READ THE LABEL FIRST!

QUICK FACTS

• Kills Subterranean, Formosan, and Drywood Termites on contact
• Controls Home-Invading Pests for up to 3 months
• Will not stain or damage exterior surfaces
• Creates protective barrier around home

KILLS
Termites, Ants, Carpenter Ants, Spiders, Ticks, Fleas and Stink Bugs (including Brown Marmorated Stink Bugs and Kudzu Bugs).

WHERE TO USE
Decks, Patios & Porches, Walks, Fences, Posts & Poles, Stored Lumber, Woodpiles, Lawns, Landscape Trees, Shrubs, Flowers, Ground Covers, Vines, Tree Stumps and other listed areas.

WHEN TO USE
To control and prevent insect infestations.

COVERAGE

<table>
<thead>
<tr>
<th>Pest</th>
<th>One Quart Treats up to:</th>
</tr>
</thead>
<tbody>
<tr>
<td>Wood-Destroying &amp; Home-Invading Pests</td>
<td>10,500 sq. ft.</td>
</tr>
<tr>
<td>Lawn Pests</td>
<td>21,000 sq. ft.</td>
</tr>
</tbody>
</table>

TIP: To determine 'square feet', measure length & width of the area to be treated to the nearest foot and multiply the two readings together.

FOR OUTDOOR HOMEOWNER USE ONLY

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

For best results, read and follow all label directions.

BEFORE YOU USE
Read and follow directions when using.

• Do not apply near fish ponds, ponds, streams, rivers or lakes.
• Apply to flowering plants early morning or late evening, when bees are not present.
• Do not apply to plants grown for food.
• Food utensils such as measuring spoons and measuring cups should not be used for food purposes after use with insecticides.
• Do not apply in or on electrical equipment due to possibility of shock.

HOW TO USE
Shake well before use.

OTHER WOOD-DESTROYING PESTS
Use 2 Tbs. (1 fl. oz.) of this product per gallon of water.

Above Ground Termites (Drywood, Formosan), Carpenter Ants, Carpenter Bees & Wood-Infesting Beetles (Ambrosia Beetles, Deathwatch Beetles, False Powderpost Beetles, Old House Borer Beetles, Powderpost Beetles)

HOW TO APPLY
• To keep insects from entering the house, spray a 3 foot band on the ground around the house next to the foundation. Spray the foundation of the house to a height of 1 - 2 feet.
• Spray around doors, windows and other possible entry points.
• Spray or brush evenly onto outdoor wooden surfaces. Spray into areas of known or suspect insect activity such as holes, voids and channels in damaged wood, spaces between wooden parts of a structure, spaces between different types of building materials (for example, wood and concrete) and cracks & crevices. Spray exposed insects.
• Carpenter Bee holes should be filled with a suitable sealant when there is no evidence of bee activity, usually 24 hours after treating holes.
• To protect firewood from Carpenter Ants, treat each 8 square feet of ground with 1 gallon of diluted product prior to stacking.

FOR BEST RESULTS
• Use a Hose-End Sprayer for large areas.

HOME INVADING PESTS
Use 2 Tbs. (1 fl. oz.) of this product per gallon of water. Three gallons of diluted product will treat 1,000 sq. ft.

Ants, Boxelder Bugs, Carpenter Ants, Cedicflies, Centipede, Clusterflies, Cockroaches, Crickets, Elm Leaf Beetles, Firebrats, Fleas, Flies, Gnats, Ground Beetles, Midges, Millipedes, Mosquitoes, Moths, Scorpions, Silverfish, Spiders, Ticks, and Stink Bugs (including Brown Marmorated Stink Bugs and Kudzu Bugs)

HOW TO APPLY
• Spray where these pests may be found or could enter the house, pet quarters or other outbuilding. For example, the walls, eaves, doorways & window frames of the house; spaces between different types of building materials and other cracks & crevices; decks, patios & porches; walls; garages; garbage cans & garage areas; stored lumber & woodpiles; under trees & shrubs.
• To keep insects from entering the building, spray a 3 foot band on the ground around the house next to the foundation. Also spray the foundation of the house to a height of 1 - 2 feet.

FOR BEST RESULTS
• Use a Hose-End Sprayer for large areas.

LAWN PESTS
Use 1 Tbs. (1/2 fl. oz.) of this product per gallon of water. Three gallons of diluted product will treat 1,000 sq. ft.

