**READ ENTIRE LABEL BEFORE EACH USE**

**USE ONLY ON DOGS**

**DOES NOT USE ON CATS**

**DESCRIPTION:**

- It is a violation of Federal law to use this product in a manner inconsistent with its labeling.
- Do not open until ready to use. Do not put on dogs under 12 weeks.
- Only one collar is to be worn by your dog at any one time.
- Remove the collar from its packaging, separate the Peel-Away Comfort Strip and place in the trash. Place collar around dog’s neck and buckle in place with the main clasp. Feed excess collar through the remaining two clasps for extra hold and a clean fit. Adjust the collar for a snug fit to create contact between the collar and the dog’s hair/coat for better product release and diffusion. A properly fitted collar will allow two fingers to be placed between the collar and dog’s neck. The elasticity of the collar is designed to stretch in the event that the dog becomes entangled. Do not use a double layer collar for dogs.

ShieldTec Flea & Tick Collar For Dogs is a double layer sustained-release system combining the insecticidal actions of vapors and powders working in two ways to provide head to tail protection. Thus, the collar has the effect of simultaneous usage of a spray and powder in the control of fleas and ticks, including ticks that may carry Rocky Mountain spotted fever. Use ShieldTec Flea & Tick Collar For Dogs year-round for most effective control.

**Pesticide Storage:**

- Store this product in a cool, dry place away from children and pets.

**Pesticide Disposal and Container Handling:**

- Do not reuse container or used collar. Dispose of in trash.

**KILLS FLEAS AND TICKS FOR UP TO 6 MONTHS**

- Including Brown dog tick, American dog tick & deer ticks which may carry Lyme disease

**EPA Reg. No. 91100-4 EPA Est. No. 91645-FL-1

**DO NOT USE ON CATS**
