DIRECTIONS FOR USE

Plant, Soil and Turf Disinfectant and Fungicide

CLEANING AND DISINFECTING WASHABLE, HARD, NON-POROUS SURFACES:

- Do not mix with other chemicals including acids, oxidizing materials, halogens, peroxides, bases, and metal salts.
- Do not use in the presence of organic soil (serum) in 5 minutes at 20°C.
- Trichophyton interdigitale (ATCC 9533) and it passed in the presence of 5% organic soil (serum) in 10 minutes at 20°C.

FLOWERING PLANTS, FRUIT TREES, GARDEN PLANTS, TURF: Septihol® Ethyl WFI at Alcohol Solution is effective in the presence of organic soil (5% blood serum) on hard, non-porous surfaces and may be used for cleaning and disinfecting of all washable, hard, non-porous environmental surfaces such as floors, walls, woodwork, bathrooms fixtures, equipment and furniture. It may be used for cleaning and disinfecting chrome, stainless steel, porcelain, glass, tile, non-porous painted or varnished surfaces, as well as resilient vinyl, linoleum, sealed terrazzo or other combination type floors.

Physiological Plant Stain and Fungicide

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

WARNING: Causes substantial but temporary eye injury. Do not get in eyes or on clothing. Wear protective eyewear such as goggles or safety glasses. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove and wash contaminated clothing before reuse. Propagation or frequently repeated skin contact may cause allergic reactions in some individuals.

FIRST AID

If In Eyes
- If eye irritation or redness persist, wash with water for 15-20 minutes.
- Remove contact lenses, if present, after the first 5 minutes, then continue flushing.
- Call a poison control center or doctor for treatment advice.

If Skin
- Wash skin immediately with plenty of water for 15-20 minutes.
- Call a poison control center or doctor for treatment advice.

If Inhaled
- Call 911 or doctor for treatment advice.
- Hold eye open and rinse slowly and gently with water for 15-20 minutes.
- Call a poison control center or doctor for further treatment.

If Swallowed
- Do not induce vomiting unless told to do so by the poison control center.
- Have the product container or label with you when calling a poison control center or doctor for further treatment advice.
- Rinse mouth and swallow 1-2 glasses of water.
- Call a poison control center or doctor for treatment advice.

If on Skin or In Clothing
- Remove by washing thoroughly with soap and water, then rinse.

Other Ingredients:

- 44.61% Alcohol solution
- 55.39% Ethyl WFI st

Note: Keep out of reach of children.

Other Ingredients:

- 3.78 L (1 Gal) 1S1108

CONTAINER HANDLING: Nonrefillable container. Do not reuse or refill this container. Offer for recycling, if available or dispose in sanitary landfill or by other procedures approved by state and local authorities. Clean container promptly after emptying. Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank and drain for 10 seconds after the flow begins to drip. Fill the container with full with water and mix. Shake for 10 seconds. Pour rinse into application equipment or a mix tank or store rinse for later use or disposal. Drain for 10 seconds after the flow begins to drip. Repeat this procedure two more times.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

PESTICIDE STORAGE: Do not store near heat or open flame. If frozen, thaw and re-mix before use.

PESTICIDE DISPOSAL: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or residue is a violation of a Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste Representative at the nearest EPA Regional Office for guidance.