Pests Above Ground: Ants, Armyworms, Black Turfgrass Atrazine (adult), Bluegrass Billbug (adult), Chiggers, Chinch Bugs, Crickets, Cutworms, Earwigs, Fleas, Grasshoppers, Hyperopus Weevils (adult), Japanese Beetles (adult), Scorpions, Sod Webworms, Ticks (including Deer Ticks).

HOW TO APPLY
• Hose-End Sprayers work best on large areas while Pump Style Sprayers & Sprinkling Cans work best for spot treating smaller sections of the lawn.

FOR BEST RESULTS
• Do not mow or water lawn for at least 24 hours to keep the insecticide above ground.

Pests Below Ground: Fire Ants (aids in control only), Mole Crickets

HOW TO APPLY
• Hose-End Sprayers work best on large areas while Pump Style Sprayers & Sprinkling Cans work best for spot treating smaller sections of the lawn.
• To control Fire Ants, thoroughly drench the entire mound.

FOR BEST RESULTS
• Water lawn thoroughly after application to move insecticide below ground.
• Do not mow lawn until thoroughly watered in.

LANDSCAPE PESTS
Use 1/2 tsp. of this product per gallon of water.

Ants, Aphids, Armyworms, Azalea Caterpillars, Bagworms, Boxelder Bugs, Bristly Rose Slugs, Budworms, California Oakworms, Cancerworms, Casebearers, Clover Mites, Cockroaches, Crickets, Cutworms, Elm Leaf Beetles, Elm Spwanorms, Flea Beetles, Flies, Fungus Gnats, Grasshoppers, Gypsy Moth Larvae, Japanese Beetles (adult), June Beetles (adult), Lace Bugs, Leaf-feeding Caterpillars, Leafrollers, Leaf Skeletonizers, Mealabyugs, Midges, Mosquitoes, Ochreider Moth Larvae, Orchard Weevil, Pears Pyilla, Pepperpot Tree Pyilla, Pillbugs, Pine Shoot Moths, Pine Tip Moths, Plant Bugs, Redhumped, Caterpillars, Sawfly Larvae, Scale Insects (crawler stages), Sawworms, Spiders, Spittlebugs, Striped Beetles, Striped Oakworms, Tent Caterpillars, Thrips, Ticks (including Deer Ticks), Tussock Moth Larvae, Wasps, Walnut Caterpillars, Webworms, Whiteflies, Yellowheaded Caterpillars, and Stink Bugs (including Brown Marmorated Stink Bugs and Kudzu Bugs)

FOR USE ON
Landscape Trees & Shrubs, Roses & Flowers (Annuals, Biennials, Perennials), Ground Covers and Vines

HOW TO APPLY
• Spray leaves until evenly coated, but not dripping.
• To kill insects that hide, spray underside of leaves.
• To achieve outdoor cockroach control, spray hiding or resting places such as under shrubbery & ground covers and in mulch & hollow trees.

FOR BEST RESULTS
• Keep foliage dry for one hour after application.
• Avoid serious damage to plants. Begin treatment as soon as insects or damage first appears.
DIRECTIONS FOR USE (cont’d)

SUBTERRANEAN TERMITES

Building Foundations:
Use 3/4 Cup (6 fl. oz.) of this product per gallon of water.

Prevents subterranean termite infestations. For outdoor homeowner post-construction use only. If termites are found within the house or structure, contact a licensed pest control operator for treatment. Wells and Cisterns: Do not treat structures that contain cisterns or wells. Soil in the vicinity of wells, cisterns, or ponds should not be treated.

HOW TO APPLY
1. Dig a trench next to the foundation, 6” wide and 6” deep or down to the top of the footing, whichever is less. Never dig below the top of a footing (to avoid shifting the foundation). Remove & discard any scrap wood unearthed while digging.
2. Apply 4 gallons of diluted product to every 10 feet of trench length. Refill trench with soil, mixing it with liquid.
3. Reapplication should only be made when there has been a disruption of the chemical barrier in the soil due to construction, excavation, landscaping, etc. Reapplication should be made as a spot treatment to those areas. Annual reapplication of the entire premises must be avoided.

APPLICATION METHODS

SPRINKLING CAN OR BUCKET
1. Shake well. Add the appropriate amounts of concentrate and water to sprinkling can or bucket.
2. Mix well and apply.

PUMP STYLE SPRAYERS
1. Shake well. Add the appropriate amounts of concentrate and water to the sprayer tank.
2. Close sprayer, shake well and pressurize.
3. Adjust nozzle to a coarse spray pattern and apply.
4. Occasionally re-pressurize the sprayer if needed to maintain a good spray pattern.

