per season (3 months) outdoors.
- For long-lasting residual control leave spray undisturbed. The product will keep on killing for up to 12 months indoors.*

*For ants, roaches, and spiders indoors on non-porous surfaces.

- Do not spray animals.
- Pet resting quarters may be treated with this product.

How to Apply:

Spot treat infested areas such as pet's resting quarters and localized areas of flooring coverings (rugs, carpet, tile, vinyl & wood) where pests may be present. Old bedding of pets should be removed and replaced with clean, fresh bedding after treatment of pet area. To control the source of flea infestation, pets inhabiting the treated premises should themselves be treated with a product registered for application to animals.

INDOOR SURFACES

OUTDOOR SURFACES

PRECAUTIONARY STATEMENTS

ENVIRONMENTAL HAZARDS

This pesticide contains (b) and (k) insecticides. To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow or wash pesticide off the treatment area. Do not spray off treated areas and do not spray near fish habitats to aquatic organisms in neighboring areas. Care should be taken when spraying to avoid fish killed and surface waters that may be in or near treated areas. The use of this product is highly toxic to bees exposed to direct treatment or residues on blooming plants. Do not apply this product or allow it to drift to blooming plants in flower gardens or the treatment area.

PHYSICAL OR CHEMICAL HAZARDS

Do not apply the product in or on electrical equipment due to the possibility of shock hazard.

NOTICE:

To the extent consistent with applicable law, buyer assumes all risks of use, storage or handling of this product or in accordance with directions.

THE ORTHO® GUARANTEE

If for any reason you, the consumer, are not satisfied with this product, mail us your original proof of purchase to obtain a full refund of your purchase price.

PESTICIDE STORAGE:

Non-refillable container. Do not reuse or refill this container. If empty: Place in trash or offer for recycling if available. If partly filled: Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

STORAGE AND DISPOSAL

PESTICIDE DISPOSAL

AND CONTAINER HANDLING:

Keep from freezing. To be stored in original container and placed in areas inaccessible to children.
INSTRUCCIONES DE USO

ALFA: Control de plagas en superficies exteriores y alrededor de edificios:
Se permite la aplicación del producto en superficies impermeables verticales en exteriores (como cimientos) hasta una altura máxima de 3 pies (90 centímetros).

SUPERFICIES IMPERMEABLES VERTICALES

1. Tratamiento para tierra o vegetación alrededor de estructuras; aplicar hasta una altura máxima de 3 pies (90 centímetros)
2. Aplicación para cimientos de construcción, hasta una altura máxima de 3 pies (90 centímetros)

SUPERFICIES IMPERMEABLES HORIZONTALES

1. Tratamiento perimetral: áreas tratadas deberán estar protegidas de la lluvia y el rocío de aspersores, a menos que dichas superficies impermeables llanas no escurran hacia una alcantarilla, drenaje pluvial o cuneta.

INSTRUCCIONES PARA LA COMFORT WAND®

1. Tratamiento para tierra o vegetación alrededor de estructuras; aplicar hasta una altura máxima de 3 pies (90 centímetros)
2. Aplicación para cimientos de construcción, hasta una altura máxima de 3 pies (90 centímetros)

SUPERFICIES EN INTERIORES

INSTRUCCIONES PARA LA COMFORT WAND®

INSTRUMENTOS DE USO

Aplique como tratamiento focalizado en áreas infestadas, como áreas donde se haga compost, jardín, etc., agregando el producto según sea necesario. Los lugares de descanso de las mascotas pueden ser tratados con este producto. No lo sumerja en agua. Cuando guarde el rociador por periodos prolongados, vea el diagrama marcado dentro del compartimento de las pilas.
PRECAUTIONARY STATEMENTS

ENVIRONMENTAL HAZARDS
This pesticide is extremely toxic to fish and aquatic invertebrates. To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow or wash pesticide off the treatment area. Drift and run-off from treated areas may be hazardous to aquatic organisms in neighboring areas. Care should be used when spraying to avoid fish and reptile pets in/around ornamental ponds. This product is highly toxic to bees exposed to direct treatment or residues on blooming plants. Do not apply this product or allow it to drift to blooming plants or areas bearing the treatment area.

PHYSICAL OR CHEMICAL HAZARDS
Do not apply this product in or on electrical equipment due to the possibility of shock hazard.
