Keep out of reach of children

See back panel for First Aid and additional Precautionary Statements.

Air Freshener • Disinfectant • Sanitizer • Space Deodorizer

*Sanitizes: Kills 99.9% of Campylobacter jejuni, Escherichia coli (E. coli), Klebsiella pneumonia, Salmonella enterica and Staphylococcus aureus (Staph) on hard, nonporous, non-food contact surfaces in 10 minutes.

Storage and Disposal

Do not contaminate soil that will be used to grow food or feed. Spillage may be incinerated or sent to a waste disposal facility.

Storage: Store in a cool, dry place away from direct sunlight. Do not incinerate or puncture if empty. Store in a well ventilated area. Keep out of reach of children. Contact your local solid waste agency for disposal instructions.

Disposal: Do not contaminate water, food or feed by storage or disposal. Perform an in-place vacuum if necessary before disposing of the material to a sanitary sewer. This product is compatible with septic systems. Disposal of personal and household waste is the responsibility of the user.

Precautionary Statements

Hazards to Humans & Domestic Animals

CAUTION: Harmful if swallowed, absorbed through skin or inhalation. Avoid contact with skin, eyes or clothing. Avoid breathing spray mist. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or going to the toilet. Remove and wash contaminated clothing before reuse.

Physical or Chemical Hazard

Contents under pressure. Do not use or store near heat or open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting. Do not throw container into fire or incinerator. Do not spray on varnished, painted or plastic surfaces. This product is a reducer. Keep away from oxidizers.

DIRECTIONS FOR USE

Shake Well Before Using

Homebright® Disinfectant Spray is a germicidal spray product that kills 99.9% of the following organisms on nonporous, hard non-food contact surfaces in 10 minutes: Methicillin-resistant Staphylococcus aureus (MRSA), Pseudomonas aeruginosa, Salmonella enterica, Staphylococcus aureus, Strep pneumoniae, Staph aureus (MRSA), Vibrio parahaemolyticus, and Enterococcus faecalis. Homebright® Disinfectant Spray is not recommended for use with colored porcelain or plastic, glazed ceramic tile or plastic, shower room floors, hampers (empty), light switches, locker room benches, locker room shower stalls (glazed ceramic tile or plastic), shower room floors, telephones, toilet seats (non-wood) and urinals (glazed porcelain or metal).

Use Restrictions:

This product is not to be used as a terminal sterilant/high-level disinfectant on any surface or instrument that (1) is soiled with blood or body fluids that are part of a communicable disease unit or a body fluid exposure event, (2) is being used in an area in which there is an expected likelihood of soiling of inanimate surfaces/objects with blood or body fluids, and in which the surfaces/objects likely to be soiled with blood or body fluids can be associated with the potential for transmission of HIV.

Personal Protection:

When handling items that have been soiled with blood or body fluids, use appropriate personal protective equipment. Products and equipment used for personal protection must be thoroughly cleaned and disinfected according to the manufacturer’s instructions.

Air Freshener and Deodorizer

Spray away from rooms, such as bathrooms, closets, classrooms, kitchens, living rooms, bedrooms, measuring rooms, food preparation rooms and sidewalks, using 3-second bursts. Direct the spray into crevices and corners of rooms, filling the rooms with a fine mist.

Special Instructions for Cleaning and Disinfection against MRSA, VRE, and Vancomycin-resistant Enterococci (VRE)

Homebright® Disinfectant Spray is a germicidal spray product that kills 99.9% of the following organisms on nonporous, hard non-food contact surfaces in 10 minutes: Methicillin-resistant Staphylococcus aureus (MRSA), Pseudomonas aeruginosa, Staphylococcus aureus, Strep pneumoniae, Staph aureus (MRSA), Vibrio parahaemolyticus, and Enterococcus faecalis. Homebright® Disinfectant Spray is not recommended for use with colored porcelain or plastic, glazed ceramic tile or plastic, shower room floors, hampers (empty), light switches, locker room benches, locker room shower stalls (glazed ceramic tile or plastic), shower room floors, telephones, toilet seats (non-wood) and urinals (glazed porcelain or metal).

Pre-Cleaning

Before using Homebright® Disinfectant Spray, thoroughly pre-clean or sanitize surfaces to be treated. Disinfection and Sanitization

Homebright® Disinfectant Spray is a germicidal spray product that kills 99.9% of the following organisms on hard, nonporous, non-food contact surfaces in 10 minutes: Methicillin-resistant Staphylococcus aureus (MRSA), Pseudomonas aeruginosa, Staphylococcus aureus, Strep pneumoniae, Staph aureus (MRSA), Vibrio parahaemolyticus, and Enterococcus faecalis. Homebright® Disinfectant Spray is not recommended for use with colored porcelain or plastic, glazed ceramic tile or plastic, shower room floors, hampers (empty), light switches, locker room benches, locker room shower stalls (glazed ceramic tile or plastic), shower room floors, telephones, toilet seats (non-wood) and urinals (glazed porcelain or metal).

Pesticide Storage:

Store in a cool, dry (preferably locked) storage area away from sources of heat or ignition. Federal regulations prohibit CFC propellants in aerosols.

Pesticide Disposal:

Resulting from the use of this product may be disposed on site or at an approved waste disposal facility. Contact your local waste disposal agency for disposal instructions.

Care and Uses:

The following care and uses are intended to be a general guide for the use of this product. For specific instructions, please refer to the product label.