DIAL-STYLE HOSE-END SPRAYERS
1. Shake well. Fill sprayer jar with enough concentrate to cover plants to be treated. Close sprayer and set dial.
2. Attach sprayer to hose and apply.

CONCENTRATE PLUS WATER HOSE-END SPRAYERS
1. Shake well. Pour concentrate into sprayer jar to the required fluid ounce level.
2. Add the appropriate amount of water to the gallons level.
3. Replace sprayer top and shake well.
4. Attach sprayer to hose and apply.

People and pets may re-enter the treated area after it has dried.

Restrictions
• Do not water the treated area to the point of run-off.
• Do not make applications during rain.
• All outdoor applications must be limited to spot or crack-and-crevice treatment only, except for the following permitted uses:
  (1) Treatment to soil or vegetation around structures;
  (2) Applications to lawns, turf, and other vegetation;
  (3) Applications to building foundations, up to a maximum height of 3 feet.
• Other than applications to building foundations, all outdoor applications to impervious surfaces such as sidewalks, driveways, patios, porches and structural surfaces (such as windows, doors, and eaves) are limited to spot and crack-and-crevice applications, only.
• Application is prohibited directly into sewers or drains, or to any area like a gutter where drainage to sewers, storm drains, water bodies, or aquatic habitat can occur. Do not allow the product to enter any drain during or after application.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

STORAGE CONDITIONS
Store in original container in a cool, dry place, out of the reach of children, preferably a locked storage cabinet. Protect from freezing.

DISPOSAL
If Empty:
• Non-refillable container. Do not refill or reuse this container.
• Place in trash or offer for recycling if available.
If Partly Filled:
• Call your local solid waste agency or toll free 1-877-229-3724 for disposal instructions.
• Never place unused product down any indoor or outdoor drain.

APPLICATION METHODS

SPRINKLING CAN OR BUCKET
1. Shake well. Add the appropriate amounts of concentrate and water to sprinkling can or bucket.
2. Mix well and apply.
DATOS RÁPIDOS

- Mata termitas subterráneas de Formosa, y de la madera seca por contacto
- Controla las plagas que invaden los hogares durante hasta 3 meses
- No mancha o daña superficies exteriores
- Crea una barrera protectora alrededor de la casa

INGREDIENTE ACTIVO:
β-ciflutrina 2,5%

OTROS INGREDIENTES
97,5%

PLAGAS QUE DESTRUYEN LA MADERA

- Termitas, hormigas, hormigas carpinteras, arañas, garrapatas, pulgas, chinches hiediondas (incluido chinches hiediondas marmóreas y chinches Kudzu).
- Adornos, patios y porches, caminos, cercas, postes, leña almacenada y pilas de madera, césped, árboles de jardín, arbustos, flores, cubiertas vegetales, enredaderas, cabos de los árboles y otras áreas de la lista.

COBERTURA
Para controlar y prevenir plagas de insectos.

Plagas que destruyen la madera e invaden el hogar
Un cuarto de galón (0,95 litros) trata hasta:
- 10,500 pies cuadrados (975 m²)

Plagas que atacan el césped
21,000 pies cuadrados (1,950 m²)

CONSEJO: Para determinar los pies cuadrados (metros cuadrados), mida el largo y el ancho del área que debe tratar lo más exacto posible y multiplique las dos cifras.

CÓMO USAR
Agitar bien antes de usar.

CONSEJO:
- Para hacer preguntas o comentarios, llamar al número gratuito 1-877-229-3724 o visite nuestra página Web en www.BioAdvanced.com

INDICACIONES DE USO (continuación)

OTRAS PLAGAS QUE DESTRUYEN LA MADERA

- Termitas que habitan sobre el suelo (termitas de la madera seca y de Formosa), hormigas carpinteras, abejas carpinteras y escarabajos que infestan la madera (escarabajos ambrosia, carcoma Anobiidae, escarabajos Lycidae falso, barrenadores de las casas viejas, escarabajos Lycidae)

CÓMO APLICAR
- Pedir que los insectos ingresen a la casa, rociar una banda de 3 pies (90 cm) de tierra alrededor de la casa y cerca de los cimientos. Rocíe sobre los cimientos de la casa hasta una altura de 1-2 pies (30-60 cm). Rocíe alrededor de puertas, ventanas y otros posibles puntos de ingreso.
- Rocíe o pincelar en forma pareja sobre superficies exteriores de madera. Rocíe en las áreas que se sabe o se sospecha que hay actividad de insectos como por ejemplo existencia de agujeros, huecos y canales en madera dañada, espacio entre las partes de madera de una estructura, espacio entre diferentes tipos de materiales de construcción (por ejemplo, madera y cemento) y fisuras y grietas. Rociar sobre los insectos expuestos.
- Los agujeros de las abejas carpinteras se deben rellenar con un sellador adecuado cuando no exista evidencia de actividad de las abejas, por lo general, 24 horas después de tratar los agujeros.
- Para proteger la leña de las hormigas carpinteras, utilizar un galón (3,75 litros) de producto diluido para tratar 8 pies cuadrados (0,72 m²) de tierra antes de apilar la leña.

