PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
DANGER: Corrosive. Causes irreversible eye damage and skin burns. May be fatal if inhaled or absorbed through the skin. Hurts if swallowed. Irritating to nose and throat.
• Open in a well-ventilated area. Do not breathe dust or fumes.
• Do not get in eyes, on skin, or on clothing.
• Wear protective rubber gloves and eyeglasses when handling this product. For additional protection of skin, wear long sleeves and long pants.
• Wash thoroughly with soap and water after handling and before eating, drinking, using tobacco or using the toilet.
• Remove and wash contaminated clothing before reuse.

FIRST AID
IF IN EYES: Hold eyes open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.
IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.
IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice.
IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice.

STORAGE & DISPOSAL:
ENVIRONMENTAL HAZARDS: • Keep away from heat and from flame and burning material (like a lighted cigarette). Open in a well-ventilated area. Do not breathe dust or fumes. Harmful if swallowed, respirable dust is toxic if inhaled. Can cause respiratory irritation, respiratory tract irritation, and is a respiratory sensitizer.
• Wear goggles and rubber gloves when handling this product. For additional protection of skin, wear long sleeves and long pants.
• This product is a single-use chlorine dispenser that treats up to 20,000 gallons of water for up to 4 weeks. It sanitizes, prevents algae and stabilizes pool water. Do not allow contents of floater to get damp or wet before use. Do not allow contents of floater to contact other water treatment products.
NOTE TO PHYSICIAN: Probable necrosis damage may contraindicate the use of gastric lavage.

IN CASE OF EMERGENCY CALL: 1-800-654-6911

PHYSICAL AND CHEMICAL HAZARDS:
DANGER: Corrosive. Causes irreversible eye damage and skin burns. May be fatal if inhaled or absorbed through the skin. Hurts if swallowed. Irritating to nose and throat. Store in a cool, dry, well-ventilated area. Keep away from heat and from flame. Do not breathe dust or fumes. Do not contain ingredients that cause explosions. To incinerate, will form toxic gases.

STORAGE & DISPOSAL:
Keep contents of floater dry before use. Store in a cool, dry, well-ventilated area. Keep away from heat or open flame. Nonrefillable floater. Do not reuse or refill this floater. Once contents of floater are exhausted, lift floater to allow residual water to drain into the pool prior to disposal. Offer for recycling if available. Do not contaminate food or feed by storage or disposal or by depositing in surface waters, to cause fire, explosion, and the release of toxic gases.

NOTE TO PHYSICIAN: Probable necrosis damage may contraindicate the use of gastric lavage.

Thank you for using HTH® products. For all Precautionary Statements and First Aid, statements on back panel before use.

NOTE: Do not remove from pool until floater is completely empty and residual water drains into the pool. Shake floater gently to ensure contents of floater have completely dissolved. Do not refill. This is a single-use floater. A shock treatment will be needed each week while the floater is in use. See "Shock Treatment/Supersaturation" section.

SHOCK TREATMENT / SUPERSATURATION: As a preventative treatment, shock your pool once per week with an HTH® shock treatment. Additional shock treatments may be necessary to remedy problems which may occur when bathing boats are high, water appears hazy or dull, unplanned storms or eye irritation occur, after heavy wind and rainstorms, or if algae does develop with resulting green color and slimy feeling.

That free available chlorine residual with an HTH® test kit or test strips. Do not order pool until the free available chlorine residual is 1-4 ppm. The entry into treated swimming pool is prohibited at available chlorine levels above 4 ppm due to risk of bodily harm.

WATER BALANCE:
Adjust and maintain pool water to recommended ranges:

<table>
<thead>
<tr>
<th>Parameter</th>
<th>Acceptable Range for Balance</th>
</tr>
</thead>
<tbody>
<tr>
<td>Total Alkalinity</td>
<td>40-120 ppm</td>
</tr>
<tr>
<td>pH</td>
<td>7.2-7.6</td>
</tr>
<tr>
<td>Cyanuric Acid</td>
<td>30-100 ppm</td>
</tr>
<tr>
<td>Calcium Hardness</td>
<td>Range 200 ppm</td>
</tr>
<tr>
<td>Available Chlorine</td>
<td>1-4 ppm</td>
</tr>
</tbody>
</table>

NOTE: Always check and adjust total alkalinity before adjusting pH levels. High cyanuric acid levels (100 ppm and above) may result in insufficient free chlorine and harmful bacteria in your pool water.

PENDING 4/3/19
**PRECAUTIONARY STATEMENTS**

**HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

**DANGER:** Corrosive. Causes irreparable eye damage and skin burns. May be fatal if inhaled or absorbed through the skin. Hurts if swallowed. Irritation to nose and throat.

- Open in a well-ventilated area. Do not breathe dust or fumes.
- Do not get in eyes, on skin, or on clothing.
- Wear goggles and rubber gloves when handling this product. For additional protection of skin, wear long sleeves and long pants.
- Wash thoroughly with soap and water after handling and before eating, drinking, using tobacco or using the toilet.
- Remove and wash contaminated clothing before reuse.

**FIRST AID**

- **IF IN EYES:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor immediately for treatment advice.
- **IF ON SKIN OR CLOTHING:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.
- **IF SWALLOWED:** Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.
- **IF INHALED:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice. Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

**NOTE TO PHYSICIANS:** Probable nausea damage may contaminate the use of gastric lavage.

**IN CASE OF EMERGENCY CALL:** 1-800-654-6911

**PHYSICAL AND CHEMICAL HAZARDS:**

- Contents of floater are exposed to small amounts of water, contents can react to cause explosion or the release of toxic gases. Do not add water to this floater.
- Do not allow contents of floater to become wet or damp before use.
- Do not remove floater from water for more than five minutes. It contains a tablet or tablet residue. Contents of floater can react with other materials, including other water treatment products, to cause fire, explosion, and the release of toxic gases.
- Keep all foreign matter, including other water treatment products, away from contents of floater. Contents of floater can react to cause fire, explosion, and the release of toxic gases.
- Keep away from heat and from flames and burning material (like a lighted cigarette).

