**GENIE™ LINEN-SCENTED HOSPITAL DISINFECTANT DEODORANT**

**Virucidal**: Staphylococcus aureus and Klebsiella pneumoniae on porous fabric and leather surfaces, such as on shoes, athletic mats, athletic shoes and other athletic equipment.

**Bactericidal**: Escherichia coli; Pseudomonas aeruginosa; Salmonella enterica; Salmonella schottmuelleri (paratyphoid B); Shigella dysenteriae; Streptococcus pyogenes; Staphylococcus aureus; and Methicillin-resistant Staphylococcus aureus (MRSA).

**Tuberculocidal**: Mycobacterium tuberculosis bovis BCG.

**Staphylocidal**: Staphylococcus aureus and Klebsiella pneumoniae on porous fabric and leather surfaces, such as on shoes, athletic mats, athletic shoes and other athletic equipment.

**Sanitizes Fabric and Leather**: Sanitizes fabric and leather surfaces. Spray to thoroughly wet hard, nonporous surfaces. Sanitized fabrics and leather products must be removed carefully protected before disinfection.

**Disinfects Non-porous Surfaces:** Pre-cleaned, hard, nonporous surfaces such as stainless steel, glass, metal, and plastic. Spray to thoroughly wet hard, nonporous surfaces. Disinfectant-treated surfaces must remain wet for 10 minutes. Allow to air dry. Rinse all surfaces that come in contact with food such as countertops, appliances, tubs and potable water. Do not use on utensils, glassware, and dishes.

**Deodorizes**: Removes unpleasant odors from many sources.

**FEATURES, CLAIMS, AND USES**

This product is effective against Viricidal, Bactericidal, Tuberculocidal, and Fungicidal on hard nonporous surfaces when used as a disinfectant. This product has demonstrated effectiveness on pre-cleaned hard nonporous surfaces against the following microorganisms:

**Virucidal**: - Kills Human Immunodeficiency Virus Type 1 (HIV-1) in a terminal dilution of 1:1000 treatment simplex. Virus Type 1 & 2. - Kills Herpes Simplex Virus Type 2, Influenza A2/Hong Kong Virus, Adenovirus Type 5, Vaccinia Virus, Infectious Canine Hepatitis Virus, Canine Distemper Virus, Feline Pneumonia Virus, and Avian Influenza Virus (H5N1).

**Bactericidal**: - Kills Escherichia coli; Pseudomonas aeruginosa. - Salmonella enterica; Salmonella schottmuelleri (paratyphoid B); - Shigella dysenteriae; Streptococcus pyogenes; - Staphylococcus aureus; and - Methicillin-resistant Staphylococcus aureus (MRSA).

**Tuberculocidal**: - Kills Mycobacterium tuberculosis bovis BCG (Tuberculosis bacilli).

**Staphylocidal**: - Kills Trichophyton mentagrophytes; (“athlete’s foot fungus; formerly known as T. interdigitale) in bathrooms, shower areas, and locker rooms. Follow instructions for disinfection.

**Control Mold/Mildew -** Completely inhibits the growth of Aspergillus niger and Penicillium fluorescens fungi on fabric.

**Sanitizes -** Captures Staphylococcus aureus and Klebsiella pneumoniae on porous fabric and leather surfaces, such as on shoes, athletic mats, athletic shoes and other athletic equipment.

**Deodorizes -** Pleasant fragrance quickly suppresses existing unpleasant odors from many sources.

**For Use On:** Industrial, Institutional, Commercial, Medical, and Residential facilities, equipment, and vehicles, including hospitals, ambulances; nursing homes; medical and dental offices; veterinary offices and animal areas; schools; laboratories; hotels and motels; restaurants and cafeterias; food storage, processing, packaging, handling, and serving establishments and equipment offices; stores; factories and manufacturing plants; and apartment buildings and homes.

**Use On:** Most glass, glazed porcelain, glazed ceramic, enamelled, painted, plastic (such as ABS, acrylic, latex, rubber, phenolic resin, polystyrene, polycarbonate, polyethylene, polypropylene, polyethylene terephthalate, polyurethane, and vinyl), metal, sealed leather, finished wood, sealed grout, and sealed concrete, and similar nonporous surfaces.

**PRECAUTIONARY STATEMENTS**

**Hazard to Humans and Domestic Animals:**

**Warning:** Causes substantial but temporary eye injury. Harmful if absorbed through skin. Do not get in eyes or on skin. Clothing may be contaminated with infectious agents (such as blood, body fluids, or secretions). Wash hands thoroughly with soap and water before eating, drinking, chewing gum, using tobacco or using the toilet. Remove contaminated clothing and wash clothing.

**FIRST AID**

**If in eyes:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing. Call a Poison Control Center or doctor for treatment advice.

**If on skin or clothing:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a Poison Control Center or doctor for treatment advice.

**If on skin or clothing:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a Poison Control Center or doctor for treatment advice.

**Net WT. 6 OZ. (170 g)**
