Monthly treatments are required for advanced control and prevention of fleas and ticks. Use this product monthly for control of flea infestations. Studies show that this product kills reinfesting fleas within 2 hours and prevents further infestations of fleas.

How to Open:

1. Remove product tubes from the package.

2. Separate one tube from the others. Hold the tube with notched end pointing between the shoulder blades.

3. Invert tube over dog and use open end to part dog's hair.

How to Apply:

1. Invert tube over dog and use open end to part dog's hair.

2. Squeeze tube firmly to apply all of the solution to the dog's skin as a spot to the dog's back between the shoulder blades.

3. If using two tubes, squeeze tubes separately. Hold the tubes so that the notches along the line are separated. Apply tube directly to skin as a spot to the dog's back between the shoulder blades.

4. If using one tube, apply tube as follows:

   a. Apply one tube 2.5 mL (0.085 fl oz) directly to skin as a spot to the dog's back between the shoulder blades.

   b. Do not apply to dogs weighing less than 21 lbs.

5. Do not contaminate feed or food. It is a violation of Federal law to use this product in a manner not in accordance with the label. It is a violation of the Federal Insecticide, Fungicide and Rodenticide Act to use any pesticide off its label. It is illegal to use this product in a manner not in accordance with the label. It is illegal to use this product in a manner not in accordance with the label. It is illegal to use this product in a manner not in accordance with the label. It is illegal to use this product in a manner not in accordance with the label.