PARA OBTENER MEJORES RESULTADOS

- Utilizar un rociador con manguera en áreas grandes.

PLAGAS QUE INVADEN EL HOGAR

- Use 2 cucharadas (1 onza líquida) de este producto por galón de agua. Tres galones del producto diluido tratará 1.000 pies cuadrados.

Hormigas, chinches del arce, hormigas carpinteras, moscas de la familia Cecidomyiidae, ciempiés, mosca pollenia rudis, cucarachas, grillos, escarabajos de la hoja del olmo, thermobia domestica, pulgas, moscas, mosquitas, escarabajos, jojenes, milpiés, mosquitos, polillas, escorpiones, peceto de plata, arañas, garrapatas, y chinches hiediondas (incluido chinches hiediondas marmóreas marrones y chinches Kudzu).

CÓMO APLICAR
- Rocíe sobre los lugares donde se pueden localizar estas plagas o por donde pueden ingresar a la casa, en los lugares donde habitan las mascotas u otras construcciones exteriores. Por ejemplo, las paredes, aleros, portales y marcos de ventanas de la casa; los espacios existentes entre distintos tipos de materiales de construcción y otras grietas y fisuras; adornos, patios y porches, caminos, garajes, recipientes para basura y áreas donde se deposita la basura; leña almacenada y maderas apiladas; debajo de los árboles y arbustos.
- Para evitar que los insectos ingresen a las construcciones, rociar una banda de 3 pies (90 cm) de tierra que se encuentra alrededor de la casa y cerca de los cimientos. Rociar también sobre los cimientos de la casa hasta una altura de 1-2 pies (60-90 cm).

PLAGAS QUE ATACAN EL CÉSPED

- Use 1 cucharada (1/2 onza líquida) de este producto por galón de agua. Tres galones del producto diluido tratará 1.000 pies cuadrados.

Plagas que se encuentran sobre la tierra: hormigas, gusanos soldado, escarabajo negro atemiosis (adultos), escarabajo picudo del Bluegrass (adultos), aradores, chinches del...
This product provides a better way to protect your home against termites, carpenter ants, and other wood destroying pests. This convenient formula kills home invading insects on contact and keeps working for up to 3 months. Protecting your home, garden, and lawn from listed damaging insects has never been easier.

NOTE:
When calling poison control center, have this product label accessible. If seeking treatment at an emergency room or doctor’s office, bring this product label to show medical personnel. For medical emergency information, you may call toll-free 1-877-229-3763.

Active Ingredient: 2.5% β-Cyfluthrin (CAS# 68359-37-5)

FIRST AID

IF SWALLOWED
• Call a poison control center or doctor immediately for treatment advice.
• Have person sip a glass of water if able to swallow.
• Do not induce vomiting unless told to do so by a poison control center or doctor.
• Do not give anything to an unconscious person.

IF IN EYES
• Hold eye open and rinse slowly and gently with water for 15 to 20 minutes.
• Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
• Call a poison control center or doctor for treatment advice.

IF ON SKIN OR CLOTHING
• Take off contaminated clothing.
• Rinse skin immediately with plenty of water for 15 to 20 minutes.
• Call a poison control center or doctor for treatment advice.

IF INHALED
• Move person to fresh air.
• If not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible.
• Call a poison control center or doctor for further treatment advice.

ENVIRONMENTAL HAZARDS
• This product is highly toxic to fish and aquatic invertebrates.
• This product is highly toxic to bees. Do not apply when bees are active.
• To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow or wash pesticide off the treatment area. Rinsing application equipment over the treated area will help avoid run off to water bodies or drainage systems.

NOTICE: Research and testing have determined that the “Directions For Use” are appropriate for the proper use of this product under expected conditions. The Buyer assumes responsibility for lack of performance or safety if not used according to the directions.

Money Back Guarantee: If you are not satisfied with this product, we will gladly refund your original purchase price.