**ENVIRONMENTAL HAZARDS:** This pesticide is toxic to fish and aquatic organisms.

**STORAGE & DISPOSAL:**

- Keep contents of floater dry before use. Store in a cool, dry, well-ventilated area. Keep away from heat and open flames. Nonperforated floater. Do not reuse or refill this floater. Once contents of floater are exhausted, lift floater to allow residual water to drain into the pool prior to disposal. Option for recycling is available. Do not contaminate food or feed by storage or disposal or cleaning of equipment. FOR DISPOSAL OF A CONTAMINATED OR DECOMPOSING PRODUCT SEE EMERGENCY HANDLING.

**EMERGENCY HANDLING:** In case of contamination or decomposition—Immediately remove floater to an open and well-ventilated outdoor area by itself. Flooded with large amounts of water. Dispose of the floater and any remaining contaminated material in an approved landfill area.

To calculate your pool’s capacity, visit hthpools.com/calculatepools.

**DIRECTIONS FOR USE:**

**WHY YOU SHOULD USE THIS PRODUCT:** This floater makes pool treatment convenient and easy for the on-the-go pool owner. When used as directed, this floater provides enough sanitizer to last up to four weeks.

**HOW TO USE:** This product is a single-use chlorine dispenser that treats up to 20,000 gallons of water for up to 4 weeks. It sanitizes, prevents algae and stabilizes pool water. Do not allow contents of floater to get damp or wet before use. Do not allow contents of floater to contact other water treatment products.

**SIMPLY:**

- **YEAR PERFORATED EDGE.** KEEP THE LABEL FOR FUTURE REFERENCE.
- **TWIST DIAL TO MEDIUM SETTING.**
- **PLACE THE FLOATER IN YOUR POOL.**
- **SNACK YOUR POOL.**
- **ADJUST DIAL UP OR DOWN DEPENDING ON CHLORINE LEVEL NEEDED.**
- **REPLACE FLOATER WHEN IT HAS TIPPED ON ITS SIDE.**

**REGULAR WATER TESTING IS RECOMMENDED TO INSURE PROPER CHLORINE LEVELS ARE MAINTAINED.**

**NOTE:** Do not remove from pool until floater is completely empty and residual water drains into the pool. Shake floater gently to insure contents of floater have completely drained. If necessary, add shock treatment. If the floater will be left in the pool after its contents are depleted, the floater may continue to release chlorine slowly (less than 50 ppm) for several days. Do not leave pool unattended when shock treatment is in use.

**WATER BALANCE:**

- **Acceptable Range for Balance:**
  - **Total Alkalinity:** 80-120 ppm
  - **pH:** 7.2 - 7.6
  - **Cyanuric Acid:** 30-150 ppm
  - **Calcium Hardness:** Above 200 ppm
  - **Available Chlorine:** 1-4 ppm

**NOTE:** Always check and adjust total alkalinity before adjusting pH levels. High cyanuric acid levels (150 ppm and above) may result in insufficient free chlorine and harmful bacteria in your pool water.
PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER: Corrosive. Causes irreversible eye damage and skin burns. May be fatal if inhaled or absorbed through the skin. Harmful if swallowed. Irritating to nose and throat.

• Open in a well-ventilated area. Do not breathe dust or fumes.
• Do not get in eyes, on skin, or on clothing.
• Wear goggles and rubber gloves when handling this product. For additional protection of skin, wear long sleeves and long pants.
• Wash thoroughly with soap and water after handling and before eating, drinking, using tobacco or using the toilet.
• Remove and wash contaminated clothing before reuse.

FIRST AID

If IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, and continue rinsing eye. Call a poison control center or doctor for treatment advice.

If ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

If INHALED: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

If SWALLOWED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice. Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage.

IN CASE OF EMERGENCY CALL: 1-800-694-6991

PHYSICAL AND CHEMICAL HAZARDS:

If contents of floater are exposed to small amounts of water, contents can react to cause explosion or the release of toxic gases. Do not add water to this floater. Add floater to pool water only.

• Do not allow contents of floater to become wet or damp before use.
• Do not remove floater from water for more than five minutes. If it contains a tablet or tablet residue. Contents of floater can react with other materials, including other water treatment products, to cause fire, explosion, and the release of toxic gases.
• Keep all foreign matter, including other water treatment products, away from contents of floater.
• Do not allow this product to come in contact with other water treatment products. Strong oxidizing agent. This product can increase fire intensity.
• Keep away from heat and from flame and burning material (like a lighted cigarette).
• Do not get in eyes, on skin, or on clothing.
• Do not allow contents of floater to become wet or damp before use.

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish and aquatic organisms.

STORAGE & DISPOSAL:

Keep contents of floater dry before use. Store in a cool, dry, well-ventilated area. Keep away from heat and from open flames. Nonrefillable floater. Do not reuse or refill this floater. Once contents of floater are exhausted, lift floater to allow residual water to drain into the pool prior to disposal. Offer for recycling if available. Do not contaminate food or feed by storage or disposal or cleaning of equipment. FOR DISPOSAL OF A CONTAMINATED OR DECOMPOSING PRODUCT SEE EMERGENCY HANDLING.

EMERGENCY HANDLING: In case of contamination or decomposition – Immediately remove floater to an open and well-ventilated outdoor area by itself. Flood with large amounts of water. Dispose of the floater and any remaining contaminated material in an approved landfill area. To calculate your pool's capacity, visit hthpools.com/calculatetopoolpool.
