PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS & DOMESTIC ANIMALS

CAUTION: Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet. Remove and wash contaminated clothing before reuse.

PERSONAL PROTECTIVE EQUIPMENT (PPE)
Application and other handling, must wear the following:
• Long sleeved shirt
• Long pants
• Shoes plus socks
• Gloves

Applicators and other handlers, must wear the following:
• In the home, cover all dishes, utensils, food processing surfaces and equipment during treatment or application as a surface spray, crack and crevice or spot spray:
  • Remove or cover exposed food and water fixtures. If not possible, cover with plastic and puncture with needles or nails.
  • Not for use in outdoor residential mosquito misting systems.
  • Remove pets, birds and cover any water inhabited by fish (such as aquariums and ornamental fish ponds).
  • Do not remain in treated area. Exit area immediately and remain outside the treated area until aerosols, vapors, mists and aerosols have dispersed, sprays have dried and/or misted have dispersed.

USER SAFETY REQUIREMENTS:
• Users should remove clothing/PPE immediately if pesticide gets inside. Then wash thoroughly and put on new clothing.
• Follow manufacturer’s instructions for cleaning/maintaining PPE. If there are no such instructions for washables, use detergent and hot water. Keep and wash PPE separately from other laundry.

PHYSICAL & CHEMICAL HAZARDS
Do not use on electrical equipment or on surfaces that can be harmed or stained by water.

DIRECTIONS FOR USE
It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

USE RESTRICTIONS
• Do not enter or allow others to enter areas until insects and arthropods have dispersed. Sprays have dried and the treated area has been thoroughly ventilated.
• Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only properly bottled handlers may be in the area during applications.
• Do not store in treated area. Dust and debris will remain on treated surfaces, and insects and arthropods will disperse. Do not store spray in treated areas.
• Do not apply as an aerosolized treatment to interior surfaces at residential sites, including nurseries, day care centers, schools, hospitals and nursing homes.
• For articles: Do not wet articles to point of runoff or drip. Do not use treated articles until spray has dried.
• Remove pets, birds and cover any water inhabited by fish (such as aquariums and ornamental fish ponds) before application. Do not allow to contact treated areas.
• Application is prohibited directly onto skin or shoes, or to any area where a person where damage to skin, over carpet, walls, wood or trim is expected. Do not allow the product to enter any drain during or after application of any pesticide
• Do not use in indoor residential mosquito misting systems.
• Application is a surface spray, crack and crevice or spot spray. Remove or cover exposed food and water before application. Remove or cover dishes, utensils, food processing equipment and food preparation surfaces or wash them thoroughly before use. Do not apply more than 1 time per day.
• In the home, cover all dishes, utensils, food processing surfaces and equipment during treatment or thoroughly wash before use.
• Do not use on food areas of food handling establishments, restaurants, or other areas where food is commercially prepared or processed. Do not use in serving areas while food is exposed or facility is in operation. Serving areas are areas where prepared foods are served, such as dining rooms, but excluding areas where food may be prepared or held.
• The treated area is treated to the perimeter of the area. This will have a 12 in. clearance from walls and ceilings (including where applicable).
• Do not apply in areas where foods are prepared or held. Non-food preparation areas include areas such as garbage rooms, laundry rooms, restrooms, utility areas, offices, locker rooms, machine rooms, boiler rooms, shop areas and storage and processing (non-food).
• Commercial food areas where the product cannot be used include areas for receiving, serving storage (Dry, Cold, Frozen), Raw, packaging (Cleaning, Storing, Cooling, Grading), edible, waste storage, enclosed processing systems (Meat, Dairy, Edible Oil, Syrups).
• Do not use in aircraft.
